Orkney Partnership Priorities – Orkney’s Community Plan 2021-23

- Community Wellbeing** – Our aim is to support Orkney’s individuals and communities to withstand and recover from the Covid-19 pandemic and its socio-economic impacts – individuals and communities benefit from enhanced support to recover and renew; Orkney’s fragile communities become more resilient and sustainable.

- Sustainable Recovery** – Our aim is to exploit the synergy between two linked priorities: Orkney’s economic recovery from the Covid 19 pandemic and combatting the climate emergency – a demonstratable upturn in Orkney’s economy, supported through co-ordination and implementation of the ASPIRE Orkney Action Plan; A ‘Just Transition’ towards a well-being economy with a focus on climate change, fair work, and diversity; Measurable progress towards Scotland’s target of net zero emissions by 2045; an adaptation strategy to

protect our citizens, businesses, habitats and wildlife from the effects of climate change.

The Council Plan 2018-2023 – Strategic Priority Themes

- Thriving Communities** – The Orkney Community is able to access work, learning and leisure through a modern, robust infrastructure which supports all our communities and meets the requirements of 21st century life.
- Enterprising Communities** – A vibrant carbon neutral economy which supports local businesses and stimulates investment in all our communities.
- Quality of Life** – Orkney has a flourishing population, with people of all ages choosing to stay, return or relocate here for a better quality of life.
