Monitoring and Audit Committee

Thursday, 5 February 2026, 14:00.

Council Chamber, Council Offices, School Place, Kirkwall.

Present

Councillors P Lindsay Hall, Stephen G Clackson, W Leslie Manson, James R Moar and John A R Scott.

Present via remote link (Microsoft Teams)

Councillor Mellissa-Louise Thomson.

Clerk

- Sandra Craigie, Committees Officer.

In Attendance

- Erik Knight, Head of Finance.
- Gavin Mitchell, Head of Corporate Governance.
- Alex Rodwell, Head of Performance and Business Support.
- Andrew Paterson, Chief Internal Auditor.
- Andrew Hamilton, Service Manager (Resources).
- Shonagh Merriman, Service Manager (Corporate Finance) (for Items 1 to 5).
- David Sawkins, Deputy Harbour Master (Strategy and Support) (for Items 1 to 4).
- Jem Brewer, Internal Auditor (for Items 1 to 4).
- Hanna Gray, Trainee Internal Auditor.

In Attendance via remote link (Microsoft Teams)

- Michael Wilkie, Public Sector Audit Partner, KPMG.
- Taimoor Alam, Audit Manager, KPMG.

Observing

- Donna-Claire Hunter, Service Manager (Safety and Resilience) (for Items 1 to 4).
- Pat Robinson, Service Manager (Accounting) (for Items 1 and 2).
- Katie Gibson, Team Manager (Corporate Finance) (for Items 1 to 5).

Apology

- Councillor Gillian Skuse.

Declarations of Interest

- No declarations of interest were intimated.

Chair

- Councillor P Lindsay Hall.

1. Audit Report to those charged with Governance

After consideration of a report by the Director of Enterprise and Resources, copies of which had been circulated, and after hearing reports from the Head of Finance, the Public Sector Audit Partner, KPMG and the Audit Manager, KPMG, the Committee:

Noted:

1.1. KPMG's independent auditor's report in respect of the audit of Orkney Islands Council's Annual Accounts for 2024/25, attached as Appendix 1 to the report by the Director of Enterprise and Resources, in accordance with the International Standard on Auditing 260.

The Committee resolved, in terms of delegated powers:

1.2. That Orkney Islands Council's Letter of Representation to KPMG in connection with its audit of the financial statements of Orkney Islands Council for the year ended 31 March 2025, attached as Appendix 1 to this Minute, be approved.

The Committee scrutinised:

1.3. The Annual Audit Report to the Council and the Auditor General for Scotland, attached as Appendix 3 to the report by the Director of Enterprise and Resources, and obtained assurance.

2. Annual Accounts

After consideration of a report by the Director of Enterprise and Resources, copies of which had been circulated, and after hearing a report from the Head of Finance, the Committee:

Resolved, in terms of delegated powers, that the Annual Accounts for financial year 2024/25, incorporating the Annual Governance Statement, attached as Appendix 2 to this Minute, be approved.

3. Best Value Thematic Report 2024/25

After consideration of a report by the Director of Education, Communities and Housing, copies of which had been circulated, and after hearing a report from the Head of Performance and Business Support, the Committee:

Scrutinised the key messages and improvement actions outlined in the Best Value Thematic Report 2024/25: Transformation, attached as Appendix 1 to the report by the Director of Education, Communities and Housing, and obtained assurance.

4. Internal Audit – Marine Services – Safety, Maintenance and Inspection

After consideration of a report by the Chief Internal Auditor, copies of which had been circulated, the Committee:

Scrutinised the findings contained in the internal audit report, attached as Appendix 1 to the report by the Chief Internal Auditor, relating to policies and procedures in respect of safety, maintenance and inspection of assets utilised in the provision of Marine Services, and obtained assurance that action had been taken or agreed where necessary.

5. Internal Audit – Treasury Management

After consideration of a report by the Chief Internal Auditor, copies of which had been circulated, the Committee:

Scrutinised the findings contained in the internal audit report, attached as Appendix 1 to the report by the Chief Internal Auditor, relating to the procedures and controls in respect of treasury management activities, and obtained assurance that action had been taken or agreed where necessary.

6. Internal Audit – Papa Westray Community School

After consideration of a report by the Chief Internal Auditor, copies of which had been circulated, the Committee:

Scrutinised the findings contained in the internal audit report, attached as Appendix 1 to the report by the Chief Internal Auditor, relating to administrative procedures and controls operating within Papa Westray Community School, and obtained assurance that action had been taken or agreed where necessary.

7. Internal Audit – Westray Junior High School

After consideration of a report by the Chief Internal Auditor, copies of which had been circulated, the Committee:

Scrutinised the findings contained in the internal audit report, attached as Appendix 1 to the report by the Chief Internal Auditor, relating to administrative procedures and controls operating within Westray Junior High School, and obtained assurance that action had been taken or agreed where necessary.

8. Conclusion of Meeting

At 15:24 the Chair declared the meeting concluded.

Signed: P Lindsay Hall.

Dear Sirs

Letter of Representation 2024-25

This representation letter is provided in connection with your audit of the financial statements of Orkney Islands Council ("the Council"), for the year ended 31st March 2025 for the purpose of expressing an opinion:

- i. as to whether these financial statements, in accordance with the Code of Practice on Local Authority Accounting in the United Kingdom 2024-25 give a true and fair view of the state of the Council's affairs as at 31st March 2025 and of the Council and Group's income and expenditure for the financial year then ended;
- ii. whether the Council and Group financial statements have been properly prepared in accordance with UK adopted international accounting standards, as interpreted and adapted by the Code of Practice on Local Authority Accounting in the United Kingdom 2024-25; and
- iii. whether the financial statements have been prepared in accordance with the requirements of the Local Government (Scotland) Act 1973, The Local Authority Accounts (Scotland) Regulations 2014, and the Local Government in Scotland Act 2003.

These financial statements comprise the following: Group and Council Comprehensive Income and Expenditure Statements, Group and Council Balance Sheets, Group and Council Movement in Reserves Statement, Group and Council Cash Flow Statements, the Council Tax Income Account, the Non-domestic Rates Income Account, the Housing Revenue Account the Harbour Authority Account, the UHI Orkney Account and notes to the financial statements, including significant accounting policies..

I confirm that the representations it makes in this letter are in accordance with the definitions set out in the Appendix to this letter.

I confirm that, to the best of my knowledge and belief, having made such inquiries as I considered necessary for the purpose of appropriately informing myself:

Financial statements

1. I have fulfilled my responsibilities, as set out in the terms of the audit engagement letter dated 18 March 2022, for the preparation of financial statements that:
 - i. give a true and fair view of the state of the Council and Group's own affairs as at the end of its financial year and of the Council and Group's own income and expenditure for that financial year;
 - ii. have been properly prepared in accordance with UK adopted international accounting standards, as interpreted, and adapted by the Code of Practice on Local Authority Accounting in the United Kingdom 2024-25; and
 - iii. have been prepared in accordance with the requirements of the Local Government (Scotland) Act 1973, The Local Authority Accounts (Scotland) Regulations 2014, and the Local Government in Scotland Act 2003.

The financial statements have been prepared on a going concern basis.

2. The methods, the data and the significant assumptions used by me in making accounting estimates and their related disclosures are appropriate to achieve recognition, measurement or disclosure that is reasonable in the context of the applicable financial reporting framework.
3. All events subsequent to the date of the financial statements and for which IAS 10 *Events after the reporting period* requires adjustment or disclosure have been adjusted or disclosed.
4. The effects of uncorrected misstatements are immaterial, both individually and in aggregate, to the financial statements as a whole. A list of the uncorrected misstatements is included in Appendix 2.

Information provided

5. I have provided you with:
 - access to all information of which I am aware, that is relevant to the preparation of the financial statements, such as records, documentation and other matters;
 - additional information that you have requested from me for the purpose of the audit; and
 - unrestricted access to persons within the Council from whom you determined it necessary to obtain audit evidence.
6. All transactions have been recorded in the accounting records and are reflected in the financial statements.
7. I confirm the following:

I have disclosed to you the results of my assessment of the risk that the financial statements may be materially misstated as a result of fraud.

Included in the Appendix to this letter are the definitions of fraud, including misstatements arising from fraudulent financial reporting and from misappropriation of assets.

8. I have disclosed to you all information in relation to:
- a) Fraud or suspected fraud that I am aware of and that affects the Council and involves:
 - management;
 - employees who have significant roles in internal control; or
 - others where the fraud could have a material effect on the financial statements; and
 - b) allegations of fraud, or suspected fraud, affecting the Council's financial statements communicated by employees, former employees, analysts, regulators or others.

In respect of the above, I acknowledge my responsibility for such internal control as I determine necessary for the preparation of financial statements that are free from material misstatement, whether due to fraud or error. In particular, I acknowledge my responsibility for the design, implementation and maintenance of internal control to prevent and detect fraud and error.

9. I have disclosed to you all known instances of non-compliance or suspected non-compliance with laws and regulations whose effects should be considered when preparing the financial statements.
10. I have disclosed to you and have appropriately accounted for and/or disclosed in the financial statements, in accordance with IAS 37 *Provisions, Contingent Liabilities and Contingent Assets*, all known actual or possible litigation and claims whose effects should be considered when preparing the financial statements.
11. I have disclosed to you the identity of the Council's related parties and all the related party relationships and transactions of which I am aware. All related party relationships and transactions have been appropriately accounted for and disclosed in accordance with IAS 24 *Related Party Disclosures*.
- Included in the Appendix to this letter are the definitions of both a related party and a related party transaction as I understand them and as defined in IAS 24.
12. I confirm that:
- The financial statements disclose all of the key risk factors, assumptions made and uncertainties surrounding the Council's ability to continue as a going concern as required to provide a true and fair view and to comply with IAS 1 *Presentation of Financial Statements*.
 - No material events or conditions exist that may cast significant doubt on the ability of the Council to continue as a going concern.

- 13 On the basis of the process established by us and having made appropriate enquiries, we are satisfied that the actuarial assumptions underlying the valuation of defined benefit obligations are consistent with our knowledge of the business and are in accordance with the requirements of IAS 19 *Employee Benefits*.

We further confirm that:

- a) all significant retirement benefits, including any arrangements that are:
- statutory, contractual or implicit in the employer's actions;
 - arise in the UK and the Republic of Ireland or overseas;
 - funded or unfunded; and
 - approved or unapproved,
 - have been identified and properly accounted for; and
- b) all plan amendments, curtailments and settlements have been identified and properly accounted for

This letter was tabled and agreed at the meeting of the Monitoring and Audit Committee on 5 February 2026.

Yours faithfully

Gareth Waterson BAcc CA
Director of Enterprise and Resources

Appendix 1 Letter of Representation to Orkney Islands Council: Definitions

Financial Statements

IAS 1.10 states that “a complete set of financial statements comprises:

- a statement of financial position as at the end of the period;
- a statement of profit or loss and other comprehensive income for the period;
- a statement of changes in equity for the period;
- a statement of cash flows for the period;
- notes, comprising a summary of significant accounting policies and other explanatory information;
- comparative information in respect of the preceding period as specified in IAS 1 paragraphs 38 and 38A; and
- a statement of financial position as at the beginning of the preceding period when an entity applies an accounting policy retrospectively or makes a retrospective restatement of items in its financial statements, or when it reclassifies items in its financial statements in accordance with IAS 1 paragraphs 40A-40D.

An entity may use titles for the statements other than those used in this Standard. For example, an entity may use the title ‘statement of comprehensive income’ instead of ‘statement of profit or loss and other comprehensive income’.

Additionally, the financial statements contain the Council’s Statement of Financial Position, Statement of Movement in Reserves and related notes.

Material Matters

Certain representations in this letter are described as being limited to matters that are material.

IAS 1.7 and IAS 8.5 state that:

“Material omissions or misstatements of items are material if they could, individually or collectively, influence the economic decisions that users make on the basis of the financial statements. Materiality depends on the size and nature of the omission or misstatement judged in the surrounding circumstances. The size or nature of the item, or a combination of both, could be the determining factor.”

Fraud

Fraudulent financial reporting involves intentional misstatements including omissions of amounts or disclosures in financial statements to deceive financial statement users.

Misappropriation of assets involves the theft of an entity’s assets. It is often accompanied by false or misleading records or documents in order to conceal the fact that the assets are missing or have been pledged without proper authorisation.

Error

An error is an unintentional misstatement in financial statements, including the omission of an amount or a disclosure.

Prior period errors are omissions from, and misstatements in, the entity’s financial statements for one or more prior periods arising from a failure to use, or misuse of, reliable information that:

- was available when financial statements for those periods were authorised for issue; and
- could reasonably be expected to have been obtained and taken into account in the preparation and presentation of those financial statements.

Such errors include the effects of mathematical mistakes, mistakes in applying accounting policies, oversights or misinterpretations of facts, and fraud.

Management

For the purposes of this letter, references to “management” should be read as “management and, where appropriate, those charged with governance”.

Related Party and Related Party Transaction

Related party:

A related party is a person or entity that is related to the entity that is preparing its financial statements (referred to in IAS 24 *Related Party Disclosures* as the “reporting entity”).

1. A person or a close member of that person’s family is related to a reporting entity if that person:
 - has control or joint control over the reporting entity;
 - has significant influence over the reporting entity; or
 - is a member of the key management personnel of the reporting entity or of a parent of the reporting entity.

2. An entity is related to a reporting entity if any of the following conditions applies:
 - The entity and the reporting entity are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).
 - One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).
 - Both entities are joint ventures of the same third party.
 - One entity is a joint venture of a third entity and the other entity is an associate of the third entity.
 - The entity is a post-employment benefit plan for the benefit of employees of either the reporting entity or an entity related to the reporting entity. If the reporting entity is itself such a plan, the sponsoring employers are also related to the reporting entity.
 - The entity is controlled, or jointly controlled by a person identified in (a).
 - A person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).
 - The entity, or any member of a group of which it is a part, provides key management personnel services to the reporting entity or to the parent of the reporting entity.

A reporting entity is exempt from the disclosure requirements of IAS 24.18 in relation to related party transactions and outstanding balances, including commitments, with:

- a government that has control or joint control of, or significant influence over the reporting entity; and
- another entity that is a related party because the same government has control or joint control of, or significant influence over, both the reporting entity and the other entity.

Related party transaction:

A transfer of resources, services or obligations between a reporting entity and a related party, regardless of whether a price is charged.

Management Commentary

The Management Commentary is intended to assist users in understanding the objectives and strategy of Orkney Islands Council, whilst demonstrating the stewardship of the public funds that support its mission and strategic priorities. It also provides a review of its business and financial performance throughout the year, summarising the position of the Council at the end of March 2025. It outlines the principal risks and uncertainties facing the Council and assesses the potential impact of those risks on future developments and performance. The financial position of the wider Council group is also presented, with the format and content of the Accounts prepared in accordance with the Code of Practice on Local Authority Accounting in the United Kingdom.

Orkney Islands Council

Orkney Islands Council is the smallest local authority in Scotland. Established in 1975, the Council was one of the 3 original all-purpose island local authorities in Scotland. Around half of the population live in the main towns of Kirkwall and Stromness, with the remainder in largely rural and islands situations, giving rise to further cost implications associated with the provision of public services.

Who do we provide our services to?

Population 22,000
Male 49.1%
Female 50.9%

89.8% of the working age population are in employment (77.9%*)

And who operate **1,475 businesses**

Life Expectancy

Female 82.7 years (80.8 years)*
Male 78.7 years (76.8 years)*
 *(Scottish Average, NRS)

What do we provide?

...1,699 employees (FTE) who...

Look after **up to 104 people** in **3 Residential Care homes**

Operate and maintain **29 harbours and piers, 6 airfields, 1 Travel Centre and 14 bus routes** across Orkney

Work in Integrated Health and Social care **supporting children, families, and adults** by partnering with **NHS Orkney**.

Collect waste from **14,397 properties**, maintain **986Km** of Roads and Infrastructure with **265 Council vehicles**.

Provide **1,039 Council Houses**

Teach and Support **3,081 pupils** in **23 Schools**

Distribute start-up and support grants to **local businesses and much more...**

Council Structure

During 2024/25, the Council was structured into 5 main Directorates led by Chief Executive, Oliver Reid, who is responsible for ensuring the Council delivers its services efficiently and effectively to the residents of Orkney. The Director for Strategy, Performance and Business Solutions left Orkney Islands Council on 11 March 2025 and was not replaced. The teams working within this Service were managed across the other directorates on an interim basis.

Council Mission and Strategic Priorities

What are we aiming to achieve for Orkney?

The Orkney Partnership

The Council works alongside four other lead agencies in Orkney to maintain and deliver Orkney's Community Plan. The Council, NHS

Orkney, Highlands and Islands Enterprise (HIE), Police Scotland and Scottish Fire and Rescue Service all have a statutory duty to facilitate community planning. This group works in partnership with a network of other public, private and third sector agencies across Orkney with the shared mission of "Working together for a better Orkney".

The Orkney Partnership

Working together for a better Orkney

The aim of Community Planning is to achieve better outcomes than would otherwise be achieved if they each worked separately. The Council supports the long-term ambitions of the Partnership by sharing both its mission and values, and by aligning the Council's five priorities in the Council Plan with those of the Partnership's three priorities.

The Community Plan, incorporating the Local Outcomes Improvement Plan, can be found at the following link: [Orkney Community Plan 2025-2030 incorporating the LOIP \(orkneycommunities.co.uk\)](https://orkneycommunities.co.uk)

The Council Plan

Our strategic plan for 2023 to 2028 focuses on growing Orkney's economy, strengthening its communities and developing local infrastructure over the next five years.

The 'Council Plan 2023 – 2028' sets out the key priorities for the Council over the next five years as well as the actions and projects that will need to be completed to meet those.

The priorities were developed following feedback from the public, as well as reflecting national priorities set by both the Scottish and UK Governments, the core services which the Council provides day to day and new duties arising from recent legislation.

Progress on the approved plan is reported to Councillors every six months, with the actions attached to each priority subject to review depending on the changing political and financial landscapes affecting the work and resources of the Council.

The Strategic Priorities of the current Council Plan are shown below:

The full Council Plan which details the Council's top priorities and projects to achieve them can be found at the following link: [Council Plan 2023-2028 \(orkney.gov.uk\)](https://www.orkney.gov.uk/council-plan-2023-2028).

Underpinning all of our plans is the Council's commitment to combat climate change, having joined other councils in declaring a climate emergency in 2019. The opportunity to grow our green and blue economies with land and sea-based renewable energy projects will give Orkney a head-start in the race to net zero, reducing energy use whilst simultaneously boosting employment. We will update the Council's own estate to reduce our carbon footprint, improve the energy efficiency of our social housing and facilitate affordable measures to upgrade cold homes and combat fuel poverty.

Reflecting this priority focus, Climate Change was included as a core underlying principle in The Council's 5-year plan, released for public consultation in 2023. The Council is also continuing to manage and report on its own carbon emissions. Along with other Councils, our annual returns in line with the Scottish Government's guidelines, will be made publicly available on the appropriate web page: <https://sustainablesotlandnetwork.org/reports/orkney-islands-council>

How do we achieve the objectives?

The Council has an integrated Strategic Planning and Performance Framework which specifies the roles, responsibilities, systems and processes that enable the Council to meet its strategic priorities as described above. The Framework helps to ensure that the planned outcomes in the Council Plan are directly aligned to the performance measures that monitor its progress.

The following diagram illustrates how the Council's objectives are met, in respect of both the Community and Council Plan, through integrating plans, strategies and performance measures down to individual officer level.

The Council Delivery Plan is the mechanism which acts to guide the work of services responsible for the delivery of the Council's priorities over the remaining years of the Council Plan. The Delivery Plan includes key actions and projects supporting the 25 priorities under the Council's four strategic priority themes.

Looking back over 2024/25

Financial year 2024/25 has continued to be challenging for Orkney with the Cost-of-Living Crisis continuing to affect many in our local community and the budget settlement failing to deliver real terms growth. Council Tax levels for 2024/25 were frozen at 2023/24 levels following a last-minute agreement from the Scottish Government to provide increased funding to cover the resultant reduction in income. Work to identify, progress and develop future budget savings and efficiencies continued during 2024/25 following the budget setting process in February 2024, where it was agreed to fund the gap between the cost of delivering services and available resources by utilising a £20M draw from the Strategic Reserve Fund.

The Council received a further award of £218,000 from the Islands Cost Crisis Emergency Fund and this was distributed by the Orkney Partnership's Cost of Living Taskforce to meet the needs of those who need it most. The funding award was fully spent during 2024/25 and some of the activities to benefit from this funding including, amongst other things, Age Scotland Orkney for winter fuel payments to older people, food vouchers and debt relief administered through the third sector, contributions towards the "every child deserves a Christmas" grant scheme and holiday provision of free school meals.

Recruitment continues to be an issue across Orkney with firms, sectors and services competing for the same staff. As a result, the Council has been reliant on agency staff, particularly in Social Services. The agency staff are critical to the continued delivery of safe services, but costs associated with agency staff outstrip the budgets and have significantly contributed to the Council's financial over spend position, with agency costs for social care costing in the region of £5.8M. During 2024/25 the Council introduced an initiative to recruit to the care workforce by launching the "Golden Hello" scheme which offered those taking on social care roles in specific settings a one-off financial payment of £2,000 and the "refer a friend" scheme to encourage existing employees of the Council to recommend a career in social care, with the referrer receiving £750 if that person successfully applied and remained in the role for three months.

After 23 years with Orkney Islands Council, Karen Greaves, Director for Strategy, Performance and Business Solutions left to take up the post of Chief Executive at Moray Council in March 2025. Following consideration, a decision was taken to not replace this post and for the Council to move to a 4-directorate structure, rather than 5. The details of the proposed new structure required consideration, consultation and approval by the Members, so an interim organisational arrangement was put in place until April 2025.

Highlights

Ferry replacement funding remains at the forefront of the Council's ambitions and the Ferries Taskforce, established in December 2022, continued to meet during 2024/25. The Council was pleased to receive £3M of additional funding from the Scottish Government during the year to support the continued development of a business case for ferry fleet replacement and towards the cost of the ZEV electric ferry trial. This shows a firm commitment from the Scottish Government and Transport Scotland to work with the Council to develop plans for ferry replacement.

On 20 February 2025, the Council approved a capital project to develop and operate their first Community Wind Farm at Quanterness in St Ola. This project will see the development of 6 turbines at Quanterness at a cost of £50.4M, is estimated to generate average annual profit of £3.3M over 25 years, generating a new sustainable income stream for the Council. The Council's commitment to developing Community Wind Farms was a trigger for the new interconnector from Orkney to Caithness which will enable Orkney to harness its renewable energy potential, contributing to the UK's broader goals of increasing renewable energy production and reducing carbon emissions, furthering wider economic benefits for Orkney as a whole.

During financial year 2024/25 Orkney Islands Council's Housing Service took ownership of 14 newly completed houses at Carness, St Ola, and 4 at Moar Drive, Kirkwall, developed by the Council through its capital programme. In addition to that, the Council purchased 14 houses from the open market, enabling a total of 32 new local authority houses to become tenanted over the last 12 months.

In March 2024 Orkney was awarded £20M over 10 years through the Long-term Plan for Towns, by the UK Government. The General Election took place in July 2024, and Labour became the new party in power at Westminster, meaning there was some uncertainty on the funding Orkney had been awarded and a pause was required while the outcome of the Autumn budget statement was known. It was therefore very good, to receive notification from the UK Government in December 2024, that the £20M funding would be retained and reformed into a new regeneration programme, with confirmation the funding allocation can be used for the whole of Orkney, not just Kirkwall. The Orkney Towns Board is continuing work to identify the projects for development using this funding award, with the first delivery grant funding becoming available in financial year 2026/27.

Finance and Performance

Financial information is a key part of the Council's Strategic Planning and Performance Framework with Council Services' financial performance regularly reported to members and the respective Committees. In reviewing the financial performance of the Council, the trading activities including the Housing Revenue Account, Harbour Authority including Strategic Reserve Fund, and UHI Orkney all need to be recognised in addition to that of General Fund Services.

The Strategic Reserve Fund, held as part of the Harbour Authority Account, has been applied to supplement the General Fund services as part of an agreed medium-term financial strategy. For the financial year 2024/25 it was agreed that £20.000M from the Strategic Reserve Fund be used as a funding source to supplement the General Fund Services revenue budget. The purpose and strategy of the Strategic Reserve Fund is detailed under the Harbour Authority Account section.

Revenue Expenditure

General Fund

Day-to-day income and expenditure on service provision is accounted for in the Comprehensive Income and Expenditure Statement (CIES) which includes all activities associated with the General Fund Services, the Housing Revenue Account and Harbour Authority.

The revenue outturn position will be reported to the Policy & Resources Committee on 23 September 2025.

The following table shows the linkage between the budget figures reported to committee and the figures in the Annual Accounts.

Note 7 provides a reconciliation of the £3.055M of accounting adjustments that are made to the net expenditure chargeable to the Fund Balances to arrive at the amounts in the CIES.

2024-2025	General Fund Outturn					Annual Accounts	
	Approved Budget £000	Budget movements throughout the financial year £000	Revised Budget £000	Actual Net Expenditure £000	Variance £000	Accounting Adjustments £000	Net Expenditure per the Annual Accounts £000
Education	46,463	1,984	48,448	48,888	440	6,769	55,657
Cultural and Recreation	4,993	326	5,319	5,190	(129)	2,425	7,615
Orkney Health & Care	28,698	665	29,363	32,919	3,556	2,465	35,384
Roads and Transportation	11,242	186	11,428	12,748	1,320	1,364	14,112
Environmental Services	4,309	88	4,397	4,740	343	678	5,418
Other Services	16,598	(365)	16,232	11,707	(4,525)	4,432	16,139
Housing Revenue Account	(560)	560	0	221	221	(275)	(54)
Harbour Authority	(1,921)	1,921	0	(2,077)	(2,077)	(921)	(2,998)

Other Income and Expenditure	(97,486)	(16,962)	(114,448)	(99,264)	15,184	(14,190)	(113,454)
Deficit/(Surplus) For Year	12,336	(11,597)	739	15,072	14,333	3,055	18,127

Explanations of major spend and variances throughout the year

Orkney Health & Care – The continuation of recruitment pressures has resulted in the ongoing requirement to use agency staff to cover essential posts, which costs a premium.

Roads and Transport – Winter maintenance costs, surface treatment and patching for 2024/25 were high. Annual costs of maintaining airfield runways and general infrastructure are also high.

Other Services – Underspend on loan charges due to slippage on the planned delivery of the capital programme and the current programme of approved projects nearing completion. Increased interest on revenue balances.

Principal sources of finance

Savings

As government funding continues to reduce in real terms, the Council recognises the financial challenges that come with the ongoing reduction in resources. The graph below shows the level of savings that Orkney Islands Council has delivered over the last five years and also the contributions taken from the Strategic Reserve Fund over the same period.

Within the 2023/24 budget setting process there were un-committed balances of £9.2M which were utilised for one year only, however as these balances were fully utilised in 2023/24, this has led to an increase in the draw on the Strategic Reserve Fund for 2024/25.

In 2024/25 each service was allocated savings targets which it was recommended would form part of their budget, and budget monitoring. Each Directorate has a Directorate Delivery Plan (DDP), within which the efficiency savings identified by services during the 2024/25 budget setting process form the starting point for the detailed operational service plans, recommended by the Accounts Commission Best Value report, to put finances on a more sustainable footing. The implementation of the financial action plans will assist services in meeting their savings targets. Services will be required to build on and develop full recovery plans to meet savings targets which amount to £9.0M over the three-year period 2025/26 to 2027/28. Where Directorates have not achieved their 2025/26 savings targets, service budget savings and/or income targets require to be reviewed for 2026/27 and 2027/28.

The 2025/26 budget includes a contribution from reserves of £18.431M to ensure a balanced budget. The medium-term financial strategy for the period 2025/26 to 2029/30 highlights that a growing contribution from reserves to meet in-year service costs is no longer sustainable, and baseline budgets need to return closer to funding levels. The indicative budget forecasts estimate a funding gap of £29.4M by 2030/31 without corrective action. Within the Council's Long Term Financial Plan for the period 2018 to 2030 it stated that the Council would face a best-case scenario cumulative funding gap of £23.6M over this period, with a worst-case scenario of £145.6M, with the most likely scenario at £65.7M. This included a planning assumption that the financial contributions from the Strategic Reserve Fund will be maintained over this period.

However, these, now already historical, projections only serve to illustrate that the Council faces a significant challenge over the next five years in matching the level of expenditure to the available resources. The Council's Long-Term Financial Plan requires updating to reflect recent performance, current assumptions, efficiency targets, and Strategic Reserve Fund draws.

Reserves

Use of the Council's Reserves is an important component in assessing the Council's ability to deliver effective services, as they support financial stability and provide flexibility to assist in the delivery of change and transformation. Within the Council's useable reserves, there are both uncommitted and earmarked reserves, with uncommitted reserves held to ensure the Council can manage any unexpected financial demands without disrupting delivery of Council services. The existing policy is

to make a substantial financial contribution from the Strategic Reserve Fund each year to maintain the level of Council services currently provide, while keeping the Council Tax on or below the national average for all Scottish local authorities.

The Movement in Reserves statement shows an overall net decrease of £11.882M in usable reserves.

The Council's Reserves Strategy review set a target for the unearmarked General Fund balances at 2% of budgeted expenditure for 2025/26.

As inflationary pressures built up throughout financial year 2024/25, it was felt prudent to continue to put on hold the practice of accelerating debt repayments, with no additional funds available to provide the additional flexibility needed to manage these recurring pressures going forward. This also in part recognised the effect that recurring slippage on the capital programme has had on the Council's capital financing requirement.

Full details of the Council's Movement in Reserves are shown in Note 22 Reserves.

The graph below summarises the Movements on the Reserves for 2024/25:

Harbour Authority Account

The Harbour Authority Account is made up of three separate ring-fenced operations under Miscellaneous Pier and Harbours, Scapa Flow Oil Port and the Strategic Reserve Fund. Overall, the Harbour Authority generated a gain of £2.999M, from various harbour activities due to an increase in ship to ship transfers and increased fees. Investment activities through the Strategic Reserve Fund returned a gain of £2.400M for the year and after netting off grants and other investment expenditure there was an overall gain on the Harbour Authority Account of £5.541M.

Investment activities include externally managed fund investments plus a range of local investments in the form of property, direct investment and loans to businesses.

Financial assets include the following externally managed investments, held as part of the Strategic Reserve Fund on the Harbour Authority Account:

The Council aims to achieve the optimum return on its investments commensurate with proper levels of security and liquidity. The risk appetite of this Council is low in order to give priority to security of its investments. This is in keeping with the nature of the Council's Strategic Reserve Fund, which is to provide for the benefit of Orkney and its inhabitants, whilst having regard to the Fund's long-term commitments in terms of the decline and decommissioning of the Flotta Oil Terminal in the future.

The prime objective for the managed fund investments is to maintain or increase their value in real terms over time, after allowing for disbursements or spending commitments on the Strategic Reserve Fund. To achieve this, external fund managers are incentivised to outperform the benchmarks for their respective mandates, in order to meet the targets, set by the Council.

The performance of the Strategic Reserve Fund externally managed fund investments is measured against a range of indices reflecting the weighting or concentration of individual asset classes within the approved investment strategy with a target to outperform the aggregate benchmark over a rolling 3-year period. The following table indicates how managed fund investments have collectively performed relative to benchmark as at 31 March 2025:

Managed Funds Investment - Performance summary

Strategic Reserve Fund managed fund investments decreased to a total of £251.894M, which after allowing for transfer or cash outflows, represented a gain of 2.5% on the year, with further analysis provided at Note 15.

After allowing for amounts required by statute and non-statutory proper accounting practice, including the use of reserves during the year, which included net contributions of £20.635M to support General Fund services, the net effect has been a decrease of £12.480M on the Harbour Authority Account Reserves for the year.

Housing Revenue Account (HRA)

The HRA returned a small gain on its operations of £0.054M which can largely be attributed to less depreciation of housing stock during the current year of £1.232M (£2.477M for 2023/24). After allowing for accounting for fixed assets and employee pension benefits, accelerated debt repayment and transfers to/from Reserves, the HRA achieved a deficit position of £0.220M for the year resulting in a reserve balance of £0.583M as at 31 March 2025 (£0.803M as at 31 March 2024).

UHI Orkney

The range of higher and further educational activities provided by UHI Orkney returned a deficit of £1.472M for the year (deficit of £0.832M for 2023/24). A large proportion of this accounting deficit can be attributed directly to being unable to achieve external funding to supplement core Scottish Funding Council support. On a funding basis, the net effect of UHI Orkney's activities resulted in a deficit of £0.860M for the year resulting in a fund liability of £1.415M as at 31 March 2025 (£0.555M as at 31 March 2024).

Orkney Integration Joint Board

The Orkney Integration Joint Board (OIJB) was established as a body corporate by order of Scottish Ministers with effect from 6 February 2016. The main purpose of the OIJB is to plan, resource and oversee the delivery of high-quality health and social care services for and with the people of Orkney. The Council and the NHS are jointly accountable for the delivery of services by the OIJB.

The OIJB is included as a joint venture within the Group Accounts on the basis that the parties have joint equal rights to the net assets. A comprehensive review of the Integration Scheme was undertaken which was approved by NHS Orkney and Orkney Islands Council. The revised Integration Scheme was approved by Scottish Government in May 2022.

Capital Expenditure

Capital expenditure represents money spent by the Council for buying, upgrading or improving assets such as buildings and roads. The Council receives the benefit from capital expenditure over a period exceeding one year, and the expenditure is financed and accounted for over the useful life of the assets. Further details, including the comparative figures are provided in Note 28.

£17.179M

Actual capital expenditure incurred in 2024/25

£0.296M

Underspend due to expenditure not meeting the profile assumed in the capital programme

Projects with the largest capital spend in 2024/25:

Investing in Education £2.066M

Investing in Roads, Transport and Infrastructure £5.265M

Investing in Housing £2.994M

Investing in Social Care £3.807M

Investing in Plant and Vehicles £1.356M

Investing in IT £0.481M

Investing in Community and Recreation £1.070M

Other £0.140M

Funding of the Capital Programme:

£4.900M General Capital Grant

£5.128M Borrowing

£3.882M Specific Grants

£1.746M Funded from Revenue Contributions

£1.013M Other Capital Grants

£0.510M Capital Receipts

It has been recognised that in setting an ambitious capital programme in previous years, it was not deliverable due to weaknesses in the forward planning process, which resulted in a significant amount of capital programme slippage. Slippage is defined as capital projects which have not progressed in accordance with provisions made within the capital programme, which has been further compounded during the last few financial years by reduced capacity within the construction industry, material shortages and delays with the delivery of plant and vehicles. Although there can be positive consequences of slippage this is recognised as a weakness on the basis that these delays are likely to result in higher costs for the Council to deliver the approved capital programme.

The position as at 31 March 2025 has been greatly improved due to the decision taken at Policy and Resources Committee on 18 June 2024 to remove projects which were not progressing and where no contractual commitment existed.

Performance against Prudential Framework Indicators

The Prudential Code for Capital Finance in Local Authorities allows greater local flexibility for investment decisions that are informed and supported by a suite of performance indicators. The indicators for 2024/25 were approved by Council on 11 March 2024. The Council's overall performance against these indicators provides a firm basis for the monitoring and control of capital investment and borrowing and for determining that it is prudent, affordable, and financially sustainable.

The key performance indicators are:

Prudential Indicator	Original Limit	Actuals	Commentary
Approved limit for capital expenditure	£19.254M	£17.179M	The maximum that the Council may spend on capital investments during the year.
Capital financing requirement	(£1.612M)	£3.458M	The Council's aggregate capital expenditure that is yet to be financed.
Aggregate external debt as at 31 March 2025		£50.000M	
Operational boundary	£75.000M		The upper limit for the aggregate external borrowing need.
Authorised limit	£85.000M		The upper limit of aggregate external borrowing that is affordable and prudent.

Treasury Management

The borrowing strategy is prepared in accordance with the Code of Practice on Treasury Management in Local Authorities and with the Council utilising a borrowing facility from the Public Works Loan Board (PWLB).

Following on from the PWLB Consultation in July 2020, HM Treasury has published revised lending terms which restricts the use of PWLB funds, by disallowing councils use of the funds as a means to purchase investment assets primarily for yield. These new restrictions also extend further to ensure that no lending to councils will be approved if there is the intent to buy assets for yield in the capital plans. As a result of these changes to lending terms, the Council may face additional challenges in securing borrowing for future capital projects.

The Council's Treasury Management Strategy is recommended by the Policy and Resources Committee and ensures that decisions are scrutinised sufficiently to mitigate potential risk. This can be found at the following link: [Treasury Management Strategy](#)

Balance Sheet

The Balance Sheet represents a snapshot of Orkney Islands Council's overall financial position as at 31 March 2025. It brings together the year-end balances of all the Council's accounts and presents money owed to and by the Council, assets owned and the reserves at the Council's disposal.

In financial terms, the Council remains in good health, with its net worth standing at £690.735M, however, this is a decrease of £135.031M or 16.4% on the previous year. This decrease is linked to the recognition of an asset ceiling on the Pension Fund asset as at 31 March 2025, with further details included at Note 33.

Explanation of the main changes to the Council's Balance Sheet

Long term assets – The increase reflects the revaluation of fixed assets

Current assets – The decrease is mainly due to a reduction in the value of the externally managed investments of the Strategic Reserve Fund.

Long term liabilities – The increase in long term liabilities reflects the inflationary increase applied to the Flotta decommissioning provision.

Current liabilities – The increase in current liabilities reflects debt due to be repaid in the next twelve months.

Usable Reserves – The decreases on usable reserves can be attributed to the losses on the Strategic Reserve Fund, and a reduction on earmarked reserves.

Unusable Reserves – The decrease on unusable reserves can be attributed to the recognition of an asset ceiling on the pension assets.

Details of Assets and Liabilities

Assets: £813.069M

Liabilities: £56.241M

Key Financial Ratios

The Chartered Institute of Public Finance and Accountancy (CIPFA) Directors of Finance Section recommends that certain “financial ratios” are included in the Management Commentary to assist the reader to assess the performance of the Council over the financial year and the affordability of its ongoing commitments. The following table provides details of those indicators with an explanation of each, grouped into CIPFA categories for the various areas of financial activity.

Financial Indicator	2023-24	2024-25	Commentary
Reserves			
Uncommitted General Fund reserve as a proportion of Annual Budgeted Net Expenditure	3.2%	3.7%	This reflects the level of funding available to manage financial risk/unplanned expenditure and 2024/25 budget requirements and is considered sufficient.
Increase/(Decrease) in the Uncommitted General Fund Balance	£(8.055M)	£0.746M	Reflects the review of the Councils Uncommitted General Fund Reserve.

Financial Indicator	2023-24	2024-25	Commentary
Council Tax			
In-year Collection Rate	98.4%	95.9%	Reflects the Council's effectiveness in collection of Council Tax debt and financial management.
Ratio of Council Tax Income to Overall Level of Funding	11.3%	10.7%	Reflects the Council's capacity to vary expenditure by raising Council Tax income, a principal source of finance within the Local Authority control.
Financial Management			
Actual Outturn Compared to Budgeted Expenditure	101.2%	100.9%	How closely expenditure compares to the budget is a reflection of the effectiveness of financial management. The indicator is based on the format of budget monitoring as reported throughout the year.
Actual Contribution to/(from) Unallocated General Fund Balance compared to Budget	7.7%	(0.4)%	
Debt/Long-term Borrowing			
Ratio of Financing Cost to Net Revenue Stream:			These two ratios indicate the scale of financing costs compared with the level of funding available to the Council.
General Fund	0.5%	0.58%	
HRA	19.9%	29.6%	

Group Accounts

In accordance with the Code of Practice on Local Authority Accounting in the United Kingdom the Council has prepared Group Accounts to reflect its interests in subsidiaries, associates and joint ventures. The Council has identified 2 "subsidiary" entities where the Council has a "controlling interest", as follows: Orkney Ferries Limited and the Pickaquooy Centre Trust.

The Council has also included the results of Hammars Hill Energy Limited as an "associate", as the Council holds 28% of voting rights which is considered a "significant influence".

The Orkney Integration Joint Board is included as a "joint venture". The Council's interest in the Orkney Research and Innovation Campus was sold during the financial year and so is no longer included. The effect of recognising the Council's interests in subsidiaries and associates on a group basis is a decrease in net worth of £1.418M to £689.317M.

Council Plan Targets, Outcomes and Planned Actions

The table below summarises the status of the 36 action points contained within the Council's Delivery Plan 2023-2028 as at 31 March 2025, under the key themes of the Council Plan 2023-2028:

Council Plan Themes	Red	Amber	Green	Total
Growing our Economy	2	3	2	7
Strengthening our communities	3	8	1	12
Developing our Infrastructure	5	1	1	7
Transforming our Council	5	2	3	10
Total	15	14	7	36

Action point progress
<p>Net-zero and de-carbonisation</p> <p>Education, Leisure and Housing Services (ELH) are working with colleagues in Neighbourhood Services and Infrastructure to identify opportunities to decarbonise heating systems across the ELH estate. In addition to this, the Orkney Local Heat and Energy Efficiency Strategy (OLHEES) and the Delivery Plan were presented at Policy and Resources Committee in February 2025 and subsequently approved by Council. Work continues to monitor market technology and take advantage of opportunities to bring zero carbon vehicles into the Council fleet, and the project to trial an electric HGV, through grant funding being managed by teams from Enterprise and Sustainable Regeneration, is now underway.</p>
<p>Support for local business</p> <p>The Enterprise and Sustainable Regeneration Service continues to support local businesses through advice provided by the Business Gateway service and with direct support through development grants.</p>
<p>Living independently</p> <p>The new three-year Strategic Plan, developed by the Strategic Planning Group, was approved by the Integration Joint Board on 30 April 2025. To go alongside the Strategic Plan, a Strategic Plan Delivery Plan 2025/26 has been developed by the Strategic Planning Group and was approved by the Integration Joint Board on 30 April 2025. Regular meetings with the Isles and the Mainland Community Council Chairs/Vice Chairs or their identified health and care representatives have been scheduled.</p>
<p>Improve education standards (Scottish attainment challenge)</p> <p>Stretch aims (primary) met or exceeded in all but three areas and in those three areas there was improvement on previous performance, as follows –</p> <ul style="list-style-type: none"> • Significant improvement for children and young people who are care-experienced or authorised for free school meals. • Improvement in ranking when compared to other local authority areas. • Secondary participator rates higher than national average, number of leavers going into employment is significantly higher than national average and the focus remains on securing optimum pathway for each young person. <p>Additionally, tracking in the primary sector allows analysis (and support) at cohort, class and individual level to be activated. Further improvement will likely be achieved by focusing on where marginal gains can be achieved.</p>
<p>Childcare</p> <p>The new nursery remains in the final stages of completion. The process of securing a provider to operate the service is underway and the outcome will be reported to members once this is complete.</p> <p>Further expansion of childcare has been placed on hold as this is dependent on an extension of the (funded) statutory offer.</p>
<p>Improve Isles transport links</p> <p>The Council continues to liaise with Transport Scotland around a way ahead for funding and proposals in respect of developing integrated, effective, sustainable and reliable inter-islands connectivity through the development and maintenance of transport infrastructure and links with modernisation considered through the lens of net zero. Funding has now been supplied to conduct design work on both potential future ferries and port infrastructure. Furthermore, free ferry travel for island young people has been approved and funded by the Scottish Government.</p>
<p>Supporting Economic Growth through Harbours Infrastructure</p> <p>Awaiting consenting process to complete. A pre-Contract Service Agreement has been signed with Acciona & Jones consortium to continue with design and build contract, requiring additional ground and marine investigation. Potential financial structures are being investigated.</p>

Social Housing

The Strategic Housing Investment Plan was approved by Council in December 2024. Plans to develop affordable housing are progressing through the Housing Market Partnership, with relevant partners, accordingly and subject to Scottish Government grant being available.

Capital Programme

A progress update on the Capital Strategy was presented to the Corporate Leadership Team on 30 April 2024, and it was agreed to move this forward in line with the recommended report. On 18 June 2024 Policy and Resources Committee recommended an uplift on the annual improvement programme budgets for the 3 years starting 1 April 2025 and were presented with an update on capital slippage.

A revised Capital Project Appraisal process has been developed alongside the Capital Strategy.

Local and National Statutory Performance Indicators 2023-24

The Council is an active participant in the Local Government Benchmarking Framework (LGBF) despite being identified as a significant outlier, along with our counterparts in the other island authorities, in a number of indicators including cost per pupil; self-directed support; residential care and democratic core costs.

The Council has mapped the LGBF indicators against the OIC target outcomes and priorities in the Council Plan. The most recent LGBF performance data is for the year ending 31 March 2024.

The most recent LGBF data for the Council is available at the following link: [Local Government Benchmarking Framework](#)

Looking ahead

The Council's revenue budgets, and capital programme continues to come under significantly increasing budgetary pressures. The Accounts Commission published its annual high-level independent analysis of Scottish local authorities' financial position at 31 March 2024, in January 2025, which included the following four key messages:

- In 2023/24, councils' total revenue and income fell, including another real term decrease in revenue funding from the Scottish Government. Councils are increasingly reliant on identifying savings, which becomes progressively more difficult year-on-year, and again used reserves to remain within their agreed budgets.
- In 2023/24, capital funding remained constrained, with councils borrowing more and managing a range of complex funding models. Capital funding from the Scottish Government reduced slightly in real terms, continuing a longer-term trend. Capital expenditure was lower than planned. Councils continue to borrow more to enable investment in their estates and council debt, and annual interest costs, continue to increase.
- In 2023/24, usable reserves, which are those that can be used to support service delivery, reduced and most are already committed for specific purposes. This presents an ongoing challenge for councils reliant on reserves to balance their budgets, as well as to longer-term financial sustainability. Using reserves to routinely balance budgets is not sustainable.
- Councils need to intensify transformation activity, progressing at scale and pace to ensure their financial sustainability. How councils plan to use their reserves, make savings and transform their services needs to become more transparent. The need to consult local communities and clearly communicate the implications for local services of the budget decisions taken has never been more important.

Despite the Council continuing to lobby the Scottish Government for an equitable settlement some difficult decisions are likely to be required to deliver a financially sustainable budget over the coming years with the new Medium Term Financial Strategy for 2025/26 to 2029/30 containing the following obligations:

- To maintain Council Tax at national average.
- To maximise fee income generation.
- To maximise external funding streams.
- To continue lobbying for an equitable settlement from the Scottish Government.
- To continue to search for efficiencies.
- To continue to look at the way we deliver our services, including innovative service redesign.
- To continue to build capacity through effective partnership working.
- To continue to ensure that the draw on reserves is sustainable.
- To limit any service pressures to cases where very exceptional circumstances arise.

Two major capital projects are due to reach completion in financial year 2025/26 including the new nursery located next to the UHI Orkney Campus, costing £3.2M. This project was part funded through the Scottish Government's Islands Programme, which will have a significant impact locally to how nursery and childcare services will be delivered. The second one is the new Kirkwall Care home costing £14.1M. The new care home will replace St Rognvald House and will be a modern facility that can accommodate 40 residents.

The Orkney 2025 International Island Games will take place from 12 to 18 July 2025. This will be the 20th international island games and the 40th year since it all began. The week-long event will see athletes from up to 24 island groups across the world compete in 12 different sports. Much planning and preparations have gone into this event, which will be the largest international sporting event planned in Europe for 2025. The Council will play a key role in supporting the delivery of the games.

The proposed project to construct a deep-water quay facility in Scapa Flow to service the offshore wind industry continues with Orkney Islands Council being awarded up to £5.0M of funding from Highlands and Islands Enterprise to contribute towards the completion of the works to Pre-Construction Services Agreement stage. This will allow a report to come before Members in 2025, alongside other relevant options within the Offshore Energy Development Strategy and enable them to make an investment decision on which projects should proceed.

In December 2024, the Scottish Government announced as part of their budget for 2025/26 they were allocating £20.8M revenue funding and one-off £10M capital funding to Orkney Islands Council for ferries and island connectivity. Following negotiations between the Council and the Scottish Government, it was agreed to provide most of the additional one-off funding as revenue rather than capital. This brings revenue funding up to £28.8M and £2M of capital funding. This provides a significant uplift in funding and provides the Council with extra flexibility on how the money will be spent and represents the most progress made to date on addressing the aging ferry fleet and improvements to island connectivity.

In April 2025, the outcome of the review of the corporate management structure at the Council was approved by Members. The review recommended changes to senior management roles and Directorate structures aimed at improving resilience and capacity to deliver key Council priorities and objectives and to deliver effective and efficient services for the community. The most significant proposal was to reduce the structure by one directorate with the removal of the Strategy, Performance and Business Solutions service.

The new structure contains 4 directorates as follows –

- Enterprise and Resources
- Infrastructure and Organisational Development
- Education, Communities and Housing
- Orkney Health and Care

In addition, some teams will report directly to the Chief Executive to ensure a tight focus on corporate governance and democratic processes under direct leadership from the Chief Executive and allows the creation of a Communication and Policy team to drive the improvements required to support the Elected Members and senior officers around briefings, lobbying and external and internal communications to enable them to fully undertake their roles.

Conclusion

Overall, the Management Commentary reflects well on both the efforts and professionalism of officers and on the Council's financial management, scrutiny and monitoring procedures.

We would wish to take this opportunity to acknowledge the team effort required to produce the accounts and to record our thanks to both the Enterprise and Resources Service and colleagues in other services for their continued hard work and support. Further information on the Annual Accounts or on the Council's general finances can be obtained at the Council Offices, School Place, Kirkwall, Orkney, KW15 1NY, or by telephone on 01856 873535.

Statement of Responsibilities for the Annual Accounts

The Authority's Responsibilities

The authority is required to:

- Make arrangements for the proper administration of its financial affairs and to secure that the proper officer of the authority has responsibility for the administration of those affairs (section 95 of the Local Government (Scotland) Act 1973). In this authority, that officer is the Director of Enterprise and Sustainable Regeneration.
- Manage its affairs to secure economic, efficient, and effective use of resources and safeguard its assets.
- Ensure the Annual Accounts are prepared in accordance with legislation (The Local Authority Accounts (Scotland) Regulations 2014), and so far, as is compatible with that legislation, in accordance with proper accounting practices (section 12 of the Local Government in Scotland Act 2003).
- Approve the Annual Accounts for signature.

Signed on behalf of Orkney Islands Council.

Councillor Heather Woodbridge
Leader

The Chief Finance Officer's Responsibilities

The Director for Enterprise and Sustainable Regeneration is responsible for the preparation of the authority's Annual Accounts in accordance with proper practices as required by legislation and as set out in the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2024/25 (the Accounting Code).

In preparing the Annual Accounts, the Chief Finance Officer, has:

- Selected suitable accounting policies and then applied them consistently
- Made judgements and estimates that were reasonable and prudent
- Complied with legislation
- Complied with the local authority Accounting Code (in so far as it is compatible with legislation).

The Chief Finance Officer has also:

- Kept adequate accounting records which were up to date
- Taken reasonable steps for the prevention and detection of fraud and other irregularities.

I certify that the financial statements give a true and fair view of the financial position of the local authority and its group at the reporting date and the transactions of the local authority and its group for the year ended 31 March 2025.

Gareth Waterson, BAcc., CA
Director of Enterprise and
Resources

Independent auditor's report to the members of Orkney Islands Council and the Accounts Commission

Reporting on the audit of the financial statements

Opinion on financial statements

We certify that we have audited the financial statements in the annual accounts of Orkney Islands Council and its Group for the year ended 31 March 2025 under Part VII of the Local Government (Scotland) Act 1973. The financial statements comprise the Group and Council Comprehensive Income and Expenditure Statements, Group and Council Balance Sheets, Group and Council Movement in Reserves Statement, Group and Council Cash Flow Statements, the Council Tax Income Account, the Non-domestic Rates Income Account, the Housing Revenue Account, the Harbour Authority Account, the UHI Orkney Account and notes to the financial statements, including material accounting policy information. The financial reporting framework that has been applied in their preparation is applicable law and UK adopted international accounting standards, as interpreted and adapted by the Code of Practice on Local Authority Accounting in the United Kingdom 2024/25 (the 2024/25 Code).

In our opinion the accompanying financial statements:

- give a true and fair view of the state of affairs of the Council and its Group as at 31 March 2025 and of the income and expenditure of the Council and its Group for the year then ended;
- have been properly prepared in accordance with UK adopted international accounting standards, as interpreted and adapted by the 2024/25 Code; and
- have been prepared in accordance with the requirements of the Local Government (Scotland) Act 1973, The Local Authority Accounts (Scotland) Regulations 2014, and the Local Government in Scotland Act 2003.

Basis for opinion

We conducted our audit in accordance with applicable law and International Standards on Auditing (UK) (ISAs (UK)), as required by the [Code of Audit Practice](#) approved by the Accounts Commission for Scotland. Our responsibilities under those standards are further described in the auditor's responsibilities for the audit of the financial statements section of our report. We were appointed by the Accounts Commission on 18 May 2022. Our period of appointment is five years, covering 2022/23 to 2026/27. We are independent of the Council and its Group in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK including the Financial Reporting Council's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. Non-audit services prohibited by the Ethical Standard were not provided to the Council. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern basis of accounting

We have concluded that the use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the ability of the

Council and its Group to continue to adopt the going concern basis of accounting for a period of at least twelve months from when the financial statements are authorised for issue.

These conclusions are not intended to, nor do they, provide assurance on the current or future financial sustainability of the Council and its Group. However, we report on the Council's arrangements for financial sustainability in a separate Annual Audit Report available from the [Audit Scotland website](#).

Risks of material misstatement

We report in our Annual Audit Report the most significant assessed risks of material misstatement that we identified and our judgements thereon.

Responsibilities of the Director of Enterprise and Resources and Monitoring and Audit Committee for the financial statements

As explained more fully in the Statement of Responsibilities, the Director of Enterprise and Resources is responsible for the preparation of financial statements that give a true and fair view in accordance with the financial reporting framework, and for such internal control as the Director of Enterprise and Resources determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Director of Enterprise and Resources is responsible for assessing the ability of the Council and its Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless there is an intention to discontinue the operations of the Council and its Group.

The Monitoring and Audit Committee is responsible for overseeing the financial reporting process.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities outlined above to detect material misstatements in respect of irregularities, including fraud. Procedures include:

- using our understanding of the local government sector to identify that the Local Government (Scotland) Act 1973, The Local Authority Accounts (Scotland) Regulations 2014, and the Local Government in Scotland Act 2003 are significant in the context of the Council and its Group;
- inquiring of the Director of Enterprise and Resources as to other laws or regulations that may be expected to have a fundamental effect on the operations of the Council and its Group;
- inquiring of the Director of Enterprise and Resources concerning the policies and procedures of the Council and its Group regarding compliance with the applicable legal and regulatory framework;
- discussions among our audit team on the susceptibility of the financial statements to material misstatement, including how fraud might occur; and

- considering whether the audit team collectively has the appropriate competence and capabilities to identify or recognise non-compliance with laws and regulations.

The extent to which our procedures are capable of detecting irregularities, including fraud, is affected by the inherent difficulty in detecting irregularities, the effectiveness of the Council's controls, and the nature, timing and extent of the audit procedures performed.

Irregularities that result from fraud are inherently more difficult to detect than irregularities that result from error as fraud may involve collusion, intentional omissions, misrepresentations, or the override of internal control. The capability of the audit to detect fraud and other irregularities depends on factors such as the skilfulness of the perpetrator, the frequency and extent of manipulation, the degree of collusion involved, the relative size of individual amounts manipulated, and the seniority of those individuals involved.

A further description of the auditor's responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Reporting on other requirements

Opinion prescribed by the Accounts Commission on the audited parts of the Remuneration Report

We have audited the parts of the Remuneration Report described as audited. In our opinion, the audited parts of the Remuneration Report have been properly prepared in accordance with The Local Authority Accounts (Scotland) Regulations 2014.

Other information

The Director of Enterprise and Resources is responsible for the other information in the annual accounts. The other information comprises the Management Commentary, Annual Governance Statement, Statement of Responsibilities and the unaudited parts of the Remuneration Report.

Our responsibility is to read all the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon except on the Management Commentary and Annual Governance Statement to the extent explicitly stated in the following opinions prescribed by the Accounts Commission.

Opinions prescribed by the Accounts Commission on the Management Commentary and Annual Governance Statement

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the Management Commentary for the financial year for which the financial statements are prepared is consistent with the financial statements and that report has been prepared in accordance with statutory guidance issued under the Local Government in Scotland Act 2003; and
- the information given in the Annual Governance Statement for the financial year for which the financial statements are prepared is consistent with the financial statements and that report has been prepared in accordance with the Delivering Good Governance in Local Government: Framework (2016).

Matters on which we are required to report by exception

We are required by the Accounts Commission to report to you if, in our opinion:

- adequate accounting records have not been kept; or
- the financial statements and the audited parts of the Remuneration Report are not in agreement with the accounting records; or
- we have not received all the information and explanations we require for our audit.

We have nothing to report in respect of these matters.

Conclusions on wider scope responsibilities

In addition to our responsibilities for the annual accounts, our conclusions on the wider scope responsibilities specified in the Code of Audit Practice, including those in respect of Best Value, are set out in our Annual Audit Report.

Use of our report

This report is made solely to the parties to whom it is addressed in accordance with Part VII of the Local Government (Scotland) Act 1973 and for no other purpose. In accordance with paragraph 108 of the Code of Audit Practice, we do not undertake to have responsibilities to members or officers, in their individual capacities, or to third parties.

Annual Governance Statement

Scope of Responsibility

Orkney Islands Council is responsible for ensuring that its business is conducted in accordance with the law and appropriate standards, and that public money is safeguarded, properly accounted for, and used ethically, economically, efficiently and effectively. We have a statutory duty to plan to secure Best Value under the Local Government in Scotland Act 2003.

In discharging these responsibilities, the Council is committed to ensuring effective arrangements for the governance of the Council's affairs and the stewardship of the resources at its disposal, including arrangements for the management of risk.

The Council's corporate governance is underpinned by the CIPFA/Solace Framework 'Delivering Good Governance in Local Government'. A revised edition of the Framework was published in early 2016 and the Local Code of Corporate Governance was updated to reflect the 2016 edition of the Framework in 2017, and again in 2022. The Council adopted the revised Local Code of Corporate Governance in October 2022.

In addition, the Council is responsible for confirming effective corporate governance arrangements exist within the group entities over which it has control.

However, it should be noted that a sound system of corporate governance and internal control provides only reasonable, but not absolute, assurance that the Council will not be hindered in achieving its objectives or in the orderly and legitimate conduct of its business by circumstances which may reasonably be foreseen. A system of corporate governance and internal control cannot provide protection with certainty against an organisation failing to meet its objectives or material errors, losses, fraud, or breaches of laws or regulations.

Purpose of the Governance Framework

The governance framework comprises the systems and processes, and culture and values by which the authority is directed and controlled. It enables the authority to monitor the achievement of its strategic objectives and to consider whether those objectives have led to the delivery of appropriate, cost-effective services and the achievement of key outcomes.

The system of internal control is a significant part of that framework and is designed to manage risk to a reasonable level. The system of internal control is based on an ongoing process designed to identify and prioritise the risks to the achievement of the Council's objectives, to evaluate the likelihood of those risks being realised and the impact should they be realised, and to manage them effectively.

The Governance Framework

The key elements of the Council's governance arrangements are described in terms of the seven principles of good governance defined in the Framework, summarised as follows:

Governance Principle A - Behaving with integrity, demonstrating strong commitment to ethical values, and respecting the rule of law

The foundation of the Council's integrity is its culture. The Council's culture is demonstrated through the leadership, behaviour, openness and mutual respect of its Elected Members and Chief Officers. It is evidenced by its adoption of a range of robust structures, systems and procedures including:

- [OIC Standing Orders, Scheme of Delegation & Scheme of Administration](#)
- Equality impact assessments
- A Corporate [Anti-fraud Policy](#)
- [Codes of Conduct for Councillors](#) and senior officers
- Elected Members preparation for regular meetings; active participation in decision making; registering and declaring their interests.

Governance Principle B - Ensuring openness and comprehensive stakeholder engagement

The Council is committed to openness and transparency, with the following strategies and policies in place to support this:

- Open community consultation provides service users with the opportunities to give their views about their needs and the needs of their communities.
- The Council has adopted consultation and engagement guidelines which were developed by the Orkney Community Planning Partnership in February 2019. The guidelines can be found at the following link: [Community Consultation and Engagement Guide](#)
- A comprehensive "Orkney Matters" consultation, a collaboration between the Community Learning and Development, and Planning teams, was run during winter 2021/22 and was subsequently used to inform the new Council Plan, Community Plan, and other developments during 2022/23. A second round 'Orkney Matters 2' took place in 2024/2025 to follow up with communities. Orkney Matters 2 is part of a project to develop a modernised suite of tools and protocols for community consultation and engagement.
- An Annual Performance report, its Annual Accounts and, on behalf of The Orkney Partnership, an annual report on the Local Outcomes Improvement Plan to communicate the Council's activities, achievements, financial position and performance.
- Council committee and sub-committee meetings are held in public and only where there is a legal requirement to do so will a particular agenda item be considered in private.
- Audio casting of meetings has been implemented to improve access to the Council decision making process.
- [Council Committees, Agendas, Minutes and Reports available on the Council website.](#)
- Staff surveys and employee engagement sessions are used to enable employee feedback and input on a range of workforce issues. Examples in recent years include recruitment policies, and hybrid and flexible working. Feedback is used to help shape future policy and initiatives. Employee engagement sessions around the review of the Council's People Plan are being scheduled for 2025/26.
- An updated Communications and Engagement Strategy was approved in 2024. It provides an overall strategic direction for managing the Council's communications activities with a member/officer consultative working group that continues to assist with reviewing the Strategy.
- Protocols are in place to meet requests made under the Freedom of Information Scotland Act 2002, and to publicise the nature of those requests.

Governance Principle C - Defining outcomes in terms of sustainable economic, social, and environmental benefits

Orkney Islands Council shares its missions and values with The Orkney Partnership, which maintains the [Orkney Community Plan](#), as detailed in the Management Commentary.

- The [Council Plan 2023-2028](#) sets out the strategic priorities and aims of the Council elected in 2022, and the [Council Delivery Plan](#) describes some of the projects, services and policies which will progress those priorities and achieve tangible outcomes for Orkney.
- The Islands (Scotland) Act 2018 (the Act) introduced a statutory requirement for Island Communities Impact Assessments (ICIA) under Section 8 of the Act. A relevant authority must prepare an island communities impact assessment in relation to a policy, strategy or service which, in the authority's opinion, is likely to influence an island community which is significantly different from its effect on other communities (including other island communities) in the area in which the authority exercises its functions.
- [Performance Monitoring Reports](#), with progress on the actions contained within the Delivery Plan, are reported to the Council every six months, in accordance with the Council's performance management framework.
- The Council's [Sustainable Procurement Policy](#) is detailed in the Procurement Strategy and Council's Contract Standing Orders. Before undertaking a tendering exercise, the Relevant Council Officer is required to consider the social, economic and environmental impacts of the proposed contract and whether the contract will contribute to the achievement of sustainable development in accordance with the Sustainable Procurement Duty.

Governance Principle D - Determining the interventions necessary to optimise the achievement of the intended outcomes

The Council recognises the financial challenges it faces and ensures that all officers and Elected Members are fully aware of the on-going issues that remain as government funding continues to reduce in real terms. The following governance arrangements are in place to optimise the achievement of the outcomes in the Council Plan.

- The budget setting process continues to play a pivotal role in supporting progress towards the key outcomes.
- An updated Medium-Term Financial Strategy was approved by the Council in July 2025, covering the period 2025-2030, it draws on the framework established by the 2023-2028 strategy and includes an assessment of that strategy's progress towards financial sustainability. The revised strategy includes the continued general recognition that either new sources of income will need to be identified, or further consideration will have to be given to delivering spending reductions over the medium-to-long term given the requirement for continued and significant budget realignment to ensure the sustainable use of reserves to balance the budget over the term of the strategy.
- A Long-Term Financial Plan for the years 2018-2019 to 2029-2030 was approved by the Council in March 2019 and addresses the financial sustainability of the Council in the longer term considering the difficult financial climate and continuing economic uncertainty.
- The Improvement and Performance team support a portfolio of approved projects. In addition, during 2024/25, the team supported the coordination of the Corporate Leadership Team's transformation portfolio as part of budget setting. The work of the Improvement and Performance Service is included through relevant actions and milestones in the Strategy, Performance and Business Solutions' Directorate Delivery Plan which is presented to Policy and Resources Committee twice a year.
- Our performance principles have informed the development of the Council Plan 2023-2028 and form part of the Directorate Delivery Plans. There is a significant focus on Key Performance Indicators and reporting.

- Established committee structures, Members' Seminars and briefings from the Corporate Leadership Team furnish Elected Members with an extensive volume of information on both the availability of resources and options for future service delivery, enabling informed decisions to be made.
- A sustainable procurement policy which demonstrates social value and refers to modern slavery.
- Directorate Delivery Plans which detail the projects and activities through which the Council Plan key strategic priorities are to be actioned.

All these plans are kept on the Council's online performance management system, Ideagen, with progress monitoring reports presented twice a year to Elected Members.

Governance Principle E - Developing the Council's capacity, including the capability of its leadership and the individuals within it

This element of governance is designed to ensure that both Elected Members and officers have the knowledge, skills and capacity to enable them to fulfil their respective roles effectively:

- Elected Members and senior officers are provided with a range of support services to ensure that they have the necessary knowledge and skills to be fully effective.
- Access to complementary support services provided by the Improvement Service, the Scottish Government and other agencies.
- A range of seminars and training events are organised on an on-going basis for Elected Members to attend.
- Briefing notes are routinely prepared and distributed to provide the Members with up-to-date information on key strategic and operational issues.
- Comprehensive Induction Programme for Elected Members covering all service areas.
- The introduction of hybrid meetings allowing Elected Members the opportunity to attend meetings and training events via Microsoft Teams.
- A [Communication and Engagement Strategy](#) is in place which provides an overall strategic direction for managing the Council's communications activities.
- A report recommending use of the Political Skills framework for Elected members was approved by Council in April 2023 and will be used to further support Elected Member development, however, participation is voluntary.
- Leading on from the Our People Our Plan initiative in 2021/22, the Council agreed a new People Plan 2022-26 in July 2022 which outlined the organisation's priorities in terms of developing and supporting its workforce. A progress update was presented to committee in November 2023.
- In January 2023, OIC achieved an Investors in People award for the first time. An improvement plan was created to address areas where we could be doing better, with most of the recommendations wholly covered by other actions including the People Plan.
- The use of an Employee Review and Development Framework was re-branded as "Good Conversations". This is to ensure performance of staff in a consistent way across all services, building a culture where everyone should know what is expected of them and are aware of the competencies and the behaviours required.
- A review of the Council's provision across Learning and Development has been undertaken and presented to the Corporate Leadership Team for approval. This includes provision of management and leadership development training and programmes. Work is underway to further shape the detail on this with a view to implementation in 2025/26.
- Access to training for employees through professional bodies to which employees belong and through external training opportunities.
- The development and implementation of an online modular training facility called iLearn, which staff can access both at work and home.

- The 2022/23 Best Value Assurance Report recognised the stable, effective leadership strongly focussed on doing what is right for Orkney's communities.
- A Political Engagement Strategy is in place with the purpose of enhancing and integrating the Council's political engagement in respect of its key strategic priorities.

Governance Principle F - Managing risks and performance through robust internal control and strong public financial management

Through its Scheme of Administration and Scheme of Delegation to Officers the Council has the following arrangements in place covering risk, performance management, internal control and financial management:

- The system of internal control is based on financial regulations, regular management information, administrative procedures, management supervision and a scheme of delegation and accountability.
- A Corporate Risk Register which is reviewed and updated every six months, following evaluation by the Corporate Leadership Team. It is also reported to the Council bi-annually.
- A risk management policy and strategy, which is reviewed biennially, and is designed to support the identification, evaluation and mitigation of risks which may impact on its ability to meet its objectives.
- A policy to combat fraud, theft, bribery and corruption as an integral part of protecting public finances.
- Participation in the National Fraud Initiative, a data matching programme involving other public bodies, to provide assurances on the robustness of information held by the Council as well as highlighting data anomalies that require to be addressed.
- The Council's Information Governance Officer guiding and monitoring best practice in the security of personal data.
- The oversight of risk and financial monitoring is delegated as the responsibility of the Chief Executive, the Corporate Directors and the Heads of Service, as chief officers.
- The Council has made appointments to the statutory roles of Chief Finance Officer, Monitoring Officer, Chief Social Work Officer, Chief Planning Officer and Data Protection Officer.

The Chief Finance Officer role, appointed in terms of section 95 of the Local Government (Scotland) Act 1973, is held by the Director for Enterprise and Sustainable Regeneration, reporting directly to the Chief Executive. Strong financial management procedures are secured through the work of the Chief Finance Officer who:

- Provides advice to the Council on all financial matters and the effective system of internal financial control under the terms of the Financial Regulations
- Ensures the timely production and reporting of budget estimates, budget monitoring and annual accounts.

The Monitoring and Audit Committee provides:

- Independent assurance on the adequacy of the Council's Corporate Governance, performance, risk management and internal control frameworks.
- Further independent assurance of this Committee is achieved by restricting membership - those who are ineligible for membership are the Convener, Council Leader, Depute Leader, and Chairs of Service committees.
- An Internal Audit Annual Strategy prepared by the Chief Internal Auditor which takes account of considerations including the [Council Risk Register](#).

Governance Principle G - Implementing good practices in transparency, reporting, and audit to deliver effective accountability

Information is disseminated in many forms targeted at different audiences for different purposes to deliver effective accountability:

- Council business is conducted through an established cycle of committee meetings held in public, unless exempt under statutory provision.
- All committee and sub-committee meetings are audio-cast live, where these meetings are held in the Council Chamber, with recordings available thereafter for download from the Council's public website.
- Agendas and associated reports are issued to the relevant Elected Members and chief officers, and to the public via the Council's website.
- Committee reports are consistent with a corporate style including an overview of the report, information relevant to the matter under consideration, and recommendations proposed.
- Minutes of meeting are prepared, and once approved are also published on the Council website.
- Statutory returns that follow prescribed layouts.
- Newsletters which target specific groups.
- Consultation documents which contain basic information designed to prompt initial interest in particular services and projects.
- The adoption of the Scottish Public Services Ombudsman - Model Complaints Handling Procedure, with [Council compliments and complaints](#) reported to the Corporate Leadership Team on a quarterly basis, Service Committees on a 6-monthly basis and an annual report submitted to the Monitoring and Audit Committee.
- Adoption of the Consultation and Engagement Guidelines issued by the Orkney Partnership, which includes recommendations on feedback in accordance with national guidelines.

Review of Effectiveness of Governance Arrangements

In line with best practice the Council is responsible for conducting, at least annually, a review of the effectiveness of its governance framework, including the system of internal financial control. This annual review is supported by a process of self-assessment against the Local Code of Corporate Governance, and is informed by various means:

- The Council and its committees – monitor governance arrangements throughout the year.
- The Corporate Leadership Team – overall responsibility for the development and maintenance of the governance environment.
- The Extended Corporate Leadership Team Finance and Performance – assist the Corporate Leadership Team in keeping the governance under review whilst acting with the wider objectives of the Council in mind to ensure resources are effectively deployed to achieve local and national outcomes.
- The Director for Enterprise and Sustainable Regeneration – the Council's most senior adviser on all financial matters.
- The Chief Social Work Officer – required to, in the discharge of the Council's statutory social work duties, produce an annual report on all statutory, governance and leadership functions of the role.
- Internal Audit – a professional and objective internal audit service in accordance with the Local Authority Accounts (Scotland) Regulations 2014. The service conforms to the standards and practices set out in the Public Sector Internal Audit Standards.
- External Auditors, review bodies, agencies and inspectorates – who come together as a Local Area Network to determine any scrutiny activity required which feeds into the National Scrutiny Plan.

The 2024/25 self-assessment of the Council's Local Code of Corporate Governance was reviewed by the Corporate Leadership Team on 9 May 2025 and reported to the Monitoring and Audit Committee on 5 June 2025. The Council's degree of compliance with each principle in the Local Code was graded in accordance with the CIPFA Framework as "3 – fully compliant with the requirement".

Internal Audit and Monitoring and Audit Committee

The work of managers within the Council, of internal audit as described above and by the external auditors in their annual audit letter and in other reports, informs the effectiveness of the financial control environment as an element of the Council's governance arrangements.

The internal audit plan for financial year 2024/25 included core financial systems testing, other systems operating within services, annual audits, corporate reviews and follow up on a quarterly basis of all recommended improvement actions.

The Chief Internal Auditor provides an annual internal audit opinion based on an objective assessment of the framework of governance, risk management and control. It is the opinion of the Chief Internal Auditor, based on the audit work performed in 2024/25, that the Council has a framework of controls in place that provides adequate assurance regarding the organisation's governance framework, related internal controls, and the management of key risks. The actions identified during the audit work carried out did not impact on the overall governance arrangements of the Council.

The Chief Internal Auditor confirmed that there was one fraud issues reported to the Council's external auditors in financial year 2024/25, and this has been referred to the National Fraud Intelligence Bureau and investigations are ongoing.

The Monitoring and Audit Committee provides independent assurance on the adequacy of the Council's corporate governance, performance, risk management and internal control frameworks. The also oversee financial reporting, the annual governance processes, and the Council's internal and external audit arrangements.

Integration Joint Board

The Chief Internal Auditor for Orkney Islands Council (OIC) has been appointed as the Chief Internal Auditor for the Orkney Integration Joint Board (IJB) for a period of five years starting from April 2021. It has been agreed that Azets, as the internal auditor of NHS Orkney (NHSO), will provide support to the IJB Chief Internal Auditor to deliver the Orkney IJB's internal audit plan.

Significant Governance Issues

Securing good governance has been and remains of prime importance to Elected Members and senior officers of the Council; a considerable task at a time when budgets are reducing, services are being redesigned, and a range of national and local priorities require to be addressed.

Each Head of Service has reviewed the arrangements in their Service area and certified their effectiveness by providing individual Certificates of Assurance to their Corporate Director. The Corporate Directors have reviewed these submissions, considered the overall arrangements across their Directorate, reflected on their effectiveness or otherwise, before submitting their own Certificates of Assurance to the Head of Finance. These Certificates of Assurance provide the basis for the Annual Governance Statement which was circulated for final endorsement by the Corporate Leadership Team before being authorised by the Chief Executive and the Council Leader.

These reviews have identified the governance matters and concerns where actions will be taken forward to progress improvement, and in many cases are ongoing issues raised in previous years.

Significant Governance Issue	Potential Impact	Mitigating actions currently in place	Proposed Action
Strategic Leadership and Communication			
<p>Importance of consistent and unified messaging from senior leadership in reinforcing the financial realities facing the Council.</p>	<p>Without clear and persistent communication from both elected members and senior officers, the Council risks creating a culture that fails to recognise or adequately responds to the financial challenges faced, potentially leading to poor decision-making and reduced organisational resilience.</p>	<p>Communication and Engagement Policy</p>	<p>Establish regular, transparent communication between elected members and senior officers. Foster a culture of openness where concerns are raised about financial challenges.</p> <p>Develop and agree on unified messaging aligned with strategic financial priorities.</p>
Workforce Capacity			
<p>Workforce Management, Planning and Resilience.</p> <p>Pressure on staff due to internal and external competing demands.</p>	<p>Difficulty recruiting to senior management and/or technical positions.</p> <p>Staff turnover results in loss of knowledge and experience, particularly where limited team capacity exists.</p> <p>This lack of resilience and capacity creates challenges dealing with business continuity, succession planning, and service transformation projects.</p> <p>Increased sickness absence.</p>	<p>A review of the existing People Plan is due to be completed during 2025/26. The Plan will seek to identify priority areas for improvement and development.</p> <p>Workforce planning will be required to work hand in hand with Service Transformation proposals as they seek to meet efficiency targets.</p> <p>Council hybrid working arrangements.</p> <p>Sickness and Absence Management processes.</p>	<p>Continue to deliver against workforce priorities outlined in the People Plan and the Council Plan.</p> <p>Explore methods to attract suitable candidates, for example, “golden handshake” or market supplements.</p> <p>Sickness absence management.</p>

Significant Governance Issue	Potential Impact	Mitigating actions currently in place	Proposed Action
Financial Sustainability and Budget Discipline			
<p>Ongoing pressures from unfunded spending in various service areas.</p> <p>Impact of corporate staff budget strategy on front line staffing budget areas.</p> <p>Increased demand for Council services.</p> <p>Concerns over the sustainability of significant drawdowns from reserves.</p> <p>Pace of implementing agreed efficiencies is not matching the scale of the financial challenge.</p> <p>Income assumptions are dependent on external factors beyond the Council's control.</p>	<p>Continued unsustainable draw on reserves.</p> <p>After years of budget constraints, finding additional efficiencies is difficult to achieve leading to reduction or removal of service.</p> <p>Increased charges to service users.</p> <p>Future income streams from strategic projects are unlikely to offset budget gaps to the degree originally anticipated.</p>	<p>The Medium-Term Financial Strategy (MTFS) has been brought up to date, covering the period 2025/26 to 2029/30. The MTFS re-sets the outlook and crystallises the challenge before the Council.</p> <p>Reserve Fund Investment Strategy was reviewed in 2024.</p> <p>Budget monitoring and reporting arrangements.</p>	<p>Position continues to be reviewed by Corporate Leadership Team.</p> <p>Work ongoing to close the 'gap' using tactics noted in MTFS.</p> <p>Ongoing dialogue with Scottish Government, Scottish Funding Council and other funding bodies, in pursuance of an equitable settlement for Orkney.</p> <p>Stronger financial accountability and more accurate forecasting by budget holders at all levels.</p> <p>Culture shift towards disciplined resource use and away from growth-based expectations.</p> <p>UHI- Orkney 'task force' instigated to look at delivering sustainable operations.</p> <p>Agency worker engagement policies and procedures to be developed.</p>
<p>Operational service costs (Roads, Fleet, Waste, Quarry) are not fully recovered through existing charging mechanisms.</p>	<p>Imbalanced cost recovery may lead to budget shortfalls, limiting the scope of planned and cyclical works, particularly in Roads services.</p>	<p>Roads charge-rates were increased in 2023/24 and again in 2025/26.</p> <p>Plant rates increased for 2025/26.</p> <p>Cost recovery for support staff</p>	<p>Continue to monitor the effectiveness of cost recovery mechanisms across all services to ensure financial sustainability and service delivery.</p> <p>Process review and replacement of 'New Horizon'.</p>

Significant Governance Issue	Potential Impact	Mitigating actions currently in place	Proposed Action
		<p>streamlined, reducing admin burden.</p> <p>Quarry Business Plan (approved June 2024) included revised pricing and profit assessments.</p> <p>Waste and Fleet rates deemed appropriate but remain under review.</p>	
<p>Insufficient capital and revenue funding to maintain asset quality over time.</p>	<p>Deterioration of assets, i.e. roads.</p> <p>Delays in repairs, improvement or replacement programmes leading to increase in unavoidable costs.</p> <p>Unrealistic expectations place pressure on resources.</p> <p>Risk of cyber-attacks through preventing critical investments in technology, staff training, and security infrastructure.</p>	<p>Top-sliced capital programmes were reviewed during 2024 and budget increases made available for 3-years 2025/26 to 2027/28.</p> <p>A comprehensive fleet review is underway to manage whole-life costs and improve standardisation across assets.</p>	<p>Review top-sliced capital programme during 2027/28.</p> <p>Continue review of Quarry profit contribution</p> <p>Use fleet review outcomes to inform long-term investment planning and funding requirements.</p> <p>Disposal of surplus assets.</p>
<p>Ring fenced annual funding presents Services with difficulties spending the funding in the required time frame. This is magnified by funding awards being notified later in the financial year.</p>	<p>Not all funding can be spent, and funds potentially must be returned.</p> <p>Lack of continuity for Services.</p>	<p>Flexibility through accounting treatment in exceptional circumstances.</p>	<p>Continue to monitor the situation and liaise with the funding bodies for better flexibility in funding awards.</p>
<p>Limited local supplier market.</p> <p>Reluctance of local suppliers to tender for Council contracts.</p>	<p>Higher costs and reduced value for money.</p> <p>Procurement delays.</p>	<p>Contract Standing Orders.</p> <p>Procurement processes.</p>	<p>Review procurement strategy and thresholds to identify where local supplier engagement or</p>

Significant Governance Issue	Potential Impact	Mitigating actions currently in place	Proposed Action
	Over-reliance on a small number for suppliers.		flexibility could improve outcomes.
Financial Controls			
Concerns remain regarding consistent adherence to financial processes, financial regulations and contract standing orders.	<p>Risk of financial mismanagement, compliance breaches, and potential legal or reputational damage.</p> <p>Errors in budgeting or spending.</p> <p>Disciplinary processes actioned and dismissal.</p>	<p>Financial Regulations were updated in 2024.</p> <p>Officers have been reacquainted with them.</p> <p>Budget monitoring and reporting arrangements.</p>	<p>Strengthen awareness for all staff involved in financial management and contracting to ensure they understand policies, regulations, and their importance.</p> <p>Regular internal auditing to identify gaps or deviations early.</p>
Educational Need			
The level of unmet educational need implies a resource greater than the allocated budget is required for statutory compliance.	<p>Reliance on emergency (high cost) placements, or failure to meet need.</p> <p>Reduction in provision of other services redirecting resources to meet statutory provision.</p>	Extra-ordinary packages of care (EPOC) review process.	<p>Complete review of work practices.</p> <p>Report to members the impact of the support for learning strategy and associated actions.</p>
Transformation			
Delays to delivery of service transformation.	<p>Costs overruns persist.</p> <p>Service efficiency targets missed.</p> <p>Change fatigue and uncertainty can affect staff morale.</p>	<p>Budget monitoring and reporting arrangements.</p> <p>MOWG set up to review Cultural Services.</p> <p>MOWG set up to review Sport and Leisure Services.</p>	<p>'Task-force' initiated to look at UHI Orkney sustainability.</p> <p>Member Officer Working Group (MOWG) to re-convene Cultural Service review post restructure.</p> <p>MOWG to re-convene Sport and Leisure Service review post restructure, including library and archives.</p>

Significant Governance Issue	Potential Impact	Mitigating actions currently in place	Proposed Action
Housing			
Delays and challenges in the completion of regulatory compliance actions.	<p>Regulatory risk and scrutiny from the Scottish Housing Regulator due to safety compliance shortfalls.</p> <p>Significant financial pressures to cover the cost of remedial works.</p>	<p>Electrical Installation Condition Reports (EICR) programme restored to normal operational status. A contract awarded and delivery plan underway for full water risk assessments.</p> <p>Additional contractor capacity secured for heating system upgrades.</p> <p>Procurement in progress for an external independent clerk of works.</p>	<p>Complete all outstanding EICR property visits.</p> <p>Implement the water safety delivery plan.</p> <p>Ensure timely delivery of heating system upgrades to fully utilise Heat and Energy Efficient Scotland: Area Based Scheme (HEES:ABS) funding.</p>

Update on significant governance issues previously reported

In the prior year, the governance statement identified challenges around the delivery of strategic plans, including:

Prior Year Significant Governance Issue	Action Taken	Further Action Required
Workforce Capacity		
<p>Workforce Management and Planning</p>	<p>Sickness absence levels have been reduced, and recruitment indicators such as number of job applications and numbers of posts still unfilled after 6 months have both improved.</p> <p>Progress has been made in recruiting to key professional roles such as social workers, and the gaps in terms of management roles across the organisation have reduced.</p> <p>The OIC Wellbeing Hub has been launched, increasing support and benefits provided to employees and progress has been made against a number of other People Plan priorities.</p>	<p>There remains considerable pressure on workforce capacity within social care.</p> <p>The People Plan is due to be reviewed in 2025/26, and further work undertaken on workforce planning in the context of the Council's financial position.</p>
Financial Pressures		
<p>Corporate Directors have highlighted several areas where service delivery is under considerable budgetary pressure.</p> <p>Increase of adverse and unfunded budget variances and overspends across several budget areas.</p> <p>Instances where financial regulations are not routinely being followed.</p>	<p>2024/25 budget setting set efficiency targets against each service.</p> <p>2025/26 budget setting saw a favourable settlement, and 15% increase in Council Tax.</p> <p>Budget monitoring and reporting procedures.</p> <p>Updated Financial Regulations were approved in July 2024, circulated to relevant officers, and training provided where necessary.</p>	<p>Develop new income streams.</p> <p>Continue to pursue year 2 and year 3 of Service saving proposals, against 2024/25 efficiency targets.</p> <p>Service areas required to prepare detailed recovery plans, where necessary.</p> <p>Continue to monitor through financial controls and Internal Audit.</p> <p>Position to be reviewed by Corporate Leadership Team.</p>

Prior Year Significant Governance Issue	Action Taken	Further Action Required
<p>Service pressures and increasing demand for services has meant the Council had to make significant budget savings in response to real terms reductions in Government funding since 2011.</p>	<p>The Medium-Term Financial Strategy 2025/26 to 2029/30.</p> <p>The Reserve Fund Investment Strategy was approved by the Investment Sub-committee on 18 September 2024.</p> <p>Budget and Council Tax setting process.</p>	<p>Continue to review MTFS assumptions, funding levels, and changes over its term.</p> <p>Performance levels should be kept under review.</p> <p>Ongoing dialogue with Scottish Government to ensure a fair settlement for Orkney.</p>
Capital Slippage		
<p>Slippage on the capital programme continues to be a major concern.</p>	<p>Budget monitoring and reporting procedures.</p> <p>Capital programme was reviewed in June 2024 with projects removed.</p> <p>A revised Capital Strategy and Capital Project Appraisal process was recommended and approved by Council in December 2024.</p>	<p>Capital Programme Board and Corporate Leadership Team to keep the position under review.</p>
Neighbourhood Services		
<p>The delay in replacing the New Horizon costing system has delayed updates to the charge-out rates which has meant income has not met costs.</p>	<p>Rather than replace the system as an entity, it is intended to transfer various functions to other systems, ideally those which are already in use across the Council.</p>	<p>For financial year 2025/26, charge-rates for road operatives and for plant and vehicles have been updated. Following a review of the other cost centres, it is considered that charge-rates for waste and fleet staff do not need to be updated.</p> <p>Most invoicing functions are being moved to Integra and the remainder are being reviewed with a view to making a similar transition.</p> <p>A new Fleet Management System is being installed during Quarter 1 2025/26 which will remove much of the recharge of plant and vehicle costs from New Horizon and instead put them directly into Integra.</p> <p>Work continues to identify alternative job costing software, with a solution for roads being finalised. This will potentially also be able to manage waste job costing.</p> <p>The new Fleet Management System may also be able to deal with stock</p>

Prior Year Significant Governance Issue	Action Taken	Further Action Required
		management for Fleet, and this will be reviewed by Quarter 3 2025/26.
Educational Need		
<p>The level of reported unmet educational need implies a resource greater than the allocated budget to achieve statutory compliance.</p>	<p>The Council's Support for Learning Strategy highlighted 3 areas for action as follows –</p> <ul style="list-style-type: none"> • Optimising efficiency and impact of available resources. • Up-skilling and developing the workforce. • Identifying gaps/needs that required new resources. <p>A collaborative review has taken place with Shetland Islands Council, Comhairle nan Eilean Siar and Education Scotland to consider service redesign to help mitigate against current issues.</p> <p>A programme of learning has been undertaken - offered by Council practitioners, sector leading expert and staff from Education Scotland.</p> <p>Some additional funding has been made available from the Scottish Government and targeted at additional support needs.</p>	<p>Work is continuing in respect of the collaborative review but recognises that care needs to be taken not to introduce any new risks, if any changes are implemented.</p> <p>The programme of learning will continue to evolve and develop but to date has been well received by staff.</p> <p>A further funding gap analysis has been requested by Members and will be presented to Education, Leisure and Housing Committee in September 2025.</p>

Concluding Remarks

In our respective roles as Leader of the Council and Chief Executive, we are committed to good governance and recognise the contribution it makes to securing delivery of service outcomes in an effective manner. We have been advised on the results of the annual review of the Local Code of Corporate Governance and that the Council's arrangements continue to be regarded as fit for purpose in accordance with the CIPFA governance framework. It is our opinion that reasonable assurance can be placed upon the adequacy and effectiveness of the systems of governance operated by the Council. This annual governance statement summarises the Council's current governance arrangements and affirms our commitment to ensuring they are regularly reviewed and remain fit for purpose.

While pressure on financial settlements is likely to continue during the coming period, we will continue to engage with our partners and the wider community to agree plans and outcome targets that are both sustainable and achievable. Good governance will remain essential in delivering services in a way that both meets the needs of communities and discharges statutory best value responsibilities.

Councillor Heather Woodbridge

Leader

Oliver D Reid

Chief Executive

Remuneration Report

The Local Authority Accounts (Scotland) Regulations 2014 require local authorities in Scotland to prepare a Remuneration Report as part of the annual statutory accounts.

All information disclosed in sections three to eight in this Remuneration Report will be audited by the Council's appointed auditor, KPMG. The other sections of the Remuneration Report will be reviewed by the appointed auditor to ensure that they are consistent with the financial statements.

1. Remuneration policy for the Leader of the Council, the Civic Head and Senior Councillors

The remuneration of councillors is regulated by the Local Governance (Scotland) Act 2004 (Remuneration) Regulations 2007 (SSI No. 2007/183). The Regulations provide for the grading of Councillors for the purposes of remuneration arrangements, as either the Leader of the Council, the Civic Head, Senior Councillors or Councillors. The salary that is to be paid to the Leader of the Council is set out in the Regulations. The Regulations permit the Council to remunerate one Civic Head. The Regulations set out the maximum salary that may be paid to that Civic Head. Council policy is to pay at the national maximum.

The Regulations also set out the remuneration that may be paid to Senior Councillors and the total number of Senior Councillors the Council may have.

The Members' Remuneration Package which encompasses the salaries of all Elected Members including the Leader, Civic Head and Senior Councillors took effect from 3 May 2007. The policy for setting the detail of the remuneration package to Councillors is delegated to the Chief Executive.

In addition to the Senior Councillors of the Council the Regulations also set out the remuneration payable to Councillors with the responsibility of a Leader or a Civic Head of a Joint Board such as a Valuation Joint Board. The Regulations require the remuneration to be paid by the Council of which the Leader or Civic Head (as the case may be) is a member. The Council is also required to pay any pension contributions arising from the Leader or Civic Head being a member of the Local Government Pension Scheme.

The Council is reimbursed by the Joint Board for any additional remuneration paid to the member on account of their being a Convener or Vice/Depute Convener.

2. Remuneration Policy for Senior Employees

The salary of senior employees is set by reference to national arrangements. The Scottish Joint Negotiating Committee (SJNC) for Local Authority Services sets the salaries for the Chief Executives of Scottish local authorities. Circular CO-154 sets the amount of salary for the Chief Executive of Orkney Islands Council for the period 2024/25. Salaries of the Corporate Directors and Heads of Service are also based on Circular CO-154.

Other benefits received by senior employees include car mileage allowance.

3. Remuneration of Senior Employees

The regulations define a senior employee as any employee who meets one or more of the following criteria:

The Council has interpreted the above criteria as including the Chief Executive, Corporate Directors and any senior person reporting directly to the Chief Executive.

The term “remuneration” means gross salary, fees and bonuses, allowances and expenses and compensation for loss of employment. The table below outlines the remuneration details for senior employees, including prior year figures. The table shows the relevant amounts, before tax and other deductions, due to, or receivable by, each of the persons named for the year to 31 March 2025, whether those amounts were actually paid to, or received by, those persons within that period.

2023-24		Senior Employees		2024-25	
Total £	Name	Position held	Salary, Fees and Allowances £	Election Payments £	Total £
126,270	Oliver Reid	Chief Executive	131,048	2,500	133,548

699,789	Total		674,351	5,959	680,310

4. Remuneration of Senior Councillors

Under the regulations, remuneration disclosures are to be made for the Leader, the Civic Head and any Councillor designated a Senior Councillor by the Council.

The table below shows the relevant amounts, before tax and other deductions, due to, or receivable by, each of the persons named for the year to 31 March 2025, whether or not those amounts were actually paid to, or received by, those persons within that period.

2023-24	Leader, Civic Head and Senior Councillors		2024-25
Salary, Fees and Allowances £	Name	Position held	Salary, Fees and Allowances £
25,100	Graham Bevan	Convener	28,917
22,212	Alexander Cowie	Depute Leader (from 20/02/2024)	24,759
23,593	David Dawson	Chair (Development & Infrastructure) (to 13/05/2024)	22,001
20,230	Lindsay Hall	Chair (Monitoring and Audit) (from 20/02/2024)	28,456
23,368	Rachael A King	Chair (IJB)	27,521
0	Kristopher Leask	Chair (Development & Infrastructure) (from 14/05/2024)	25,057
23,593	Gwenda Shearer	Chair (Education, Leisure & Housing)	25,103
28,543	James Stockan	Leader of the Council (to 05/02/2024)	0
22,787	Mellissa-Louise Thomson	Chair (Orkney Ferries Ltd)	29,408
23,593	Owen Tierney	Chair (Planning)	26,280
23,738	Duncan Tullock	Chair (Licensing)	25,322
24,303	Heather Woodbridge	Leader of the Council (from 20/02/2024)	45,609
261,060	Total		308,433

5. Pension Entitlement

Pension benefits for both Councillors and local government employees are provided through the Local Government Pension Scheme (Scotland).

The Local Government Pension Scheme is a defined benefit pension scheme with pension benefits being based on Career Average Revalued Earnings (CARE). Members pensions accrue at a rate of 1/49th of the amount of pensionable pay received in a scheme year for those members contributing to the main section of the scheme or half of this rate for any period a member has elected to contribute to the 50/50 section of the scheme. The amount of pension accrued during the scheme year is then added to the member's pension account and is revalued at the end of each scheme year by reference to the Consumer Price Index.

The scheme's normal pension age for both Councillors and employees is State Pension Age, which is currently 66. If the State Pension Age changes in the future, then this change will also apply to a member's normal pension age in the Local Government Pension Scheme.

There is no automatic entitlement to a lump sum however members may opt to convert pension into lump sum subject to limits set by the Finance Act 2004.

The value of the accrued benefits has been calculated on the basis of the age at which the person will first become entitled to receive a pension on retirement without reduction on account of its payment at that age.

The pension figures shown relate to the benefits that the person has accrued as a consequence of their total local government service, together with any transfer from other pension schemes and not just their current appointment.

The pension entitlements for Senior Employees and Senior Councillors for the year to 31 March 2025 are shown in the following table, together with the contribution made by the Council to each individual's pension during the year:

Senior Employees							
Pension contributions made by Orkney Islands Council during 2023-2024 £	Name	Post held	Accrued pension benefits as at 31 March 2025		Change in accrued pension benefits since 31 March 2024		Pension contributions made by Orkney Islands Council during 2024-2025 £
			Pension £	Lump Sum £	Pension £	Lump Sum £	
21,464	Oliver Reid	Chief Executive *	63,235	85,443	3,105	3,011	19,650

Note 1 * includes transfers in of pension benefits from other pension funds or schemes

Note 2 ** the Orkney Health and Care Committee was disestablished by Council on 07/12/2021 - it was also agreed that the Chair or Vice Chair of the Integration Joint Board, whichever was the Council appointment, should, from a Council perspective, act as spokesperson on all health, social care and social work matters, including attendance at the Health and Social Care Board of the Convention of Scottish Local Authorities.

All senior employees and Councillors shown in the tables above (below the age of 75) are members or can become members of the Local Government Pension Scheme (LGPS).

In accordance with guidance provided by the Scottish Government, the above figures reflect any transfer of pension benefits from another pension fund or scheme to their current employment and pension scheme. Para 5 of the schedule requires the remuneration report to include certain remuneration information of local authority subsidiary bodies. No remuneration is paid directly by these companies to the manager, or Elected Members.

6. Councillors' remuneration

The Council paid the following amounts to its Elected Members (Councillors) during the year:

	2023-2024	2024-2025
	£000	£000
Salaries	463	494
Mileage	13	12
Conferences and Courses	0	0
Travel Costs	30	27
Subsistence	18	16
Other Allowances and Expenses	3	1
Telephone and ICT Expenses	2	2
Reimbursed Costs	(20)	(21)
Total	509	531

The annual return of Councillors' salaries and expenses for 2024/25 is available for any member of the public to view at all Council libraries and public offices during normal working hours and is also available on the Council's website at www.orkney.gov.uk. Please follow the links on the Council's website as follows: [Councillors Record of Claims](#)

7. Remuneration of Employees

The following table gives a statement of the number of employees whose remuneration, excluding pension contributions, was in excess of £50,000 during 2024/25, in bands of £5,000. This information includes those senior employees who are subject to the fuller disclosure requirements in the tables above.

Remuneration Band	2023-2024 Number of employees	2024-2025 Number of employees
£165,000 to £169,999	0	0
£160,000 to £164,999	0	0
£155,000 to £159,999	0	0
£150,000 to £154,999	0	0
£145,000 to £149,999	0	0
£140,000 to £144,999	0	0
£135,000 to £139,999	0	0
£130,000 to £134,999	0	2
£125,000 to £129,999	3	0
£120,000 to £124,999	1	2
£115,000 to £119,999	0	3
£110,000 to £114,999	2	4
£105,000 to £109,999	5	0
£100,000 to £104,999	0	0
£95,000 to £99,999	2	2
£90,000 to £94,999	2	9
£85,000 to £89,999	10	7
£80,000 to £84,999	4	7
£75,000 to £79,999	9	10
£70,000 to £74,999	15	17
£65,000 to £69,999	16	16
£60,000 to £64,999	24	47
£55,000 to £59,999	64	80
£50,000 to £54,999	106	134
Total	263	340

8. Exit Packages

The regulations require the Remuneration Report to provide information on the number of exit packages awarded, in bandings of £20,000 up to £100,000 and thereafter in bandings of £50,000, along with the total cost of the exit packages within each band. The regulations also require disclosure of the number of compulsory redundancies and other agreed departures.

Exit Package Cost Band	Number of Compulsory Redundancies		Number of Other Departures Agreed		Total Number of Exit Packages by Cost Band		Total Cost of Exit Packages in each Band	
	2023-2024	2024-2025	2023-2024	2024-2025	2023-2024	2024-2025	2023-2024	2024-2025
							£000	£000
£0 - £19,999	0	0	0	0	0	0	0	0
£20,000 - £39,999	0	0	0	1	0	1	0	18
£40,000 - £59,999	0	0	0	0	0	0	0	0
£60,000 - £79,999	0	0	0	0	0	0	0	0
£80,000 - £99,999	0	0	0	0	0	0	0	0
£100,000 - £149,999	0	0	0	0	0	0	0	0
£150,000 - £199,999	0	0	0	1	0	1	0	196
£200,000 - £299,999	0	0	0	0	0	0	0	0
Total	0	0	0	2	0	2	0	214

9. Trade Union (Facility Time Publication Requirements) Regulations 2017

The Council is required to report from 1 April 2017 a range of information on facility time made available to its employees who are trade union representatives.

For the reporting year 2024/25, the equivalent of 0.8 FTE (across 18 individuals) of paid facility time was made available, with an associated cost of £0.043M. This sum equates to 0.05% of the Council's overall staff costs.

Of the total time made available, 18 individuals spent between 1 – 50% of their time during the year on trade union-related activities.

Statements

Movement in Reserves Statement

This statement shows the movement in the year on the different reserves held by the Council, analysed into usable reserves (those reserves that can be applied to fund expenditure or to reduce local taxation) and unusable reserves. The surplus or deficit on the provision of services line shows the true economic cost of providing the Council's services, more details of which are shown in the comprehensive income and expenditure statement. These are different from the statutory amounts required to be charged to the General Fund Balance and the Housing Revenue Account for Council Tax-setting and dwellings rent-setting purposes. The net increase or (decrease) before transfers to other statutory reserves line shows the statutory General Fund Balance and the Housing Revenue Account Balance before any discretionary transfers to or from the other statutory reserves of the Council. Additional information to support these movements can be found in Note 22 to these accounts:

	General Fund Balance	HRA Balance	Harbour Reserve	Capital Fund	Capital Receipts Reserve	Capital Grants Unapplied	Renewals & Repairs Fund	Total Usable Reserves	Total Unusable Reserves	Total Reserves of the Authority
	£000	£000	£000	£000	£000	£000	£000	£000	£000	£000
Balances as at 1 April 2023	(28,491)	(503)	(211,678)	(1,219)	(2,046)	(20)	(6,804)	(250,761)	(561,550)	(812,311)

Comprehensive Income and Expenditure Statement

This statement shows the accounting cost of providing services and managing the Council during the year. It includes, on an accruals basis, all of the Council's day-to-day expenses and related income. It also includes transactions measuring the value of non-current assets actually consumed during the year and the real projected value of retirement benefits earned by employees during the year. The statement shows the accounting cost in accordance with generally accepted accounting practices, rather than the cost according to the statutory regulations that specify the net expenditure that councils need to take into account when setting the annual Council Tax charge. The required adjustments between accounting basis and funding basis under regulations are shown in the movement in reserves statement.

Balance Sheet as at 31 March 2025

The balance sheet shows the value as at 31 March 2025 of the assets and liabilities recognised by the Council. The net assets of the Council are matched by the reserves held by the Council. Reserves are reported in two categories. The first category comprises usable reserves, which are those reserves that the Council may use to provide services, subject to the need to maintain a prudent level of reserves and any statutory limitations on their use (for example the Capital Receipts Reserve, which may only be used to fund capital expenditure or to repay debt). The second category of reserves comprises those that the Council is not able to use to provide services. This category includes reserves that hold unrealised gains and losses in the value of assets (for example the Revaluation Reserve), where amounts would only become available to provide services if the assets are sold, and reserves that hold timing differences shown as 'adjustments between accounting basis and funding basis under regulations' in the movement in reserves statement.

Total Reserves		825,766	690,735

The unaudited accounts were issued on 30 June 2025.

Gareth Waterson, BAcc., CA

Director of Enterprise and Resources

Cash Flow Statement

This statement shows the changes in cash and cash equivalents of the Council during the year. It shows how the Council generates and uses cash and cash equivalents by classifying cash flows as operating, investing and financing activities. The amount of net cash flows arising from operating activities is a key indicator of the extent to which the operations of the Council are funded by way of taxation and grant income or from the recipients of services provided by the Council. Investing activities represent the extent to which cash outflows have been made for resources that are intended to contribute to the Council's future service delivery. Cash flows arising from financing activities are useful in predicting claims on future cash flows by providers of capital (that is, borrowing) to the Council.

	2023-2024	2024-2025
	£000	£000
Net surplus or (deficit) on the provision of services	4,746	(18,126)
Adjustment to surplus or deficit on the provision of services for non-cash movements	(19,366)	13,667
Adjust for items included in the net surplus or deficit on the provision of services that are investing and financing activities	2,793	3,299
Net Cash flows from Operating activities	(11,827)	(1,160)
Net Cash flows from Investing Activities	1,370	321
Net Cash flows from Financing Activities	11,261	1,614
Net increase or decrease in cash and cash equivalents	804	775
Cash and cash equivalents at the beginning of the reporting period	10,249	11,053
Cash and cash equivalents at the end of the reporting period	11,053	11,828

Notes

Notes to the Core Financial Statements

Note 1 Summary of Significant Accounting Policies

The Financial Statements for the year ended 31 March 2025 have been prepared in accordance with proper accounting practice as per section 12 of the Local Government in Scotland Act 2003. Proper accounting practice comprises the Code of Practice on Local Authority Accounting in the United Kingdom (the Accounting Code), supported by International Financial Reporting Standards and recommendations made by the Local Authority (Scotland) Accounts Advisory Committee (LASAAC). The Annual Accounts have been prepared on a “going concern” basis. They are designed to give a true and fair view of the financial performance and position of the Council and comparative figures for the previous financial year are provided. There are no significant departures from these recommendations. The following accounting concepts have been considered in the application of accounting policies:

- **Going concern** - the going concern concept assumes that the Council will continue in existence for the foreseeable future.
- **Relevance** – the information in the financial statements is useful for assessing the Council's stewardship of public funds and for making economic decisions.
- **Materiality** - information is included in the financial statements where the information is of such significance that it could influence the decisions or assessments of users of the information.
 - **Understandability** – users of the financial statements are assumed to have a reasonable knowledge of accounting and local government.
 - **Accruals basis** - the accruals concept requires the non-cash effects of transactions to be included in the financial statement for the year in which they occur, not in the period in which payment is made or income received.
 - **Reliability** – information included in the financial statements faithfully represents the substance of transactions, is free from bias and material error, is complete within the bounds of materiality and cost, and has been prudently prepared.
 - **Primacy of legislative requirements** - legislative requirements have priority over accounting principles in the event of conflict between legislation and the Accounting Code.

The accounts have been prepared under the historic cost convention, other than changes resulting from the revaluation of certain categories of non-current assets and financial instruments. The following accounting policies used in the preparation of the statements have been reviewed in line with changes made to the Accounting Code following the introduction of International Financial Reporting Standards.

Changes in Accounting Practice and Estimates and Errors and Prior Period Adjustments

Changes in accounting policies are made only when required by proper accounting practices or the change provides more reliable or relevant information about the effect of transactions, other events and conditions on the authority's financial position or financial performance. A change in accounting policy requires a prior period adjustment.

Changes in accounting estimates are accounted for prospectively i.e. in the current and future years affected by the change, and do not give rise to a prior year adjustment.

Prior period adjustments arise as a result of a change in accounting policies or to correct a material error. Material errors discovered in prior period figures are corrected retrospectively by amending opening balances and comparative amounts for the prior period. Where a change in accounting policy is made, it is applied retrospectively (unless stated otherwise) by adjusting opening balances and comparative amounts for the prior period as if the new policy had always been applied.

Accruals of Expenditure and Income

Activity is accounted for in the year that it takes place, not simply when cash payments are made or received. In particular:

- Revenue from the sale of goods is recognised when the Council transfers the significant risks and rewards of ownership to the purchaser, and it is probable that the economic benefits or service potential associated with the transaction will flow to the Council.
- Revenue from the provision of services is recognised when the Council can measure reliably the percentage of completion of the transaction and it is probable that the economic benefits or service potential associated with the transaction will flow to the Council.
- Supplies are recorded as expenditure when they are consumed. Where there is a gap between the date supplies are received and their consumption, they are carried as inventories on the Balance Sheet.
- Expenses in relation to services received (including those rendered by the Authority's officers) are recorded as expenditure when the services are received, rather than when payments are made.
- Interest payable on borrowings and receivable on investments is accounted for on the basis of the effective interest rate for the relevant financial instrument, rather than on the basis of the cash flows fixed or determined by the contract.
- Where income and expenditure have been recognised but cash has not been received or paid, a debtor or creditor for the relevant amount is recorded in the Balance Sheet. Where there is evidence that debts are unlikely to be settled, the balance of debtors is written down and a charge made to revenue for the income that might not be collected.

Cash and Cash Equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are investments that mature in three months or less from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value.

In the Cash Flow Statement, cash and cash equivalents are shown net of bank overdrafts that are repayable on demand and form an integral part of the Authority's cash management.

Charges for the Use of Assets

Services, support services and trading accounts are debited with the following amounts to record the cost of holding fixed assets during the year:

- depreciation attributable to the assets used by the relevant service
- revaluation and impairment losses on assets used by the service where there are no accumulated gains in the Revaluation Reserve against which the losses can be written off
- amortisation of intangible fixed assets attributable to the service.

The Authority is not required to raise council tax to cover depreciation, revaluation and impairment losses or amortisations. However, it is required to make an annual provision from revenue to contribute towards the reduction in its overall borrowing requirement equal to loans fund principal charges. Depreciation, revaluation and impairment losses and amortisations are therefore replaced by loans fund principal in the General Fund Balance, by way of an adjusting transaction with the Capital Adjustment Account in the Movement in Reserves Statement for the difference between the two.

Charities

Some of the charities or trust funds controlled by the Council are registered charities. The International Financial Reporting Standards (IFRS) based Code requires that where a trust fund is a registered charity, it should follow the reporting requirements of the Office of the Scottish Charity Regulator and should follow the Charities Statement of Recommended Practice (SORP). The financial statements for the Common Good Funds controlled by the Council have been produced in accordance with the Code of Practice for Local Government Accounting.

Employee Benefits

Benefits payable during employment

Short-term employee benefits (those that fall due wholly within 12 months of the year-end), such as wages and salaries, paid annual leave and paid sick leave, bonuses and non-monetary benefits (e.g., cars) for current employees, are recognised as an expense in the year in which employees render service to the Authority. An accrual is made against services in the Surplus or Deficit on the Provision of Services for the cost of holiday entitlements and other forms of leave earned by employees but not taken before the year-end and which employees can carry forward into the next financial year. The accrual is made at the remuneration rates applicable in the following financial year. Any accrual made is required under statute to be reversed out of the General Fund Balance by a credit to the Accumulating Compensated Absences Adjustment Account in the Movement in Reserves Statement.

Termination benefits

Termination benefits are amounts payable as a result of a decision by the Council to terminate an officer's employment before the normal retirement date or an officer's decision to accept voluntary redundancy. They are charged on an accruals basis to the Non-Distributed Costs line in the Comprehensive Income and Expenditure Statement when the Council is demonstrably committed to either terminating the employment of an officer or making an offer to encourage voluntary redundancy. The Council is only demonstrably committed to a termination when it has a detailed formal plan for the termination and it is without realistic possibility of withdrawal.

Where termination benefits involve the enhancement of pensions, statutory provisions require the General Fund balance to be charged with the amount payable by the Council to the pension fund or pensioner in the year, not the amount calculated according to the relevant accounting standards. In the Movement in Reserves Statement, appropriations are required to and from the Pensions Reserve to remove the notional debits and credits for pension enhancement termination benefits and to replace them with debits for the cash paid to the pension fund and pensioners and any such amounts payable but unpaid at the year-end.

Post-employment benefits

The Council participates in two formal pension schemes: The Local Government Pension Scheme which is administered by Orkney Islands Council; and the Scottish Teachers' Superannuation Scheme. Both schemes provide defined benefits to members. However, the liabilities for the teachers' scheme cannot be identified specifically to the Council, therefore the scheme is accounted for as if it were a defined contributions scheme – the Council does not recognise assets or liabilities related to the Teachers' Scheme as the liability for payment of pensions rests ultimately with the Scottish Government.

The Local Government Scheme is accounted for as a defined benefits scheme:

- The liabilities of the Orkney Islands Council pension fund attributable to the Authority are included in the Balance Sheet on an actuarial basis using the projected unit method – i.e., an assessment of the future payments that will be made in relation to retirement benefits earned to date by employees, based on assumptions about mortality rates, employee turnover rates, etc, and projections of projected earnings for current employees.
- Liabilities are discounted to their value at current prices, using a discount rate of 2.4% based on the indicative rate of return on high quality corporate bonds.

Statutory provisions require the General Fund Balance to be charged with the amount payable by the Authority to the pension fund or directly to pensioners in the year, not the amount calculated according to the relevant accounting standards. In the Movement in Reserves Statement, this means that there are appropriations to and from the Pensions Reserve to remove the notional debits and credits for retirement benefits and replace them with debits for the cash paid to the pension fund and pensioners and any such amounts payable but unpaid at the year-end. The negative balance that arises on the Pensions Reserve thereby measures the beneficial impact on the General Fund of being required to account for retirement benefits on the basis of cash flows rather than as benefits are earned by employees.

The Notes to the Core Financial Statements provide further information.

Events after the Balance Sheet date

Events after the Balance Sheet date are those events, both favourable and unfavourable, that occur between the end of the reporting period and the date when the Statements are authorised for issue. There are two types of events:

- Adjusting Event – those that provide evidence of conditions that existed at the end of the reporting period, and the Statements are adjusted to reflect such events
- Non-adjusting events – those that are indicative of conditions that arose after the reporting period, and the Statements are not adjusted. Where a category of events would have a material effect, disclosure is made in the notes of the nature of the event and its estimated financial effect.

Events taking place after the date of authorisation for issue are not reflected in the Statements.

Financial Instruments

Financial Assets

Financial assets are classified based on a classification and measurement approach that reflects the business model for holding the financial assets and their cashflow characteristics. There are three main classes of financial assets measured at:

- Amortised Cost
- Fair value through profit or loss (FVPL)
- Fair value through other comprehensive income (FVOCI)

The authority's business model is to hold investments to collect contractual cash flows. Financial assets are therefore classified as amortised cost, except those whose contractual payment are not solely payment of principal and interest (i.e., where the cash flows do not take the form of a basic debt instrument).

Financial Assets Measured at Amortised Cost

Loans and receivables are recognised on the Balance Sheet when the authority becomes a party to the contractual provisions of a financial instrument and are initially measured at fair value. They are then measured at their amortised cost. Annual credits to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement for interest receivable are based on the carrying amount of the asset multiplied by the effective rate of interest for the instrument. For most of the loans that the Authority has made, this means that the amount presented in the Balance Sheet is the outstanding principal receivable (plus accrued interest) and interest credited to the Comprehensive Income and Expenditure Statement is the amount receivable for the year in the loan agreement.

However, the Authority has made a number of loans to business and voluntary organisations at less than market rates (soft loans). When soft loans are made, a loss is recorded in the Comprehensive Income and Expenditure Statement (debited to the appropriate service) for the present value of the interest that will be foregone over the life of the instrument, resulting in a lower amortised cost than the outstanding principal. Interest is credited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement at a marginally higher effective rate of interest than the rate receivable from the business and voluntary organisations, with the difference serving to increase the amortised cost of the loan in the Balance Sheet. Statutory provisions require that the impact of soft loans on the General Fund Balance is the interest receivable for the financial year – the reconciliation of amounts debited and credited to the Comprehensive Income and Expenditure Statement to the net gain required against the General Fund Balance is managed by a transfer to or from the Financial Instruments Adjustment Account in the Movement in Reserves Statement.

Any gains and losses that arise on the de-recognition of an asset are credited/debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement.

Financial Assets at Fair Value through Other Comprehensive Income

Financial assets will be recognised at fair value through other comprehensive income classification if the following conditions are met:

- The entity's business model is to hold the financial asset to obtain benefits by collecting the contractual cash flows associated with the financial asset and selling the financial asset.
- The contractual cashflows arising from the financial asset are solely payments of principal and interest.

The Authority can also opt to classify any investment in equity instruments not held for trading purposes as a financial asset at Fair Value through Other Comprehensive Income.

Expected Credit Loss Model

The authority recognises expected credit losses on all of its financial assets held at amortised cost or FVOCI, either on a 12-month or lifetime basis. The authority has adopted the simplified approach for the expected credit loss model which applies to lease receivables and contract assets. Only lifetime losses are recognised for trade receivables (debtors) held by the authority.

Impairment losses are calculated to reflect the expectation that the future cash flows might not take place because the borrower could default on their obligations. Credit risk plays a crucial part in assessing losses. Where risk has increased significantly since an instrument was initially recognised, losses are assessed on a lifetime basis. Where risk has not increased significantly or remains low, losses are assessed on the basis of 12-month expected losses.

The authority has used reasonable and supportable information available to support the measurement of lifetime expected losses on an individual instrument basis. It has therefore assessed losses for the portfolio on a collective basis.

The Authority has grouped the loans into two groups for assessing loss allowances:

- Group 1 – these loans were made to local businesses as part of a Council initiative to provide economic development on the basis that systems were put in place to measure and monitor the risk of default for each of the businesses that was provided with a loan. Loss allowances for these loans can be assessed on an individual basis.
- Group 2 – for the residual group of loans, including self-build housing loans, the Authority relies on past due information and calculates losses based on lifetime credit losses for all loans more than 30 days past due.

Financial Assets Measured at Fair Value through Profit or Loss

Financial assets that are measured at FVPL are recognised on the Balance Sheet when the Authority becomes a party to the contractual provisions of a financial instrument and are initially measured and carried at fair value. Fair value gains and losses are recognised as they arrive in the Surplus or Deficit on the Provision of Services.

The fair value measurements of the financial assets are based on the following techniques:

- instruments with quoted market prices – the market price.
- other instruments with fixed and determinable payments – discounted cash flow analysis.

All movements in the fair value are recognised in full through the Income and Expenditure Statement.

The inputs to the measurement techniques are categorised in accordance with the following three levels:

- Level 1 inputs – quoted prices (unadjusted) in active markets for identical assets that the authority can access at the measurement date.
- Level 2 inputs – inputs other than quoted prices included within Level 1 that are observable for the asset, either directly or indirectly.
- Level 3 inputs – unobservable inputs for the asset.

Any gains and losses that arise on the derecognition of the asset are credited or debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement.

Financial Liabilities

Financial liabilities are recognised on the Balance Sheet when the Council becomes a party to the contractual provisions of a financial instrument and initially measured at fair value and carried at their amortised cost. Annual charges to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement for interest payable are based on the carrying amount of the liability, multiplied by the effective rate of interest for the instrument. The effective interest rate is the rate that exactly discounts estimated future cash payments over the life of the instrument to the amount at which it was originally recognised. For most of the borrowings that the Council has, this means that the amount presented in the Balance Sheet is the outstanding principal repayable (plus accrued interest) and interest charged to the Comprehensive Income and Expenditure Statement is the amount payable for the year according to the loan agreement.

Where premiums and discounts have been charged to the Comprehensive Income and Expenditure Statement, regulations allow the impact on the General Fund Balance to be spread over future years. The Council has a policy of spreading the gain/loss over the term that was remaining on the loan against which the premium was payable or discount receivable when it was repaid. The reconciliation of amounts charged to the Comprehensive Income and Expenditure Statement to the net charge required against the General Fund Balance is managed by a transfer to or from the Financial Instruments Adjustment Account in the Movement in Reserves Statement.

Loans Fund

Under the Local Authority (Capital Finance and Accounting) (Scotland) Regulation 2016, the Council operates a statutory Loans Fund which is administered with the 2016 Regulations, proper accounting practices and prudent financial management.

All loans raised are paid into the Fund and advances are made to Services to finance capital expenditure during the year.

Repayments to the Loans Fund are calculated on a prudential basis using the asset life method where the annual repayments of principal are calculated as equal instalments based on the initial life and value of the asset.

Interest on the Loans Fund advances has been calculated and allocated to the Comprehensive Income and Expenditure Statement.

Foreign Currency Translation

Where the Authority has entered into a transaction denominated in a foreign currency, the transaction is converted into sterling at the exchange rate applicable on the date the transaction was effective. Where amounts in foreign currency are outstanding at the year-end, they are reconverted at the spot exchange rate at 31 March. Resulting gains or losses are recognised in the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement.

Government Grants and other Contributions

Whether paid on account, by instalments or in arrears, government grants and third-party contributions and donations are recognised as due to the Council when there is reasonable assurance that:

- the Council will comply with the conditions attached to the payments, and
- the grants or contributions will be received.

Amounts recognised as due to the Council are not credited to the Comprehensive Income and Expenditure Statement until conditions attaching to the grant or contribution have been satisfied. Conditions are stipulations that specify that the future economic benefits or service potential embodied in the asset acquired using the grant or contribution are required to be consumed by the recipient as specified or future economic benefits or service potential must be returned to the transferor.

Monies advanced as grants and contributions for which conditions have not been satisfied are carried in the Balance Sheet as creditors. When conditions are satisfied, the grant or contribution is credited to the relevant service line (attributable revenue grants/contributions) or Taxation and Non-Specific Grant Income (non-ring-fenced revenue grants and all capital grants) in the Comprehensive Income

and Expenditure Statement. Where capital grants are credited to the Comprehensive Income and Expenditure Statement, they are reversed out of the General Fund Balance in the Movement in Reserves Statement. Where the grant has yet to be used to finance capital expenditure, it is posted to the Capital Grants Unapplied Account. Where it has been applied, it is posted to the Capital Adjustment Account. Amounts in the Capital Grants Unapplied Account are transferred to the Capital Adjustment Account once they have been applied.

Intangible Assets

Expenditure on non-monetary assets that do not have physical substance but are controlled by the Council as a result of past events (e.g., software licences) is capitalised when it is expected that future economic benefits or service potential will flow from the intangible asset to the Council.

Intangible assets are measured initially at cost. Amounts are not revalued, as the fair value of the assets held by the Council cannot be determined by reference to an active market. The depreciable amount of an intangible asset is amortised over its useful life to the relevant service line(s) in the Comprehensive Income and Expenditure Statement. Where expenditure on intangible assets qualifies as capital expenditure for statutory purposes, amortisation, impairment losses and disposal gains and losses are not permitted to have an impact on the General Fund Balance. The gains and losses are therefore reversed out of the General Fund Balance in the Movement in Reserves Statement and posted to the Capital Adjustment Account and the Capital Receipts Reserve.

Interests in Companies and Other Entities

The Authority has material interests in companies and other entities that have the nature of subsidiaries and associates and require it to prepare group accounts. In the Authority's own single-entity accounts, the interests in companies and other entities are recorded as financial assets at cost, less any provision for losses, or available-for-sale financial assets (i.e., at fair value).

Inventories

Inventories (generally consumable stock) are included in the Balance Sheet at the lower of cost and net realisable value.

Investment Property

Investment properties are those that are used solely to earn rentals and/or for capital appreciation. The definition is not met if the property is used in any way to facilitate the delivery of services or production of goods or is held for sale.

Investment properties are measured initially at cost and subsequently at fair value, based on the amount at which the asset could be exchanged between knowledgeable parties at arm's length. Properties are not depreciated but are revalued annually according to market conditions at the year-end. Gains and losses on revaluation are posted to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement. The same treatment is applied to gains and losses on disposal.

Rentals received in relation to investment properties are credited to the Financing and Investment Income line and result in a gain for the General Fund Balance. However, revaluation and disposal gains and losses are not permitted by statutory arrangements to have an impact on the Balance. The gains and losses are therefore reversed out of the General Fund Balance in the Movement in Reserves Statement and posted to the Capital Adjustment Account.

Leases

Leases are classified as finance leases where the terms of the lease transfer substantially all the risks and rewards incidental to ownership of the property from the lessee to the lessor. All other leases are classified as operating leases. Where a lease covers both land and buildings, the land and buildings elements are considered separately for classification. Arrangements that do not have the legal status of a lease but convey a right to use an asset in return for payment are accounted for under this policy where fulfilment of the arrangement is dependent on the use of specific assets.

Operating Leases (Council as lessor)

Where the Council grants lease over a property or an item of plant or equipment, the asset is retained in the Balance Sheet. Rental income is credited to the Comprehensive Income and Expenditure Statement. Credits are made on a straight-line basis over the life of the lease, even if this does not match the pattern of payments (e.g., there is a rent-free period at the commencement of the lease). Initial direct costs incurred in negotiating and arranging the lease are added to the carrying amount of the asset and charged as an expense over the lease term on the same basis as the rental income.

Operating Leases (Council as lessee)

At the inception of a contract, the arrangement is assessed as to whether it contains a lease. If it contains a lease if it conveys the right to control the use of an identified asset for a period of time. If the contract is assessed to contain a lease, then the right of use asset is capitalised on the balance sheet, with a corresponding lease liability. The payment of the lease is split between an interest expense in the comprehensive income and expenditure statement and a write down of the lease liability in the balance sheet.

Overheads and Central Support Costs

The costs of overheads and support services are charged to service segments in accordance with the Council's arrangements for accountability and financial performance. The total absorption costing principle is used – the full cost of overheads and support services are shared between users in proportion to the benefits received, except for:

- Corporate and Democratic Core – costs relating to the Authority's status as a multi-functional, democratic organisation.
- Non-Distributed Costs – the cost of discretionary benefits awarded to employees retiring early and any depreciation and impairment losses chargeable on surplus assets in Property, Plant and Equipment.

These two cost categories are accounted for as separate headings in the Comprehensive Income and Expenditure Statement, as part of Net Expenditure on Continuing Services.

Property, Plant and Equipment

Assets that have physical substance and are held for use in the production or supply of goods or services, for rental to others or for administrative purposes and that are expected to be used during more than one financial year are classified as Property, Plant and Equipment.

Recognition

Expenditure on the acquisition, creation or enhancement of Property, Plant and Equipment is capitalised on an accruals basis, provided that it is probable that the future economic benefits or service potential associated with the item will flow to the Council and the cost of the item can be measured reliably. Expenditure that maintains but does not add to an asset's potential to deliver future economic benefits or service potential (i.e., repairs and maintenance) is charged as an expense when it is incurred.

Measurement

Assets are initially measured at cost, comprising:

- the purchase price.
- any costs attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

The cost of assets acquired other than by purchase is deemed to be its fair value, unless the acquisition will not increase the cash flows of the Council. In the latter case, the cost of the acquisition is the carrying amount of the asset given up by the Council. The valuation of work-in-progress is based on cost plus an appropriate proportion of overheads, together with attributable profits and allowances for foreseeable losses.

Plant, furniture and computer equipment costing less than £10,000 are not treated as fixed assets but are charged to the revenue account. This de minimis level does not apply where certain categories of these assets are grouped together and form part of the approved capital programme.

Donated assets are measured initially at fair value. The difference between fair value and any consideration paid is credited to the Taxation and Non-Specific Grant Income line of the Comprehensive Income and Expenditure Statement, unless the donation has been made conditionally. Until conditions are satisfied, the gain is held in the Donated Assets Account. Where gains are credited to the Comprehensive Income and Expenditure Statement, they are reversed out of the General Fund Balance to the Capital Adjustment Account in the Movement in Reserves Statement.

Assets are then carried in the Balance Sheet using the following measurement bases:

- infrastructure, community assets and assets under construction – depreciated historical cost.
- council dwellings – fair value, determined using the Beacon Principle of valuation which reduces the open market value (OMV) of a property by a percentage factor based on existing use value for social housing (EUV-SH).
- all other assets – fair value, determined as the amount that would be paid for the asset in its existing use (existing use value – EUV). Operational assets are shown at the lower of net current replacement cost or net realisable value in existing use. Non-operational assets are shown at the lower of net current replacement cost or net realisable value.
- heritage assets – premium market valuation.

Where there is no market-based evidence of fair value because of the specialist nature of an asset, depreciated replacement cost is used as an estimate of fair value.

Assets included in the Balance Sheet at fair value are revalued sufficiently regularly to ensure that their carrying amount is not materially different from their fair value at the year-end, but as a minimum every five years. Valuations are undertaken by Robert Eunson, Assessor to the Orkney and Shetland Valuation Joint Board, who is MRICS qualified. Increases in valuations are matched by credits to the Revaluation Reserve to recognise unrealised gains.

Where decreases in value are identified, the revaluation loss is accounted for as follows:

- where there is a balance of revaluation gains for the asset in the Revaluation Reserve, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains).
- where there is no balance in the Revaluation Reserve or insufficient balance, the carrying amount of the asset is written down against the relevant service line(s) in the Comprehensive Income and Expenditure Statement.

The Revaluation Reserve contains revaluation gains recognised since 1 April 2007 only, the date of its formal implementation. Gains arising before that date have been consolidated into the Capital Adjustment Account.

Fair Value Measurement

The authority measures some of its non-financial assets such as surplus assets and investment properties and some of its financial instruments such as equity shareholdings at fair value at each reporting period. Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. The fair value measurement assumes that the transaction to sell the asset or transfer the liability takes place either:

- in the principal market for the asset or liability, or
- in the absence of a principal market, in the most advantageous market for the asset or liability.

The authority measures the fair value of an asset or liability using the assumptions that market participants would use when pricing the asset or liability, assuming market assumptions act in their economic best interest.

Impairment

Assets are assessed at each year-end as to whether there is any indication that an asset may be impaired. Where indications exist, and any possible differences are estimated to be material, the recoverable amount of the asset is estimated and, where this is less than the carrying amount of the asset, an impairment loss is recognised for the shortfall.

Disposals

When it becomes probable that the carrying amount of an asset will be recovered principally through a sale transaction rather than through its continuing use, it is reclassified as an Asset Held for Sale. The asset is revalued immediately before reclassification and then carried at the lower of this amount and fair value less costs to sell. Where there is a subsequent decrease to fair value less costs to sell, the loss is posted to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement. Gains in fair value are recognised only up to the amount of any previous losses recognised in the Surplus or Deficit on Provision of Services. Depreciation is not charged on Assets Held for Sale. Assets that are to be abandoned or scrapped are not reclassified as Assets Held for Sale.

When an asset is disposed of or decommissioned, the carrying amount of the asset in the Balance Sheet (whether Property, Plant and Equipment or Assets Held for Sale) is written off to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement as part of the gain or loss on disposal. Receipts from disposals (if any) are credited to the same line in the Comprehensive Income and Expenditure Statement also as part of the gain or loss on disposal (i.e., netted off against the carrying value of the asset at the time of disposal). Any revaluation gains accumulated for the asset in the Revaluation Reserve are transferred to the Capital Adjustment Account.

Depreciation

Depreciation is provided for on all Property, Plant and Equipment assets by the systematic allocation of their depreciable amounts over their useful lives. An exception is made for assets without a determinable finite useful life (i.e., freehold land and certain Community Assets), investment properties and assets that are not yet available for use (i.e., assets under construction).

Depreciation is charged in full in the year of acquisition and no charge made in the year of disposal. Depreciation is calculated on the following bases:

- dwellings and other buildings – straight-line allocation over 10 years up to 100 years as estimated by the Council Valuer.
- vehicles, plant and equipment – straight-line allocation over 3 years up to 30 years.
- infrastructure – straight-line allocation over 40 years up to 80 years, with a few exceptions for longer lifespans in respect of stone-built piers.

General Fund services are charged with depreciation where appropriate for the use of assets no matter how they are financed.

Where a Property, Plant and Equipment asset has major components whose cost is significant in relation to the total cost of the item, the components are depreciated separately. Significance is determined by comparing a component's cost against the overall cost of an asset, and a component is deemed significant if its cost is 10% or more of the total asset cost. The de-minimis threshold for componentisation is £0.500M.

Revaluation gains are also depreciated, with an amount equal to the difference between current value depreciation charged on assets and the depreciation that would have been chargeable based on their historical cost being transferred each year from the Revaluation Reserve to the Capital Adjustment Account.

Heritage Assets

The Council's Heritage Assets are assets that are held by the Council principally for their contribution to knowledge and/or culture. They are recognised and measured, including treatment of revaluation gains and losses, in accordance with the Council's policies on Property, Plant and Equipment.

There is no depreciation charged on the Heritage Assets because it has been estimated that the assets have a useful life of such length that any depreciation charge on the asset will be negligible and can be ignored on the basis of materiality. The Council considers that the Heritage Assets held by the Council will have indeterminate lives and a high residual value; hence the Council does not consider it appropriate to charge depreciation for the assets. There will therefore be no change to the depreciation charged in the financial statements in relation to the Council's Heritage Assets.

Provisions, Contingent Liabilities & Contingent Assets

Provisions are made where an event has taken place that gives the Council a legal or constructive obligation that probably requires settlement by a transfer of economic benefits or service potential, and a reliable estimate can be made of the amount of the obligation. Provisions are charged as an expense to the appropriate service line in the Comprehensive Income and Expenditure Statement in the year that the Council becomes aware of the obligation and measured at the best estimate at the balance sheet date of the expenditure required to settle the obligation, taking into account relevant risks and uncertainties.

When payments are eventually made, they are charged to the provision carried in the Balance Sheet. Estimated settlements are reviewed at the end of each financial year – where it becomes less than probable that a transfer of economic benefits will now be required (or a lower settlement than anticipated is made), the provision is reversed and credited back to the relevant service. Where some or all of the payment required to settle a provision is expected to be recovered from another party (e.g., from an insurance claim), this is only recognised as income for the relevant service if it is virtually certain that reimbursement will be received if the Council settles the obligation.

The Council has made provision, based on past experience, for the loss of local taxation income arising from bad and doubtful debts, with all debts over two years old being fully provided for. Provision has also been made for bad and doubtful debts for all other items of income.

Contingent Liabilities

A contingent liability arises where an event has taken place that gives the authority a possible obligation whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the authority. Contingent liabilities also arise in circumstances where a provision would otherwise be made but either it is not probable that an outflow of resources will be required, or the amount of the obligation cannot be measured reliably.

Contingent liabilities are not recognised in the Balance Sheet but disclosed in a note to the accounts.

Contingent Assets

A contingent asset arises where an event has taken place that gives the authority a possible asset whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the authority.

Contingent assets are not recognised in the Balance Sheet but disclosed in a note to the accounts where it is probable that there will be an inflow of economic benefits or service potential.

Reserves

Reserves are created by appropriating amounts out of the General Fund Balance in the Movement in Reserves Statement. When expenditure to be financed from a reserve is incurred, it is charged to the appropriate service in that year to score against the Surplus/Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement. The reserve is then appropriated back into the General Fund Balance in the Movement in Reserves Statement so that there is no net charge against council tax for the expenditure. The level of reserves held are subject to an annual review as part of the budget setting process.

Certain reserves are kept to manage the accounting processes for non-current assets, financial instruments and retirement benefits and that do not represent usable resources for the Authority – these reserves are explained in the relevant policies below.

The two capital reserves arising from the system of capital accounting are the Revaluation Reserve and the Capital Adjustment Account. The former of these represents the store of gains on revaluation of fixed assets not yet realised through sales and the latter relates to amounts set aside from capital resources to meet past expenditure.

The Financial Instruments Adjustment Account is a balancing account to allow for differences in statutory requirements and proper accounting practices for lending and borrowing by the Council, i.e., the restatement of “financial instruments” to “fair value”.

The Pension Reserve arises from the IAS19 accounting disclosures for retirement benefits and recognises the Council's share of actuarial gains and losses in the Orkney Islands Council Pension Fund and the change in the Council's share of the Pension Fund net liability chargeable to the Comprehensive Income and Expenditure Statement.

Revenue Expenditure Funded from Capital under Statute

Expenditure incurred during the year that may be capitalised under statutory provisions but does not result in the creation of a non-current asset has been charged as expenditure to the relevant service in the Comprehensive Income and Expenditure Statement in the year. Where the Council has determined to meet the cost of this expenditure from existing capital resources or by borrowing, a transfer in the Movement in Reserves Statement from the General Fund Balance to the Capital Adjustment Account then reverses out the amounts charged so that there is no impact on the level of council tax.

VAT

VAT payable is included as an expense only to the extent that it is not recoverable from Her Majesty's Revenue and Customs. VAT receivable is excluded from income.

Note 2 Accounting Standards Issued but not yet adopted

The Code requires the disclosure of information relating to the impact of an accounting change that will be required by a new standard that has been issued but not yet adopted. The Code required implementation from 1 April 2025, therefore there is no impact on the 2024/25 financial statements. This applies to the adoption of the following new or amended standards within the 2024-2025 Code:

- IAS 21 The Effects of Changes in Foreign Exchange Rate (Lack of Exchangeability) issued in August 2023. This amendment introduces requirements to assess whether a currency is exchangeable and how to determine a spot exchange rate if it is not.
- IFRS 17 Insurance Contracts issued in May 2017 but adopted in 25/26. This replaces IFRS 4 and sets out principles for recognition, measurement, presentation and disclosure of insurance contracts. This aims to make reporting more comparable between different entities.
- Changes to the measurement of non-investment assets within the 2025/26 Code include adaptations and interpretations of IAS 16 Property, Plant and Equipment and IAS 38 Intangible Assets.

The changes will be effective from 1 April 2025 and are not expected to have a material impact on the Council's financial statements.

Note 3 Critical Judgements in Applying Accounting Policies

In applying accounting policies, the Council has had to make certain judgements about complex transactions or those involving uncertainty about future events. The critical judgements made in the Statement of Accounts are:

Public Sector Funding: There is a high degree of uncertainty about future funding levels for local government. However, the Council has determined that this uncertainty is not yet sufficient to provide an indication that the assets of the Council might be impaired as a result of a need to close facilities and reduce levels of service provision.

Asset Valuations: The Council's appointed valuer of property assets carries out regular reviews of the value of assets reported in the Balance Sheet and any significant changes in value are processed as asset revaluations or impairments. These values are based on their professional opinion using available market information at the time of assessment. There is no indication that the Council's investment properties have suffered a material valuation uncertainty or impact as a result of the recent market conditions and as a result, rental levels and renewals appear to have been unaffected to any material degree, allowing for normal vacancy rates at any given time.

Note 4 Assumptions made about the Future

The Annual Accounts contain estimated figures that are based on assumptions made by the Council about the future or that are otherwise uncertain. Estimates are made taking into account historical experience, current trends and other relevant factors. However, because balances cannot be determined with certainty, actual results could be materially different from the assumptions and estimates.

The items in the Council's Balance Sheet as at 31 March 2025 for which there is significant risks of material adjustment in the forthcoming financial year are as follows:

Item	Uncertainties	Effect if results differ from assumption
Property, Plant & Equipment	Assets are depreciated over useful lives that are dependent on assumptions about the level of repairs and maintenance that will be incurred in relation to individual assets. The current economic climate makes it uncertain that the Authority will be able to sustain its current spending on repairs and maintenance, bringing into doubt the useful lives assigned to assets. There is currently valuation uncertainty in relation to Property, Plant and Equipment due to the current turmoil in the economic markets which is affecting real estate markets and material prices globally.	If the useful life of assets is reduced, depreciation increases and the carrying amount of the assets falls. It is estimated that the annual depreciation charge for Property, Plant and Equipment would increase by £2.321M for every year that useful lives had to be reduced.
Pensions Liability	Estimation of the net liability to pay pensions depends on a number of complex judgements relating to the discount rate used, the rate at which salaries are projected to increase, changes in retirement ages, mortality rates and expected returns on pension fund assets. A firm of consulting actuaries is engaged to provide the Council with expert advice about the assumptions to be applied.	The effects on the net pensions liability of changes in individual assumptions can be measured. For instance, a 0.1% decrease in the discount rate assumption would result in an increase in the pension liability of £5.627M. The impact of the change of various assumptions is shown in note 33.
Debt Impairment	At 31 March 2025, the Council had a balance for trade debtors of £12.463M. A review of significant balances suggested that an impairment of doubtful debts of 22.77% (£2.838M) was appropriate. However, in the current economic climate it is not certain that such an allowance would be sufficient.	If collection rates were to deteriorate, an increase of 10% of the amount of the impairment of doubtful debts would require an additional £1.243M to be set aside as an allowance.
Flotta Oil Terminal Decommissioning	At 31 March 2025, the Council has a recognised a contractual commitment in respect of the future decommissioning of the Flotta Oil Terminal as a provision of £41.341M	The provision is updated annually by RPI, as at 28 February, for the effects of inflation. A 1.0% increase in inflation in excess of the budgeted assumptions would require a further £0.413M to be provided for.
Fair Value Measurement	When the fair value of financial assets and liabilities cannot be measured based on quoted prices in active markets (i.e, Level 1 inputs), their fair value is measured using valuation techniques. Where possible, the inputs to these valuation techniques are based on observable data, but where this is not possible judgement is required in establishing fair values. These judgements typically include consideration such as uncertainty and risk. However, changes in the assumptions used could affect the fair value of the council's assets and liabilities.	
Asset Valuation	The obsolescence rates used in the valuation process have been set through valuer judgement, using various data sources, for example, past experience, Scottish Assessors Association Practice Notes (Contractor's valuations), consideration of asset versus modern equivalent, and market comparison. The sensitivity of this assumption in the valuation process shows that where the building is relatively modern, and still close to the template for a modern replacement, the depreciation rates are starting low, and the impact is modest, but where the asset is more obsolete the change in value caused by variation in the depreciation rates are more pronounced. For example, a change of +/- 5% in the obsolescence rates used in the valuation Orkney's schools valued at DRC at £154,282,000 would result in a change in value of -£2,314,000 to £2,160,000, or -1.5% to 1.4%.	

Note 5 Material Items of Income and Expenditure

All material items are disclosed on the face of the Comprehensive Income and Expenditure Statement.

Note 6 Events after the Balance Sheet Date

The Section 95 Officer, being the officer responsible for the Council's financial affairs, signed the Draft Annual Accounts on 30 June 2025. Events taking place after this date are not reflected in the financial statements or notes. Where events taking place before this date provided information about conditions existing at 31 March 2025, the figures in the financial statements and notes have been adjusted in all material respects to reflect the impact of this information.

Note 7 Expenditure and Funding Analysis

This note provides a reconciliation of the main adjustments to the Net Expenditure to Fund Balances to arrive at the amounts in the Comprehensive Income and Expenditure Statement.

The Expenditure and Funding Analysis is structured in accordance with the Council's Management structure and shows how the expenditure is allocated for decision making purposes between the Authority's Services. Income and Expenditure accounted for under generally accepted accounting practices is presented more fully in the Comprehensive Income and Expenditure Statement.

2024-2025	Net Expenditure to Fund Balances	Adjustment Between Funding & Accounting Basis	Net Expenditure in CIES
	£000	£000	£000
Education	48,888	6,769	55,657

Balance as at 31 March 2025	(13,792)	(582)	(215,003)	(229,377)

This note provides a reconciliation of the main adjustments to Net Expenditure Chargeable to the General Fund, HRA and Harbour Balances to arrive at the amounts in the Comprehensive Income and Expenditure Statement.

The adjustments between funding and accounting basis totalling £4.148M includes transfers to/(from) the repairs and renewals fund and the Capital Statutory Fund of £2.688M as detailed in Note 9 to the Accounts.

After allowing for the transfer to the repairs and renewals fund, the remaining adjustments between Funding and Accounting Basis relate to the General Fund, Housing Revenue Account and the Harbour Authority and are explained in the Movement in Reserves Statement.

2023-2024	Net Expenditure to Fund Balances	Adjustment Between Funding & Accounting Basis	Net Expenditure in CIES

Deficit/(Surplus) For Year	3,460	(3,569)	(488)	7,546	6,949

Adjustments for Capital Purposes

Note 1. Adjustments for Capital Purposes adds in depreciation and impairment and revaluation gains and losses in the services line, and for:

- Other operating expenditure - adjusts for capital disposals with a transfer of income on disposal of assets and the amounts written off for those assets.
- Financing and investment income and expenditure - the statutory charges for capital financing and other revenue contributions are deducted from other income and expenditure as these are not chargeable under generally accepted accounting practices.
- Taxation and non-specific grant income and expenditure - capital grants are adjusted for income not chargeable under generally accepted accounting practices. Revenue grants are adjusted from those receivable in the year, to those receivable without conditions, or for which conditions were satisfied throughout the year. The Taxation and Non-Specific Grant Income and Expenditure line is credited with capital grants receivable in the year without conditions or for conditions which were satisfied in the year.

Net Change for the Pensions Adjustment

Note 2. Net change for the removal of pension contributions and the addition of IAS19 Employee Benefits pension related expenditure and income:

- For services this represents the removal of the employer pension contributions made by the authority as allowed by statute and the replacement with current service costs and past service costs.
- For Financing and investment income and expenditure – the net interest on the defined benefit liability is charged to the Comprehensive Income and Expenditure Statement.

Other Differences

Note 3. Other differences between the amounts debited/credited to the Comprehensive Income and Expenditure Statement and amounts payable/receivable to be recognised under statute:

- For services this represents the removal of the increase or decrease in the employee statutory adjustment account.
- For services this includes reclassification of costs as other income and expenditure.

Note 8 Adjustment between Accounting Basis and Funding Basis

This note details the adjustments that are made to the total comprehensive income and expenditure recognised by the Council in the year in accordance with proper accounting practice to the resources that are specified by statutory provisions as being available to the Council to meet future capital and revenue expenditure:

2024-2025 Usable Reserves	General Fund Balance	Housing Revenue Account	Harbour Reserves	Capital Receipt Reserves	Movement in Unusable Reserves
	£000	£000	£000	£000	£000
Adjustments involving the Capital Adjustment Account:					
Reversal of items debited or credited to the Comprehensive Income and Expenditure Statement:					
Charges for depreciation and impairment of non-current assets	14,360	2,522	3,960	0	(20,842)
Amortisation of Intangible Assets	111	0	0	0	(111)

Note 9 Transfer to or from General Fund Earmarked Balances and Other Reserves

This note sets out the amounts set aside from the General Fund Balance in statutory reserves established under Schedule 3 of the Local Government (Scotland) Act 1975 to provide financing for specific areas of expenditure, and the amounts transferred back from these funds to meet General Fund expenditure.

	Balance at 31 March 2023 £000	Transfers in 2023- 2024 £000	Transfers out 2023- 2024 £000	Balance at 31 March 2024 £000	Transfers in 2024- 2025 £000	Transfers out 2024- 2025 £000	Balance at 31 March 2025 £000
Repairs & Renewals Fund	6,804	127	(912)	6,019	3,300	(467)	8,852
Revenue statutory fund	6,804	127	(912)	6,019	3,300	(467)	8,852
Capital Fund	1,219	0	(81)	1,138	0	(145)	993
Capital Receipts Reserve	2,046	270	(236)	2,080	408	(225)	2,263
Capital Grants Unapplied	20	0	0	20	0	0	20
Capital statutory funds	3,285	270	(317)	3,238	408	(371)	3,275
Total	10,089	397	(1,229)	9,257	3,708	(838)	12,127

A Capital Fund is maintained for the replacement of property, plant and equipment in terms of Schedule 3 of the Local Government (Scotland) Act 1975 and includes unapplied capital receipts and grants.

Repairs and Renewals funds are maintained for the purpose of providing for the replacement of plant and vehicles held by the General Fund of Orkney Islands Council. In particular, funds in respect of general repairs and renewals and ferry replacement.

Ring-fenced elements of the General Fund Balance

This note sets out the amounts within the General Fund Balance which the Council has ring-fenced for future expenditure plans.

	2023-24				2024-25

Statutory Override – Infrastructure Assets

The CIPFA/LASAAC Code of Practice for Local Authority Accounting in the United Kingdom (the Code) requires infrastructure assets to be measured using the historical cost measurement basis and carried at depreciated historical cost.

The Code requires that where a component of an asset is replaced, the carrying amount (net book value) of the old component shall be de-recognised to avoid double-counting.

Due to practical difficulties in applying component accounting for the recognition and derecognition of replaced components in infrastructure assets, largely due to limitations on the available data, most local authorities have been unable to comply with the requirement to assess the net book value of the replaced component and have therefore taken the approach that the replaced component has carrying value of zero.

Auditors have raised concerns that there may be a lack of evidence to support this assumption and without a resolution there is a significant risk that Local Authority financial statements could be subject to a qualified audit opinion.

CIPFA/LASAAC have yet been unable to find a way forward that will satisfy both audit concerns and the requirement for high quality financial reporting.

The Scottish Government put a statutory intervention in place to allow time for a permanent solution to be developed within the Code. A permanent solution has not yet been agreed, therefore the statutory guidance has been extended to 31 March 2025.

The Council has applied both statutory overrides for infrastructure assets, as follows:

- Statutory Override 1: For accounting periods commencing from 1 April 2021 until 31 March 2025, a local authority is not required to report the gross cost and accumulated depreciation for infrastructure assets.
- Statutory Override 2: For accounting periods commencing from 1 April 2021 until 31 March 2025 the carrying amount to be derecognised in respect of a replaced part of an infrastructure asset is to be taken to be and accounted for as a nil amount. No subsequent adjustment shall be made to the carrying amount of the asset with respect to that part.

The value of Infrastructure assets is as follows:

	2023-2024	2024-2025
	£000	£000
Net carrying amount as at 1 April	79,548	77,723
Add: Additions	1,903	2,490
Add: Revaluations	0	2
Add: Reclassifications & Transfers	141	0
Add: Derecognition – Disposals	6	0
Less: Derecognition – Disposals	(6)	0
Less: Depreciation	(3,869)	(4,144)
Balance as at 31 March	77,723	76,071

Note 14 Investment Properties

The following items of income and expense have been accounted for in the “financing and investment income and expenditure” line in the Comprehensive Income and Expenditure Statement:

	2023-2024	2024-2025
	£000	£000
Rental income from investment property	(2,930)	(1,142)
Direct operating expenses arising from investment property	131	338
Net (Gain)/Loss included in Financing & Investment Income in the CIES	(2,799)	(804)
Changes in Fair Value of Investment Properties	(5,354)	1,851
	(8,153)	1,047

There are no restrictions on the Council’s ability to realise the value inherent in its investment property or on the Council’s right to the remittance of income and the proceeds of disposal. The Council has no contractual obligations to purchase, construct or develop investment property, nor does it have contractual obligations in relation to repairs, maintenance or enhancement. The movement on investment properties during the year is as follows:

	2023-2024	2024-2025
	£000	£000
Balance at start of the year	19,229	24,690
Additions:		
Purchases	407	0
Disposals	(37)	(124)
Net gains/losses from fair value adjustments	5,354	(1,851)
Transfers:		
To/from Property, Plant and Equipment	(263)	293
Other changes	0	0
Balance at end of the year	24,690	23,008

Note 15 Financial Instruments

Categories of financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. The term ‘financial instrument’ covers both financial assets and financial liabilities and includes trade payables, borrowings (for example Public Works Loan Board debt and market debt), financial guarantees, bank overdraft, trade receivables, loans receivable, cash deposits with financial institutions (some on a fixed term basis and some which are immediately available) and longer-term investments. The following categories of financial instrument are carried in the Balance Sheet. (Those financial instruments that are classified as cash and cash equivalents are not included in this table – please see Note 18 for details of these.)

	Long-Term		Current	
	2023- 2024 £000	2024- 2025 £000	2023- 2024 £000	2024- 2025 £000
	Investments			
Financial assets at fair value other comprehensive income	5,886	4,313	0	0
Financial assets at Cost	1,269	1,268	0	0
Financial assets at fair value through profit and loss	0	0	259,979	251,894
Total investments	7,155	5,581	259,979	251,894
Debtors				
Financial assets carried at amortised cost	5,776	7,351	12,042	11,215
Total Debtors	5,776	7,351	12,042	11,215
Borrowings				
Financial liabilities at amortised cost	40,000	40,000	5,504	10,638
Total borrowings	40,000	40,000	5,504	10,638
Creditors				
Financial liabilities carried at amortised costs	0	0	23,720	25,405
Total creditors	0	0	23,720	25,405

Within financial year 2024/25 the Council sold Orkney Research and Innovation Campus.

The Debtors and Creditors figures above do not include Council Tax and Non-Domestic Rates as they are not considered to be Financial Instruments.

Fair value of financial instruments

When financial instruments are initially recognised they are measured at fair value, fair value being the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arms-length transaction. Subsequent to initial recognition, the balance sheet measurement method for a financial instrument depends on its classification, and the fair value will, for some financial instruments, diverge from the balance sheet carrying amount:

- Subsequent to initial recognition, financial assets held principally for strategic purposes and not for trading continue to be carried in the Balance Sheet at Fair Value Other Comprehensive Income.
- Subsequent to initial recognition, loans and receivables and financial liabilities at amortised cost are carried in the Balance Sheet at amortised cost, using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument to the net carrying amount of the financial asset or financial liability.
- Financial assets stated at Fair Value through Profit or Loss, are held for trading with any gains or losses recognised through the profit or loss account.

Financial instruments include the following investments held as part of the Strategic Reserve Fund on the Harbour Authority Account:

Investments	Market Value	Fair Value
	£000	%
Managed Funds	251,894	96.62%
Private Companies	4,512	1.73%
Fishing Quota	4,300	1.65%
Other	13	0.00%
Total	260,719	100%

As at the 31 March 2025, as part of the transitioning arrangements to the revised investment strategy, the Fund had remaining contractual commitments to invest up to £0.900M in the new mandate to Private Debt. The drawdown of this commitment will be funded from within the Fund's portfolio of investments.

The fair value hierarchy of financial instruments can be summarised as follows:

	Quoted Market Price Level 1 £000	Using Observable Inputs Level 2 £000	With Significant Unobservable Inputs Level 3 £000	Total £000
Value as at 31 March 2025				
Financial assets at fair value through profit and loss	101,714	89,652	60,527	251,893
Financial assets at fair value other comprehensive income	0	4,300	13	4,313
Financial Assets at Cost	0	0	1,268	1,268
Loans and receivables at amortised cost	0	3,177	0	3,177
Total Financial Assets	101,714	97,129	61,808	260,651
Financial liabilities at fair value through profit and loss	0	0	0	0
Financial liabilities at amortised cost	0	50,000	0	50,000
Total Financial Liabilities	0	50,000	0	50,000
Total Financial Instruments	101,714	47,129	61,808	210,651
Net Investments Assets (Fair Value)	101,714	47,129	61,808	210,651

	Quoted Market Price Level 1 £000	Using Observable Inputs Level 2 £000	With Significant Unobservable Inputs Level 3 £000	Total £000
Value as at 31 March 2024				
Financial assets at fair value through profit and loss	102,883	94,586	62,510	259,979
Financial assets at fair value other comprehensive income	0	5,000	13	5,013
Financial Assets at Cost	0	0	1,268	1,268
Loans and receivables at amortised cost	0	3,357	0	3,357
Total Financial Assets	102,883	102,943	63,791	269,617
Financial liabilities at fair value through profit and loss	0	0	0	0
Financial liabilities at amortised cost	0	45,029	0	45,029
Total Financial Liabilities	0	45,029	0	45,029
Total Financial Instruments	102,883	57,914	63,791	224,588
Net Investments Assets (Fair Value)	102,883	57,914	63,791	224,588

Loans and receivables include both loans advanced to local developers on commercial terms as well as loans advanced in support of economic development initiatives on interest free terms, otherwise more commonly known as soft loans. Loans to local developers, include a loan to Orkney Islands Property Development Limited of £0.680M, and housing loans to individuals where a specific entitlement criterion has been met. The risk of default is considered to be low for these financial instruments on the basis that security has been taken over the underlying assets. As such, the expected credit loss associated with loans to developers on commercial terms is not material and no impairment has been applied.

A portfolio of historic loans issued on interest free or below commercial terms in support of economic development opportunities have been discounted to reflect the effective interest rate. With the interest free loan typically being advanced for 20 years and with repayment only due upon maturity these loans are viewed as moderate risk. As such, an impairment has been applied using the simplified lifetime expected credit loss methodology. The movement on the portfolio of soft loans has been summarised as follows:

	2023-2024	2024-2025
	£000	£000
Balance as at 1 April	298	259
Add: Advances in year	0	0
Less: Loans repaid	(44)	(210)
Less: Loans written off	0	0
Add: Expected credit loss movement	(8)	66
Add: Fair value movement	13	13
Balance as at 31 March	259	128

Financial liabilities at amortised cost are Public Works Loans Board debt and interest due.

Financial liabilities carried at contract amount are short term creditors (see Note 20).

Items of income, expense, gain and loss relating to financial instruments

The following items of income, expense, gain and loss relating to financial instruments are included within the lines "financing and investment income and expenditure".

	Financial Liabilities Measured at Amortised Cost £000	2024-2025				Total £000	
		Financial Assets			Total		
		At Amortised Cost £000	At Fair Value Other Comprehensive Income £000	At Fair Value through Profit and Loss £000			Total
Interest expense (including finance lease interest)	2,191	0	0	0	2,191		
Losses on derecognition	0	0	0	(115)	(115)		
Losses on revaluation	0	0	0	8,347	8,347		
Impairment losses	0	66	0	0	66		
Fee expense	106	15	0	990	1,111		
Total expenses in (surplus) or deficit on the Provision of Services	2,297	81	0	9,222	11,600		
Interest income	(841)	(335)	0	0	(1,176)		
Interest income accrued on impaired financial assets	0	1	0	0	1		
Gains on revaluation	0	0	0	(13,473)	(13,473)		
	0	0	0	0	0		
Dividend income	0	0	0	(2,945)	(2,945)		
Other income	0	8	0	(3,160)	(3,152)		
Gains on derecognition	0	0	0	57	57		
Total income in (surplus) or deficit on the Provision of Services	(841)	(326)	0	(19,521)	(20,688)		
Gains on revaluation	0	0	0	0	0		
Losses on revaluation	0	0	700		700		
(Surplus) or deficit on revaluation of available-for-sale financial assets (in other comprehensive income and expenditure)	0	0	700	0	700		
Net (gain)/loss for the year (in the total comprehensive income and expenditure)	1,456	(245)	700	(10,299)	(8,388)		

Fair Values of Assets and Liabilities

Financial liabilities, financial assets represented by loans and receivables and long-term debtors and creditors are carried in the Balance Sheet at amortised cost. Their fair value can be assessed by calculating the present value of the cash flows that will take place over the remaining term of the instruments, using the following assumptions:

- Estimated ranges of interest rates at 31 March 2025 of 1.28% to 5.48 % for loans from the Public Works Loans Board and 5.5% for other loans receivable and payable, based on new lending rates for equivalent loans at that date
- No early repayment or impairment is recognised
- Where an instrument will mature in the next 12 months, carrying amount is assumed to approximate to fair value
- The fair value of trade and other receivables is taken to be the invoiced or billed amount.

The fair values calculated by our treasury advisors are based on a new loan discount rate, as follows:

	2023-2024		2024-2025	
	Carrying Amount £000	Fair Value £000	Carrying Amount £000	Fair Value £000
Financial liabilities	40,029	29,502	30,057	21,822
Total	40,029	29,502	30,057	21,822

The fair value of the financial liabilities is higher than the carrying amount because the Authority's portfolio of loans includes a number of fixed rate loans where the interest rate payable is higher than the prevailing rates at the Balance Sheet date. This shows a notional future loss (based on economic conditions at 31 March 2025) arising from a commitment to pay interest to lenders above current market rates.

	2023-2024		2024-2025	
	Carrying Amount £000	Fair Value £000	Carrying Amount £000	Fair Value £000
Long-term debtors less provision	3,292	3,328	2,893	2,942
Total	3,292	3,328	2,893	2,942

The fair value of assets exceeded the carrying amount because the Authority's portfolio of investments includes a number of fixed rate loans where the interest rate receivable is higher than the prevailing rates at the Balance Sheet date.

The nature and extent of risks arising from Financial Instruments are detailed in Note 35.

Note 16 Inventories

	2023-2024	2024-2025
	£000	£000
Stocks and Stores	3,434	3,686
Total	3,434	3,686

Note 17 Short-term Debtors

	2023-2024	2024-2025
	£000	£000
NDR & Council Tax	1,724	1,470
Rents	354	412
Value Added Tax	1,314	1,238
Trade Debtors	8,650	9,343
Total	12,042	12,463

Note 18 Cash and Cash Equivalents

The balance of cash and cash equivalents is made up of the following components. With the exception of imprest accounts held at Council establishments, the balances in all of the categories listed below are used together to manage the Council's overall cash balances on a day-to-day basis.

	2023-2024	2024-2025
	£000	£000
Cash and Bank balances	135	150
Short Term Investments (considered to be Cash Equivalents)	1,000	500
Short Term Deposits (considered to be Cash Equivalents)	9,918	11,178
Total	11,053	11,828

Note 19 Assets Held for Sale

The following table summarises the movement in the fair value of assets held for sale during the year:

	Current	
	2023-2024	2024-2025
	£000	£000
Balance outstanding at start of year	380	270
Assets newly classified as held for sale:	0	0
Transferred from/(to) Non-Current Assets during year	(65)	325
Revaluation gains/(losses) taken to surplus or deficit on the provision of services	(15)	35
Revaluation gains/(losses) other	0	0
Assets sold cost	(30)	0
Other disposals	0	0
Balance outstanding at year-end	270	630

Note 20 Short-term Creditors

The analysis below details the main short-term creditor balances.

	2023-2024	2024-2025
	£000	£000
Council Tax	0	0
HRA	50	0
Accumulated Absences	2,921	3,124
Receipts in Advance	366	3,005
Trade Creditors	17,613	16,426
Other	2,841	2,850
Total Short-Term Creditors	23,791	25,405

Note 21 Provisions

Provisions are made where an event has taken place that gives the Council a legal or constructive obligation that probably requires settlement by a transfer of economic benefits or service potential, and a reliable estimate can be made of the amount of the obligation.

	Balance as at 1 April 2024	Increase in provision during year	Utilised during year	Unused Amounts Reversed	Interest earned	Balance as at 31 March 2025
	£000	£000	£000	£000	£000	£000
Long Term Provisions	39,977	1,364	0	0	0	41,341
	39,977	1,364	0	0	0	41,341

A provision of £41.341M has been set aside to provide for the future cost that will be incurred by the Council in respect of the decommissioning of the Flotta Oil Terminal. The provision is updated annually by RPI for the effects of inflation.

In the prior year financial statements, the entire balance was erroneously labelled as current within the provisions note. It should have been labelled as long term, consistent with the presentation on the face of the balance sheet. The labelling has been amended accordingly. There is no impact on the previously reported balance sheet from this change.

Note 22 Reserves

Usable reserves

Useable reserves are those reserves the Council is able to apply to fund expenditure or reduce taxation and comprise both capital and revenue reserves. Movements in the useable reserves during the year are outlined in the Movement in Reserves statement.

2023-2024		2024-2025
£000		£000
15,844	General Fund Balance	13,792
803	Housing Revenue Account Balance	583
2,100	Capital Receipts Reserve	2,283
1,138	Other Statutory Funds	992
227,483	Harbours	215,003
6,019	Repairs and Renewals Fund	8,852
253,387	Total useable reserves	241,505

Unusable Reserves

Unusable reserves are those reserves that the Council is not able to utilise to provide services, and comprise:

- Reserves that hold unrealised gains and losses, in relation to the revaluation of property, plant and equipment where amounts will only become available to provide services (or limit resources in the case of losses) once the gains or losses are realised as the assets are disposed of.
- Adjustment accounts that deal with situations where income and expenditure are recognised according to statutory regulations against the General Fund Balance and the Housing Revenue Account Balance on a different basis from that expected by generally accepted accounting practices. These adjustment accounts will carry either a debit balance (showing that the Council is required by statute to fund its expenditure more slowly than accounting standards would expect) or a credit balance (where the Council has set resources aside under statute earlier than accounting standards require). The adjustment accounts effectively offset the General Fund Balance and the Housing Revenue Account Balance to give the Council more or less spending power in the short term than proper accounting practices would allow. The adjustment accounts comprise the Capital Adjustment Account, the Financial Instruments Adjustment Account, the

Revaluation Reserve, the Pension Reserve, Available for Sale Financial Instruments Reserve and the Employee Statutory Adjustment Account.

Summary of Unusable Reserves

	2023-2024	2024-2025
	£000	£000
Capital Adjustment Account	265,268	266,115
Financial Instrument Adjustment Account	(14)	(5)
Revaluation Reserve	164,671	187,739
Pensions Reserve	141,853	(4,317)
Available for Sale Financial Instruments Reserve	3,522	2,822
Employee Statutory Adjustment Account	(2,921)	(3,124)
Total Unusable Reserves	572,379	449,230

1. Movement in the year: Revaluation Reserve

The Revaluation Reserve contains the gains made by the Council arising from increases in the value of its non-current assets. The balance is reduced when assets with accumulated gains are (i) revalued downwards or impaired and the gains are lost, (ii) used in the provision of services and the gains are consumed through depreciation or (iii) disposed of and the gains are realised. The Revaluation Reserve contains only revaluation gains accumulated since 1 April 2007, which was the date that the Revaluation Reserve was created. Accumulated gains arising before that date are consolidated into the balance on the Capital Adjustment Account.

	2023-2024	2024-2025
	£000	£000
Balance at 1 April	172,076	164,671
Upward revaluation of assets	805	32,152
Downward revaluation of assets and impairment losses not charged to the surplus/deficit on the Provision of Services	0	0
Surplus or deficit on revaluation of non-current assets not posted to the surplus or deficit on the provision of services	805	32,152
Difference between fair value and historical cost depreciation	(8,131)	(9,058)
Revaluation balances on assets scrapped or disposed of	(79)	(26)
Balance at 31 March	164,671	187,739

2. Movement in the year: Capital Adjustment Account

The Capital Adjustment Account absorbs the timing differences arising from the different arrangements for accounting for the consumption of non-current assets and for financing the acquisition, construction or enhancement of those assets under statutory provisions or regulations. The Capital Adjustment Account is debited with the cost of acquisition, construction or enhancement as depreciation, impairment losses and amortisations are charged to the comprehensive income and expenditure statement (with reconciling postings from the Revaluation Reserve to convert fair value figures to a historical cost basis). The Capital Adjustment Account is credited with the amounts set aside by the Council as finance for the costs of acquisition, construction and enhancement.

The Capital Adjustment Account contains accumulated gains and losses on investment properties and gains recognised on donated assets that have yet to be consumed by the Council.

The Capital Adjustment Account also contains revaluation gains accumulated on Property, Plant and Equipment before 1 April 2007. The Revaluation Reserve was created to hold such gains arising from 1 April 2007 onwards.

Note 8 provides details of the source of all the transactions posted to the Capital Adjustment Account, apart from those involving the Revaluation Reserve.

	2023-2024		2024-2025	
	£000	£000	£000	£000
Balance at 1 April		258,293		265,268
Reversal of items relating to capital expenditure debited or credited to the Comprehensive Income and Expenditure Statement				
Charges for depreciation and impairment of non-current assets	(19,270)		(20,953)	
Revaluation losses on Property, Plant and Equipment	46		1,138	
Right of Use Assets – net movement on CAA	0		(81)	
Revenue expenditure funded from capital under statute	0		0	
Amounts of non-current assets written off on disposal or sale as part of the gain/loss on disposal to the Comprehensive Income and Expenditure Statement	(264)		(558)	
		(19,488)		(20,454)
Adjusting amounts written out of the Revaluation Reserve		8,832		9,060

Use of the Major Repairs Reserve to finance new capital expenditure	0		0	
Loans Lease principal repayments	0		0	
Capital grants and contributions credited to the Comprehensive Income and Expenditure Statement that have been applied to capital financing	9,082		10,081	
Statutory provision for the financing of capital investment charged against the General Fund and HRA balances	2,578		3,157	
Capital expenditure charged against the General Fund and HRA balances	381		629	
		12,277		14,092
Movements in the market value of Investment Properties debited or credited to the Comprehensive Income and Expenditure Statement		5,354		(1,851)
Balance at 31 March		265,268		266,115

3. Movement in the year: Financial Instruments Adjustment Account

The Financial Instruments Adjustment Account absorbs the timing differences arising from the different arrangements for accounting for income and expenses relating to certain financial instruments, and for bearing losses or benefiting from gains in accordance with statutory provisions. The Council uses the Financial Instruments Adjustment Account to manage “soft loans” that were on the Council’s Balance Sheet at 31 March 2007. Soft loans are loans advanced by the Council at nil or below prevailing interest rates. Generally accepted accounting practices require that the discounted interest rate is recognised as a reduction in the fair value of the loan, with the difference being debited to the Comprehensive Income and Expenditure Statement as service expenditure. However, statutory arrangements [or regulations] require that, for soft loans on the Council’s Balance Sheet at 31 March 2025, the reduction in value and corresponding charge to be reversed, so that there is no impact on the General Fund Balance.

	2023-2024	2024-2025
	£000	£000
Balance at 1 April	(24)	(14)
Amount by which finance costs charged to the Comprehensive Income and Expenditure Statement are different from finance costs chargeable in the year in accordance with statutory requirements	10	9
Balance at 31 March	(14)	(5)

4. Movement in the year: Pension Reserve

The Pension Reserve absorbs the timing differences arising from the different arrangements for accounting for post-employment benefits and for funding benefits in accordance with statutory provisions or regulations. The Council accounts for post-employment benefits in the comprehensive income and expenditure statement as the benefits are earned by employees accruing years of service, updating the liabilities recognised to reflect inflation, changing assumptions and investment returns on any resources set aside to meet the costs. However, statutory arrangements require benefits earned to be financed as the Council makes employer's contributions to pension funds. The credit balance on the Pension Reserve shows a small liability in respect of unfunded pensions.

	2023-2024	2024-2025
	£000	£000
Balance at 1 April	131,501	141,853
Remeasurement of the net Pension Fund liability/(asset)	6,783	30,242
Reversal of items relating to retirement benefits debited or credited to the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement	(5,896)	(6,929)
Employers Pensions contributions and direct payments to pensioners payable in the year	9,465	9,092
Asset Ceiling Adjustment	0	(178,575)
Balance at 31 March	141,853	(4,317)

The Pension Reserve total of £141,853k included in the Council's statutory accounts for the year ending 31 March 2024 was determined using the approach set out in IFRIC 14. In setting the Pensions Reserve balance it was assumed that the fund would run in perpetuity, using the Projected Current Service Costs, current contribution rates payable by the Council and a net Discount Factor of the Discount Rate less the assumed future Salary Increase Rate. All figures coming from the IAS19 Report provided by Hymans as at 31 March 2024.

For year end 31 March 2025 the Council has applied a consistent approach to the prior year, recognising the surplus only to the extent that it can be recovered through economic value from potential future reduced contributions. Over the course of the year, an increase in the Discount Rate has diminished this economic value.

Additionally, the Council revised its assumptions regarding future secondary contributions. In the 2023/24 financial statements, it was assumed that the reduction in total contributions would continue for longer than the 20-year funding time horizon. However, this year, the Council has assumed that contributions will revert to the primary rate after the end of the funding time horizon of 20 years, in 2042/43.

Under the asset ceiling test, an asset can only be recognised to the extent that it is recoverable — for example, through future contribution reductions. In this period, the projected future service cost (i.e., the cost of pension benefits accruing for current employees) is lower than the estimated level of future employer contributions. This implies that no contribution holiday is available to the employer, and therefore no economic benefit can be realised from the surplus. As a result of these changes, no pension surplus can be recognised as of 31 March 2025.

5. Movement in the year: Employee Statutory Adjustment Account

The Employee Statutory Adjustment Account absorbs the differences that would otherwise arise on the General Fund Balance from accruing for short-term accumulating compensated absences at the end of the financial year. Generally accepted accounting practices require that all short-term employee benefits, including accumulating compensated absences, should be recognised as a cost in the accounts for the year to which they relate. This means that where employees' full holiday entitlement, time in lieu or credit flexi-time balance has not been taken by the financial year-end, the cost of the untaken days or time is calculated and recorded as an accrued expense. However, statutory arrangements require that the impact of such accrued expenditure on the General Fund Balance is neutralised by transfers to or from the Employee Statutory Adjustment Account.

	2023-2024	2024-2025
	£000	£000
Balance at 1 April	(3,398)	(2,921)
Amounts accrued at the end of the current year	477	(203)
Balance at 31 March	(2,921)	(3,124)

6. Movement in the year: Financial Instruments Revaluation Reserve

Formerly known as the Available for Sale Financial Instruments Reserve, this reserve has been reclassified as the Financial Instruments Revaluation Reserve in accordance with IFRS 9 with effect from 1 April 2018. The Financial Instruments Revaluation Reserve contains the gains made by the Authority arising from increases in the value of its investments held principally for strategic purposes and not held for trading, that have quoted market prices or otherwise do not have fixed or determinable payments. The balance is reduced when investments with accumulated gains are:

- Revalued downwards or impaired and the gains are lost
- Disposed of and gains are realised

	2023-2024	2024-2025
	£000	£000
Balance at 1 April	2,322	3,522
Upward revaluation of investments	0	0
Downward revaluation of investments not charged to the Surplus/Deficit on the Provision of Services	1,200	(700)
Balance at 31 March	3,522	2,822

Note 23 Trading Operations

Following a review of the Council's trading operations it was reaffirmed that no significant trading operations existed which required the establishment of separate trading accounts.

	2023-2024			2024-2025		
	Expenditure	Income	Net Expenditure / (Income)	Expenditure	Income	Net Expenditure / (Income)
	£000	£000	£000	£000	£000	£000
Orkney College	7,011	(6,179)	832	7,764	(6,292)	1,472
Total	7,011	(6,179)	832	7,764	(6,292)	1,472

Note 24 Agency Services

The Council is required by legislation to provide a collection service for Scottish Water whereby it collects water and waste charges in conjunction with collection of Council Tax. The legislation stipulates the minimum amount Scottish Water must pay by way of commission for this service. For 2024/25 the value of this service amounted to £0.078M (2023/24 £0.075M).

The Council collects Non-Domestic Rates on behalf of the Scottish Government. For 2024/25 £12.176M was collected (2023/24 £11.767M).

Note 25 External Audit Costs

Fees payable to Audit Scotland in respect of external audit services undertaken in accordance with Audit Scotland's Code of Audit Practice were as follows:

	2023-2024	2024-2025
	£000	£000
Orkney Islands Council	238	243
Charities	1	1
Total	239	244

Note 26 Capital Grant Receipts in Advance

The Council has received no capital grants in advance of need during 2024/25.

Note 27 Related Parties

The Council's related parties are those bodies or individuals that have the potential to control or significantly influence the Council, or to be controlled or significantly influenced by the council. The Council is required to disclose material transactions that have occurred with related parties and the amount of any material sums due to or from related parties. Related party relationships require to be disclosed where control exists, irrespective of whether there have been transactions between the related parties. Disclosure of this information allows readers to assess the extent to which the Council might have been constrained in its ability to operate independently or might have secured the ability to limit another party's ability to bargain freely with the Council.

Scottish Government

- The Scottish Government has effective control over the general operations of the Council, being responsible for providing the statutory framework within which the Council operates. The Scottish Government provides the majority of the Council's funding in the form of grants and prescribes the terms of many of the transactions that the Council has with other parties (such as Council Tax bills and housing benefits).

Companies and Joint Boards

- The Council is deemed to have significant influence or control over a number of wholly owned companies or Joint Boards, including the Orkney Integration Joint Board. Further details of which can be found in the group accounts which are set out within these statements.

Councillors and Officers

- The Council can on occasion transact with individuals or businesses that are owned by Elected Members or employees, but these are neither considered to be material by value or by nature.
- All Elected Members and senior officers are required to declare any related party interests in a formal Register of Interests, which is available for inspection upon request.

Pension Fund

- The Council is the administering authority and scheduled body for the Orkney Islands Council Pension Fund. The related party transactions being payments of employer's contributions in respect of the membership of the Pension Fund by Council employees.

	2023-2024			2024-2025		
	Receipts £000	Payments £000	Debtor/ (Creditor) £000	Receipts £000	Payments £000	Debtor/ (Creditor) £000

Orkney Islands Council Pension Fund						
Being Payments of employer's contributions in respect of employees	0	9,937	0	0	9,277	0

*The disclosed figure for 2023/24 in the prior financial statements was £40,670,000. This should have been £30,855,000. The comparative has been restated as a result. There is no impact on the 2023/24 comprehensive income and expenditure statement or cash flow statement from this matter.

Note 28 Capital Expenditure and Capital Financing

The total amount of capital expenditure incurred in the year is shown in the table below, together with the resources that have been used to finance it. Where capital expenditure is to be financed in future years by charges to revenue as assets are used by the Authority, the expenditure results in an increase in the Capital Financing Requirement (CFR), a measure of the capital expenditure incurred historically by the Authority that has yet to be financed. The CFR is analysed in the second part of this note.

Capital Expenditure and Capital Financing	2023-2024	2024-2025
	£000	£000
Opening Capital Financing Requirement	46,011	49,469
Property, Plant and Equipment	16,825	17,152
Investment Properties	407	14
Intangible Assets	61	13
	17,293	17,179
Sources of Finance		
Capital receipts	(236)	(225)
Government grants and other contributions	(9,082)	(10,081)
Other Contributions	(1,558)	(1,383)
Sums set aside from revenue:		
Direct revenue contributions:		
General	(31)	0
HRA	0	0
Harbours	(350)	(629)
Loans fund principal	(2,578)	(3,157)
	(13,835)	(15,475)
Closing Capital Finance Requirement	49,469	51,173
Explanation of movements in year		
Increase in underlying need to borrow (unsupported by government financial assistance)	3,458	1,971
Increase/(decrease) in Capital Financing Requirement	3,458	1,971

At 31 March 2025 the Council had commitments on capital contracts for projects of £2.492M. This expenditure will be funded from a combination of government grants, external borrowing, income from the sale of assets and contributions from revenue budgets.

The following significant contracts for capital investment have been entered into by Orkney Islands Council and extend beyond 31 March 2025:

Project Name	Purpose	Approx. Value £000	Anticipated Completion
New Kirkwall Care Facility	New Build	1,688	Monday, September 8, 2025
Dounby Visitor Infrastructure Hub	New Build	400	Tuesday, July 15, 2025
New Airfield Buildings - Stronsay	New Build	119	Monday, August 25, 2025
New Airfield Buildings – Papa Westray	New Build	285	Friday, July 4, 2025
Overall Total		2,492	

Similar commitments at 31 March 2024 were £7.296M.

Note 29 Leases

International Financial Reporting Standard 16 (IFRS 16)

In 2024/25, the Council has applied IFRS 16 Leases as adopted by the Code of Accounting Practice. IFRS 16 establishes a single model for lessee accounting, requiring the recognition of both assets and liabilities for most leases.

As a result, operating leases, previously accounted for under IAS17, have been recognised as right-of-use assets with a corresponding lease liability, representing the obligation to make the lease payments, in the balance sheet as at 1 April 2024.

IFRS 16 has been applied retrospectively, but with the cumulative effect recognised at 1 April 2024. This means that right-of-use assets and lease liabilities have been calculated as if IFRS 16 had always applied but recognised in 2024/25 and not by adjusting prior year figures. The details of the changes in accounting policies and transitional provisions are disclosed below.

Definition of a lease

On transition to IFRS 16, the Council elected to apply the practical expedient not to reassess whether a contract is, or contains, a lease at 1 April 2024, except in relation to leases for nil consideration and housing tenancies. It has applied IFRS 16 only to contracts that were previously identified as leases under IAS 17 and IFRIC 4.

As a lessee

As a lessee, the Council previously classified leases as operating or finance leases based on its assessment of whether the lease transferred significantly all of the risks and rewards incidental to ownership of the underlying asset to the Council. Under IFRS 16, the Council recognises right-of-use assets and lease liabilities for most leases, i.e. these leases are on-balance sheet.

The Council decided to apply recognition exemptions to short-term leases and has elected not to recognise right-of-use assets and lease liabilities for short-term leases that have a term of 12 months or less and leases of low value assets. The Council recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

Leases classified as operating leases under IAS 17

The Council used the following practical expedients when applying IFRS 16 to leases previously classified as operating leases under IAS 17.

- Lease liabilities are measured at the present value of the remaining lease payments at 1 April 2024, discounted by the Council's incremental borrowing rate at that date.
- A single discount rate has been applied to portfolios of leases with reasonably similar characteristics.
- The weighted average of the incremental borrowing rates used to discount liabilities was 5.02%.
- Right-of use assets are measured at the amount of the lease liability, adjusted for any prepaid or accrued lease payments that were in the balance sheet on 31 March 2024 – any initial direct costs have been excluded.
- All leases were assessed as to whether they were onerous at 31 March 2024, so right-of-use assets have not been subject to an impairment review – carrying amounts have been reduced by any provisions for onerous contracts that were in the 31 March 2024 balance sheet.
- For right-of-use assets for peppercorn or nominal lease payments a right-of use asset has been recognised at fair value on 1 April 2024 with the between that fair value and the lease liability credited as a gain in the surplus/deficit on the provision of services.

Application of the Code's adaptation of IFRS16 has resulted in the following additions to the balance sheet at 1 April 2024:

- £639,675.82 Property, plant and equipment – land and buildings (right-of-use assets).
- £536,743.90 Non-current creditors (lease liabilities).
- £69,033.86 Current creditors (lease liabilities).

The newly recognised leases liabilities of £0.606M compare with the operating lease commitments of £2.576M at 31 March 2024, disclosed in the notes to the 31 March 2024 financial statements. When these are discounted to their present value of £0.606M (using the incremental borrowing rate at 1 April 2024 of 5.02%), there is a difference of £1.970M from the newly recognised lease liabilities. This is explained by the fact that the lease liabilities exclude amounts for leases of low value items, leases that will expire before 31 March 2025 and variable leases that fall outside the scope of IFRS 16.

As a lessor

The Council is not required to make any adjustment on transition to IFRS 16 for leases in which it acts as a lessor, except for councils acting as an intermediate lessor (subletting an asset it has acquired under a lease), or where the Council is party to a lease for nil consideration.

The Council was not party to any sublease arrangements as lessor as at 1 April 2024.

As at 1 April 2024 the Council was not party to as lessor to lease for nil consideration.

Sale-and-leaseback

The Council did not have any Sale and Leaseback transactions as at 1 April 2024.

Orkney Islands Council as Lessee

Right of Use Assets

The table below shows the change in the value of right-of-use assets held under leases by the Council:

	Land and Buildings £000	Vehicles, Plant and Equipment £000	Total £000
Balance as at 1 April 2024	0	0	0
Implementation effect	34	606	640
Additions	0	0	0
Revaluations	0	0	0
Depreciation and Amortisation	(3)	(51)	(54)
Disposals	0	0	0
Balance as at 31 March 2025	31	555	586

The table below shows the Lease Liability in respect of Right of Use Assets:

	Statutory Charge for Repayment of Debt £000	Current Creditors £000	Non-Current Creditors £000
Balance as at 1 April 2024	0	0	0
Implementation effect	0	69	537
Balance as at 31 March 2025	97	35	501

The table below shows the impact of the recognition of Right of Use Assets on the Council's Unusable Reserves:

	Capital Adjustment Account £000	Revaluation Reserve £000	Total Unusable Reserves £000
Balance as at 1 April 2024	0	0	0
Balance as at 31 March 2025	82	(34)	48

Transactions under leases

The Council incurred the following expenses and cash flows in relation to leases:

2024-2025 £000	
Comprehensive Income and Expenditure Statement	
Interest expense on lease liabilities	28
Expense relating to short-term leases	0
Variable lease commitments not included in the measurement of lease liabilities	73
Cash Flow Statement	
Total cashflow for leases	97
Cash payment for interest portion of lease liabilities	0
Movement in Reserves During Year	
Total comprehensive income and expenditure	48
Reversal of entries included in the surplus or deficit on the provision of services in relation to capital expenditure	(82)
Statutory provision for the repayment of debt (MRP)	34

Maturity analysis of lease liabilities

The lease liabilities are due to be settled over the following time bands (measured at the undiscounted amounts of expected payments):

	2024-2025 £000
No later than 1 year	61
Later than 1 year and no later than 5 years	210
Later than 5 years	798
Total Undiscounted Liabilities	1,069

The Council is exposed to future cash outflows that are not reflected in the measurement of lease liabilities, arising from lease payments that fall outside the scope of IFRS 16 because of the variable nature of the lease payments.

The future minimum payments for leases that fall outside the scope of IFRS 16 are set out below:

	2023-2024 Land and Buildings £000	2024-2025 Land and Buildings £000
Minimum lease rentals payable:		
No later than 1 year	73	72
Later than 1 year and no later than 5 years	285	283
Later than 5 years	1,143	1,072
	1,501	1,427

Orkney Islands Council as Lessor

Operating Leases

The Council leases out property under operating leases for the following purposes:

- for the provision of community services, such as sports facilities, tourism services and community centres; or
- for economic development purposes to provide suitable affordable accommodation for local businesses.

Future minimum lease income is set out in the following table:

	2023-2024	2024-2025
	Land and Buildings £000	Land and Buildings £000
Minimum lease rentals receivable:		
No later than 1 year	1,343	1,132
Later than 1 year and no later than 5 years	2,719	2,515
Later than 5 years	11,603	11,217
	15,665	14,864

Note 30 Impairment Losses

The Code requires disclosure by class of assets of the amounts for impairment losses and impairment reversals charged to the Surplus or Deficit on the Provision of Services and to Other Comprehensive Income and Expenditure. These disclosures are consolidated in Notes 13 and 19 reconciling the movement over the year in the Property, Plant and Equipment, Intangible, Heritage and Assets Held for Sale balances.

Note 31 Capitalisation of Borrowing Costs

The Council does not capitalise its borrowing costs.

Note 32 Pension Schemes Accounted as Defined Contribution Schemes

There are currently two occupational pension schemes for teachers in Scotland, the Scottish Teachers' Superannuation Scheme (STSS) and the Scottish Teachers' Pension Scheme 2015 (STPS 2015). These schemes are administered by the Scottish Public Pensions Agency on behalf of Scottish Ministers. Both are defined benefit schemes, but, as it is not possible to identify each participating Council's share of the underlying liabilities on a consistent and reasonable basis both schemes are accounted for as if they were defined contribution schemes. Employer contributions are set on the basis of periodic reviews by the Government Actuary. The Council's rate of contribution as an employer increased to 23% from 17.2% on 1 September 2019. The employee rate is tiered and ranges from 7.2% to 11.9%. The Council paid £4.607M (£3.893M in 2023/24) of employer contributions to the Scottish Public Pensions Agency during 2024-25. £0.277M of expenditure (£0.268M in 2023/24) was charged to service revenue accounts during 2024/25 in respect of "added years" pension enhancement termination benefits, representing 1.56% of employees' pensionable pay (1.58% in 2023/24).

Note 33 Defined Benefit Pension Schemes

Participation in pension schemes

As part of the terms and conditions of employment of its employees, the Council makes contributions towards the cost of post-employment benefits. Although these benefits are not actually payable until employees retire, the Council has a commitment to make the payments, and this commitment needs to be disclosed at the time that employees earn their future entitlement.

The Council participates in two pension schemes:

- The Local Government Pension Scheme, administered locally by Orkney Islands Council - this is a funded defined benefit scheme, meaning that the Authority and employees pay contributions into a fund, calculated at a level intended to balance the pension's liabilities with investment assets.
- Arrangements for the award of discretionary post-retirement benefits upon early retirement - this is an unfunded defined benefit arrangement, under which liabilities are recognised when awards are made. However, there are no investment assets built up to meet these liabilities, and cash has to be generated to meet actual pension payments as they eventually fall due.

The principal risks to the Authority of the scheme are the longevity assumptions, statutory changes to the scheme, structural changes to the scheme (i.e., large-scale withdrawals from the scheme), changes to inflation, bond yields and the performance of the equity investments held by the scheme. These are mitigated to a certain extent by the statutory requirements to charge to the General Fund and Housing Revenue Account the amounts required by statute as described in the accounting policies note.

Transactions relating to post-employment benefits

The Council recognises the cost of retirement benefits in the reported cost of service when they are earned by employees, rather than when the benefits are eventually paid as pensions. However, the charge the Council is required to make against Council Tax is based on the cash payable in the year, so the real cost of post-employment/retirement benefits is reversed out of the General Fund via the Movement on Reserves Statement. The following transactions have been made in the Comprehensive Income and Expenditure Statement and the General Fund balance via the Movement in Reserves Statement during the year:

2023-2024		2024-2025
£000		£000
Comprehensive Income and Expenditure Statement		
<i>Cost of Services:</i>

491,107	100%	Total Assets	482,538	100%

Basis for Estimating Assets and Liabilities

Liabilities have been assessed on an actuarial basis using the projected unit method, an estimate of the pensions that will be payable in the future years dependent on assumptions about mortality rates, salary levels, etc. The estimates are based on the latest full valuation of the Fund at 31 March 2023, projected forward to 31 March 2026. The following table shows the principal assumptions used by Hymans Robertson LLP, the Fund's independent actuaries, to estimate the Council's post-employment benefits transactions, and the Council's share of the Pension Fund's defined benefit obligation (scheme liabilities) and scheme assets. The mortality assumptions are based on lives aged 45 and 65 at the latest Fund valuation date and not the balance sheet date:

2023-2024		2024-2025
4.80%	Discount rate for defined benefit obligation	5.80%
3.30%	Rate of increase in salaries	3.30%
2.80%	Rate of increase in pensions	2.80%
Mortality assumptions:		
<i>Longevity at age 65 for current pensioners</i>		
21.0	Men	20.9
23.7	Women	23.6
<i>Longevity at age 65 for future pensioners</i>		
22.1	Men	22.1
25.6	Women	25.6
Commutation assumptions – percentage of the maximum additional tax-free cash (per HM Revenue & Customs limits) converted from annual pensions into retirement lump sum:		
50%	For pre- April 2009 service	50%

The estimation of the defined benefit obligation is sensitive to the actuarial assumptions set out in the table above. The sensitivity analyses below have been determined based on reasonably possible changes to the assumptions occurring at the end of the reporting period and assumes for each change that the assumption analysed changes while all the other assumptions remain constant. In practice this is unlikely to occur, and changes in some of the assumptions may be interrelated. The estimations

in the sensitivity analysis have followed the accounting policies for the scheme, i.e., on an actuarial basis using the projected unit credit method.

Changes in assumptions as at 31 March 2025:	Approximate increase to Employer	Approximate Monetary Amount
	%	£000
0.1% decrease in Real Discount Rate	2%	5,627
1 year increase in member life expectancy	4%	12,389
0.1% increase in the Salary Increase Rate	0%	322
0.1% increase in the Pension Increase Rate	2%	5,457

Orkney Islands Council Pension Fund does not have an asset and liability matching strategy.

Impact on the Authority's Cash Flows

The objectives of the scheme are to keep employers' contributions at as constant a rate as possible. The Council has agreed a strategy with the scheme's actuary to maintain a funding level of 100% over the next 20 years. Funding levels are monitored on an annual basis. The next triennial valuation is due to be completed as at 31 March 2026.

The Fund is taking account of recent national changes to the Local Government Pension Scheme in Scotland such as the move from 1 April 2015 to a new Career Average Revalued Earning Scheme (CARE) for future accruals.

The Authority anticipates paying £8.324M in contributions to the scheme in 2025/26.

Statutory Accounts

It is a statutory requirement to publish a separate Annual Report and Accounts for the Orkney Islands Council Pension Fund. A copy of the annual report and accounts is available on the Council website: [Pension Fund Annual Accounts](#).

Note 34 Contingent Liabilities

Contingent liabilities are possible obligations that arise from past events whose existence will only be confirmed by the occurrence or non-occurrence of one or more uncertain future events.

Former Landfill and Quarry Sites Re-instatement

The Council is responsible under environmental and planning legislation for the ongoing monitoring, and if required maintenance and reinstatement of current and former landfill and quarry sites. The Quarries Working Group meets on a regular basis to discuss the former landfill and quarry sites, with a view to making decisions on how best to proceed with maintenance, reinstatement or disposal. The working group is made up of officers from Neighbourhood Services, Planning and Community Services, Property Asset Management and Facilities and Finance.

As at 31 March 2025, no financial provision has been made however the Council recognises that a contingent liability in respect of future reinstatement of current and former landfill and quarry sites operated by the Council may arise as a result of this work however the timing of liabilities in respect of current and former landfill and quarry sites is uncertain and the associated costs cannot be reliably estimated at this time.

Grant Funding Conditions

The Council receives grant income from a number of external agencies and public bodies in support of the delivery of a range of projects being undertaken. The standard conditions for grants received apply for a number of years after the end of the financial year in which the final instalment of the grant is paid. This means that the funding body, as the Grantor, can reclaim grant payments should the standard conditions of the grant be breached during this period.

Merchant Navy Officers Pension Fund (MNOFF)

The MNOFF is closed to new members and to future accrual from 31 March 2016, when contributing members were transferred to the Ensign Retirement Plan (for the MNOFF). The MNOFF is a multi-employer defined-benefit scheme and the Council cannot identify its share of the underlying assets and liabilities.

A full triennial actuarial valuation as at 31 March 2024 was finalised on 27 March 2025 (mnopf.co.uk). Key results were:

	31 March 2024	31 March 2025
	£000	£000
Technical Provisions Funding Level	99%	102%
Surplus/(deficit)	(11,000)	58,000

The Trustee and the Participating Employers agreed no deficit-repair contributions will be levied, as the shortfall is expected to be recovered from investment returns under the 2025 Recovery Plan. The next full valuation is due as at 31 March 2027; in the interim, annual funding updates will continue (next due 31 March 2026).

Orkney Islands Council Pension Fund

Following recent legal judgements, the funding valuation position as at 31 March 2021 includes an allowance for full Guaranteed Minimum Pension equalisation (indexation) treatment. A further ruling on Guaranteed Minimum Pension historical transfers is unlikely to be significant in terms of impact on the pension obligations. An allowance for the estimated impact of the McCloud judgement is also included within the funding valuation positions noted above. Whilst there is still uncertainty surrounding the potential remedy to the Goodwin judgement the approximate impact is likely to be minimal, therefore there has been no adjustment applied to the valuation.

The results of the 2017 cost cap were finalised in 2021/22 and suggest no changes to employer contribution rates recently certified and put in place by the LGPS administering authority from 1 April 2024.

Note 35 Nature and Extent of Risks Arising from Financial Instruments

The Authority's activities expose it to a variety of financial risks:

Credit Risk - The possibility that other parties might fail to pay amounts due to the Authority.

Liquidity Risk - The possibility that the Authority might not have funds available to meet its commitments to make payments.

Market Risk - The possibility that financial loss might arise for the Authority as a result of changes in such measures as interest rates and stock market movements.

The Council's management of treasury risks actively works to minimise the Council's exposure to the unpredictability of financial markets and to protect the financial resources available to fund services. The Council has fully adopted CIPFA's Code of Treasury Management Practices and has written principles for overall risk management as well as written policies and procedures covering specific areas such as credit risk, liquidity risk and market risk.

Credit Risk

Credit risk arises from the short-term lending of surplus funds to financial institutions and local authorities, as well as credit exposures to the council's customers.

The risk is minimised through the Annual Investment Strategy, which can be found at the following link: [Annual Investment Strategy 2024-25](#)

Credit Risk Management Practices

The Council's credit risk management practices are set out on pages 58 to 63 of the Annual Investment Strategy. It is the policy of the council to place deposits only with a limited number of high-quality banks, building societies and money market funds whose credit rating is independently assessed as sufficiently secure by the Council's treasury advisers and to restrict lending to a prudent maximum amount for each entity.

Deposits are not made with banks and financial institutions unless they are rated independently with minimum score of A1/P1/F1 short term debt ratings with Moodys, Standard & Poors or Fitch. During the year the authority has a policy of not lending more than 25% of its surplus balances to individual institutions at any one time.

The following analysis summarises the Council's potential maximum exposure to credit risk, based on past experience and current market conditions. No credit limits were exceeded during the financial year and the Council expects full repayment on the due date of deposits placed with its counterparties.

2024-2025	Amount at	Adjustment	Estimated
	31 March	for Market	maximum
	2025	Conditions at	exposure to
	£000	31 March	default and
		2025	uncollectability
		%	at 31 March
			2025
			£000
Deposits with financial institutions and local authorities	11,679		
Customers (sundry income)	5,890	48.20	2,839
Total	17,569		2,839

The following significant inputs, assumptions and estimation techniques have been used in calculating impairment loss allowances:

The Authority has assessed each category of financial asset in order to determine if an impairment loss is required. Impairment losses are calculated to reflect the expectation that the future cash flows might not take place because the borrowers could default on their obligation. The authority has used reasonable and supportable information available for each financial instrument in order to determine the loss allowance model. Considered in this determination is also the credit status of the instrument on initial recognition, if available, together with an assessment of general economic conditions and whether the credit risk has increased significantly since initial recognition. Forward-looking information has been incorporated into the determination of any movement in fair value.

During the reporting period changes were made to the estimation technique in respect of the provision for bad debt, with the previous aged analysis provision replaced by a risk-based approach to assess the probability of default by debtor.

No credit limits were exceeded during the reporting period and the authority does not expect any losses from non-performance by any of its counterparties in relation to deposits and bonds.

The Authority does not allow credit for customers such that of the £5.890M debtors balance, £2.916M is less than one month old, leaving a balance of £1.548M that is past its due date for payment. The past due but not impaired amounts can be analysed by age as follows:

2023-2024		2024-2025
£000		£000
600	Less than three months	677
145	Three to six months	111
150	Six months to one year	199
431	More than one year	561
1,326	Sundry income debtors balance	1,548

During the year the impairment loss allowance on overdue sundry income debtors increased by £0.250M, being an increase from £1.193M to £1.443M.

Amounts Arising from Expected Credit Losses

The Authority has adopted the simplified approach for expected credit losses allowances. There have been no loss allowances recognised during the year and no expected credit losses realised.

Collateral

Orkney Islands Council acts as the lender of last resort for housing loans. In such cases the Council takes a standard security over the property. As at 31 March 2025 the outstanding value of loans advanced by the Council was £2.056M (£2.207M as at 31 March 2024).

Liquidity risk

The authority has a cash flow management system that seeks to ensure that cash is available as needed. If unexpected movements happen, the authority has ready access to borrowings from the money markets and the Public Works Loans Board. There is no significant risk that it will be unable to raise finance to meet its commitments under financial instruments. Instead, the risk is that the authority will be bound to replenish a significant proportion of its borrowings at a time of unfavourable interest rates. The authority sets limits on the proportion of its fixed rate borrowing during specified periods.

The maturity analysis of the principal element of borrowing is as follows:

	2023-2024	2024-2025
	£000	£000
Less than one year	15,029	10,000
Between one and two years	0	10,000
Between two and five years	0	0
More than five years	30,000	30,000
	45,029	50,000

As the authority also maintains a temporary loans portfolio, with lending of surplus funds on the money markets as an integral part of its day-to-day cash flow management activities, there is no significant risk that it will be unable to raise finance to meet its commitments under financial instruments.

Market risk: interest rate risk

The Authority is exposed to risk in terms of its exposure to interest rate movements on its borrowings and investments. Movements in interest rates have a complex impact on the authority. For instance, a rise in interest rates would have the following effects:

Borrowings are not carried at fair value, so nominal gains and losses on fixed rate borrowings would not impact on the Surplus or Deficit on the Provision of Services or Other Comprehensive Income and Expenditure. However, changes in interest payable and receivable on variable rate borrowings and investments will be posted to the Surplus or Deficit on the Provision of Services and affect the General Fund Balance pound for pound. Movements in the fair value of fixed rate investments that have a quoted market price will be reflected in Other Comprehensive Income and Expenditure.

The authority's investment strategy aims to manage interest rate risk by maintaining a number of discrete investment portfolios which are managed by external fund managers. The separation of equities, multi-asset and bond investments in this way effectively minimises the Council's exposure to interest rate movements. The risk of loss remains with the authority. In the longer term, the Scottish Government regularly reviews the level of grant support it provides to local authorities, which may result in additional support being provided to recognise the impact of changes in interest rates on the local authority's finances.

To illustrate the notional impact of changes in interest rates upon the Council, the following table shows the financial effect if rates had been 1% higher, with all other variables held constant.

	2023-2024	2024-2025
	£000	£000
Increase in interest receivable on variable rate investments	109	117
Impact on Surplus or Deficit on the Provision of Services	109	117
Decrease in fair value of variable rate investment assets	416	427
Decrease in fair value of fixed rate borrowings liabilities (no impact on the Surplus or Deficit on the Provision of Services or Other Comprehensive Income and Expenditure)	3,179	2,633

The impact of a 1% fall in interest rates would be as above but with the changes being reversed.

Market risk: price risk

The authority held £260.718M of investments as at 31 March 2025 in the form of equities, multi-asset and bonds. The authority is consequently exposed to losses arising from movement in the price of the shares.

The authority's investment strategy limits its exposure to price movements by diversifying its investment portfolio through the use of external fund managers, investment guidelines, benchmarks and targets.

These clearly defined shares are mainly classified as Fair Value through Profit or Loss with the investment in the local wind energy company and fishing quota classified as Fair Value Other Comprehensive Income, meaning that all movements in price will impact directly on the income and expenditure statement. A general shift of 5% in the general price of shares (positive or negative) would have resulted in a £13.036M gain or loss being recognised in the income and expenditure statement.

Market risk: foreign exchange risk

As part of the portfolio of £260.718M of investments, the authority held £74.228M of investments in the form of global equities and multi-assets pooled funds.

The authority's investment strategy limits its exposure to price movements by diversifying its investment portfolio through the use of external fund managers, investment guidelines, benchmarks and targets.

These clearly defined shares are all classified as Fair Value through Profit or Loss, meaning that all movements in price will impact directly on the income and expenditure statement. A general shift of 5% in the general price of shares (positive or negative) would have resulted in a £3.714M gain or loss being recognised in the income and expenditure statement.

Note 36 Charitable and Non-Charitable Trust Funds

This section of the Annual Accounts shows the summary of transactions relating to the Charitable and Non-Charitable Trust Funds administered by Orkney Islands Council as sole trustee. A summary of the balances held at 31 March 2025 and how these balances were invested is also detailed. Orkney Islands Council administers these Funds and separately accounts for them. They do not form part of the Council's single entity balance sheet, although under s222 of the Local Government (Scotland)

Act 1973, the property of the Trust Funds “vest[s] in” the relevant local authority. However, they are included in the Annual Accounts of the Council as a note to the core financial statements.

Many of the sundry trusts are registered with the Office of the Scottish Charity Regulator (OSCR) as charities. Details of these are shown in Note 1 below.

Summary Income and Expenditure Statement

2023-2024		2024-2025		
		Registered Charitable Trusts	Non-Registered Trusts	Total
		£000	£000	£000
	Income			
(496)	Interest on Investments etc.	(2)	(146)	(148)
	Expenditure

1,176	Trust Fund Balances		28	986	1,014
1,176	Total Net Worth		28	986	1,014

1. Registered as Charities

The table below details the names and Scottish Charity number of each of the charitable trust funds which are registered with the Office of the Scottish Charity Regulator (OSCR). The Council has prepared Charities Statement of Recommended Practice (SORP) compliant financial statements on a receipts and payments basis for submission to OSCR.

Orkney Educational Trust (OET)	SC044607
William Orkney Reid’s Bursary Fund	SC044607

2. Trust Fund Balances

The funds registered with OSCR and administered by the Council, and their purposes are as follows:

	£000
Orkney Educational Trust	
Various bursary awards to promote further education opportunities, sports, visual arts, music and drama	23
William Orkney Reid’s Bursary Fund	
To assist the education of any promising pupils at Kirkwall Grammar School	6
Total	29

Copies of the annual accounts of the Charitable Funds are available on the Council website.

Note 37 Common Good Fund

Common Good Funds were inherited from the former Burgh Councils at reorganisation of local government in 1975. Common Good Funds are held for the benefit of residents of the former Burghs of Stromness and Kirkwall.

The assets of the Fund are the properties of these former Burghs and monies are invested with the Council's Loans Fund. The Fund's main expenditure is incurred in respect of the maintenance of properties and the provision of grants to local organisations, while the Fund's income is derived from property rentals and interest generated on investments.

Housing Revenue Account

Housing Revenue Account income and expenditure statement

The Housing Revenue Account (HRA) reflects a statutory obligation to maintain a revenue account for local authority housing provision in accordance with the Housing (Scotland) Act 1987. The Housing Revenue Account income and expenditure statement shows the economic cost in the year of providing housing services in accordance with generally accepted accounting practices, rather than the amount to be funded from rents and government grants. Councils charge rents to cover expenditure in accordance with regulations; this may be different from the accounting cost. The increase or decrease in the year, on the basis on which rents are raised, is shown in the movement on the Housing Revenue Account statement.

2023-2024		2024-2025	
		£000	£000
	<i>Expenditure:</i>		
2,226	Repairs and maintenance	2,485	
979	Supervision and management	989	
2,477	Depreciation and impairment of non-current assets	1,232	
9	Increase or (decrease) in the allowance for bad debts	42	
5,691			4,748
	<i>Income:</i>		
(4,468)	Dwelling rents	(4,698)	
(118)	Other income	(104)	
(4,586)			(4,802)
1,105	Net cost of HRA services as included in the comprehensive income and expenditure statement		(54)
	<i>HRA share of the operating income and expenditure included in the comprehensive income and expenditure statement</i>		
(1,992)	Capital grants	(1,938)	
6	(Gain) or loss on sale of HRA non-current assets	82	
413	Interest payable and similar charges	529	
(39)	Pensions interest cost and expected return on pensions assets	(41)	
(1,612)			(1,368)
(507)	(Surplus) or deficit for the year on HRA services		(1,422)

Movement on the Housing Revenue Account statement

This statement shows the movement in the year on the Housing Revenue Account (HRA) Balance. The surplus or deficit for the year on the HRA income and expenditure statement represents the true economic cost of providing the Council's HRA services, more details of which are shown in the HRA income and expenditure statement itself. The adjustments between accounting basis and funding basis under regulations detail the adjustments that are made to the HRA income and expenditure, as recognised by the Council in the year in accordance with proper accounting practice, to the statutory amounts required to be charged to the HRA Balance for dwellings rent setting purposes.

2023-2024		2024-2025			
		£000	£000	£000	£000
(503)	Balance on the HRA at the end of the previous year				(803)
(507)	(Surplus) or deficit for the year on the HRA income and expenditure statement			(1,422)	
	<i>Adjustments between accounting basis and funding basis under regulations:</i>				
(6)	Reverse out gain or (loss) on sale of HRA non-current assets		(82)		
	<i>HRA share of contributions to or (from) the Pension Reserve:</i>				
(37)	Reverse out net charges made for post-employment benefits in accordance with IAS19	(45)			
60	Pensions cost chargeable for the year in accordance with statutory provisions: employer's contributions payable to Orkney Islands Council Pension Fund	58			
	HRA share of contributions to or (from) the Pension Reserve				
0	Capital expenditure funded by the HRA				
	<i>Transfer to or (from) the Capital Adjustment Account:</i>				
(2,477)	Reverse out depreciation and impairment gains on non-current assets	(2,232)			
1,992	Reverse out credits made for capital grants	1,938			
851	Loans fund principal contribution from the HRA	1,247

(803)	Balance on the HRA at the end of the current year				(583)

Notes to the Housing Revenue Account income and expenditure statement

1. The number and types of dwelling in the Council's housing stock

The Council was responsible for managing 1,024 dwellings during 2024/25 (993 in 2023/24). The following shows an analysis of these dwellings by type.

Number at 31 March 2024 (Restated)	Type of dwelling	Number at 31 March 2025
28	One-apartment	28
383	Two-apartment	394
321	Three-apartment	328
242	Four-apartment	256
16	Five-apartment	15
3	Six-apartment	3
993	Total	1,024

2. The amount of rent arrears

At 31 March 2025 total rent arrears amounted to £0.575M (£0.559M at 31 March 2024). This is 12.24% of the total value of rental income at 31 March 2025.

3. The provision considered to be necessary in respect of uncollectable rent arrears

In the financial year 2024/25 the rental bad debt provision has increased by £0.020M (£0.005M increase during 2023/24). The provision to cover the potential loss of income stands at £0.207M at 31 March 2025. This is 4.40% of the total value of rents at that date.

4. The total value of uncollectable void rents

The total value of uncollectable void rents for Council dwellings that were not let during the year was £0.067M (£0.062M during 2023/24).

Council Tax Income Account

Councils raise taxes from residents by way of a property tax – the council tax – which is based on property values. Each dwelling house in a local authority area is placed into one of eight valuation bands, “A” to “H”. The Council declares an annual charge for band D properties and all other properties are charged a proportion of this – lower valued properties pay less; higher valued properties pay more. The Council Tax Income Account shows the gross income raised from Council Taxes levied and deductions made under statute. The resultant net income is transferred to the Council’s comprehensive income and expenditure statement.

2023-2024		2024-2025
£000		£000
14,817	Gross council tax levied	14,960
(997)	Council Tax Reduction Scheme	(990)
(1,806)	Other discounts and reductions	(1,296)
(110)	Write-off of uncollectable debts and allowance for impairment	(145)
(70)	Adjustment to previous years’ council tax	(68)
11,834	Transfer to the General Fund	12,461

Calculation of the council tax

Dwellings are valued by the Assessor and placed within valuation bands ranging from the lowest “A” to the highest “H”. The Council Tax base is the number of chargeable dwellings across all valuation bands (adjusted for dwellings where discounts apply), after providing for non-payment, expressed as an equivalent number of band D dwellings. The band D Council Tax charge is calculated using the Council Tax base and this in turn fixes the charge for each of the other bands, which are based on pre-determined proportions relative to the band D charge. The band D charge for 2024/25 was £1,369.21 (£1,369.21 in 2023/24).

A discount of 25% on the Council Tax is made where there are fewer than two residents in a property. Discounts of 50% are made for unoccupied property for a period of up to six months. Certain persons are disregarded for Council Tax purposes, including people who are in detention, students and people who are severely mentally impaired. Reductions in Council Tax payable are also available for people with disabilities.

Charges for water and sewerage services are the responsibility of Scottish Water. Orkney Islands Council collects total monies and makes a precept payment to Scottish Water on the basis of collection levels based on a pre-determined formula. The figures below exclude the water and sewerage charges.

Annual council tax charges

2024-2025							
Band A	Band B	Band C	Band D	Band E	Band F	Band G	Band H
£912.81	£1,064.94	£1,217.08	£1,369.21	£1,798.99	£2,224.97	£2,681.37	£3,354.57

Calculation of the council tax base

2024-2025	Number of dwellings	Number of exemptions	Disabled relief	Discounts of 25%	Discounts of 50%	Council Tax Reduction	Total equivalent dwellings	Ratio to Band D	Band D equivalents
@	0	0	7	(1)	0	(2)	4	200/360	2

2536

@ denotes additional relief for disabled persons occupying Band A properties

Non-Domestic Rates Account

This account is an agent's statement that reflects the statutory obligation for those councils who issue bills to non-domestic rate payers to maintain a separate non-domestic rate account. The account shows the rates collected from non-domestic rate payers during the year. Any difference between the rates collected and the amount the Council is guaranteed to receive under the national pooling arrangements is adjusted via the Scottish Government's general revenue grant to the Council. Non-domestic rate income is redistributed from the national non-domestic rate pool in proportion to the resident population of each council area, and therefore bears no direct relationship with the amount charged or collected by those councils.

2023-2024		2024-2025
£000		£000
16,853	Gross rates levied	17,511
(4,854)	Reliefs and other deductions	(5,139)
(162)	Write-offs of uncollectable debts and allowance for impairment	(97)
11,837	Net non-domestic rate income	12,275
(70)	Adjustment to previous years' non-domestic rates	46
(294)	Contribution (to) or from the national non-domestic rate pool	(145)
11,473	Transfer to comprehensive income and expenditure statement	12,176

The nature and amount of each rate fixed

The non-domestic rates charge for each subject is determined by the rateable value placed upon it by the Assessor, multiplied by the rate per pound (the "rate poundage"). The national non-domestic rates poundage is set each year by the Scottish Ministers. For 2024/25 the charge was 49.8 pence in the pound. From 1 April 2017 the Scottish Government amended the existing Small Business Bonus Scheme (SBBS). Under the SBBS properties with a rateable value up to and including £12,000 are entitled to a 100% reduction in their business rates. Properties with a rateable value of between £12,001 and £15,000 receive a 25% reduction. Additionally, a business with two or more properties with a combined rateable value of £35,000 are eligible to qualify for relief of 25% on individual properties with a rateable value of £15,000 or less.

For properties with a rateable value over £51,000 but less than £100,000 a supplement of 1.3 pence in the pound was added as per the Non-Domestic Rates (Levying) (Scotland) Regulations 2020. For properties with a rateable value over £100,001 the supplement was 2.6 pence in the pound.

Analysis of Orkney Islands Council's rateable values:

2024-2025		£000	£000
Rateable value at 1 April 2024:	Commercial	9,854	
	Industrial and Freight Transport	5,215	
	Others	18,463	
			33,532
Running roll (full-year rateable value)			(21)
Rateable value at 31 March 2025			33,511
Wholly exempt subjects			(521)
Net rateable value at 31 March 2025			32,990

Harbour Authority Account

Harbour Authority Revenue Account income and expenditure statement

The Orkney County Council Act 1974 permits the Council to establish and operate a Harbour Authority Account. The trading position from harbour operations is reflected within the Council's Cost of Services, with surpluses carried to a Strategic Reserve Fund within the Harbour Authority Account.

The purpose of the Strategic Reserve Fund is to provide for the benefit of Orkney and its inhabitants including the development of one-off strategic capital projects. The Strategic Reserve Fund is also supporting the level of General Fund Services as part of an agreed Medium Term Financial Strategy at a time when support from Central Government is forecast to decline.

As surplus balances have accumulated over the years, the range of asset classes that the Strategic Reserve Fund holds has expanded to include an extensive portfolio of equities, bonds, diversified growth and UK property funds that are all managed by external fund managers. In addition to this, the Council also holds a range of local investments, including a portfolio of investment properties, shares in companies, fishing quota and loans to business.

The prime objective for the managed fund investments is to maintain or increase their value in real terms over time, after allowing for disbursements or spending commitments on the Strategic Reserve Fund. To achieve this, external fund managers are incentivised to outperform the financial markets for their respective mandates, in order to meet the targets set by the Council.

2023-2024		2024-2025		
		£000	£000	£000
Net		Expenditure	Income	Net

Movement on the Harbour Authority Revenue Account Statement

This statement shows the movement in the year on the Harbour Authority Revenue Account Balance. The surplus or deficit for the year on the Harbour income and expenditure statement represents the true economic cost of providing the Council's Harbour Authority, more details of which are shown in the Harbour income and expenditure statement itself. The adjustments between accounting basis and funding basis under regulations detail the adjustments that are made to the Harbour income and expenditure, as recognised by the Council in the year in accordance with proper accounting practice, to the statutory amounts required to be charged to the Harbour Balance.

Group Accounts

Statement of Group Accounting Policies

The Code of Practice on Local Authority Accounting in the United Kingdom 2010-2011 (the Code) placed a requirement on authorities to consider all their interests in external organisations including limited companies and other statutory organisations. This includes other local authorities or similar bodies defined in section 106 of the Local Government (Scotland) Act 1973 e.g., statutory bodies such as Valuation Boards.

Authorities are required to prepare a full set of group accounts in addition to their own Council's accounts where they have a material interest in such entities. The group Financial Statements to 31 March 2025 represents the consolidation of the balances and transactions of the Council, its subsidiaries, associate and joint ventures.

The group accounting policies are those specified for the single entity financial statements. The financial reporting framework that has been applied in the preparation of the group members is FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" ("FRS 102") and the requirements of the Companies Act 2006.

Combining Entities

A full set of group accounts, in addition to the Council's accounts, has been prepared which incorporates material balances from identified subsidiaries, associate and joint ventures. The Group Accounts consolidate the results of the Council with five other entities.

Name of Combining Entity	Method of Accounting
Orkney Ferries Limited	Subsidiary
Pickaquoy Centre Trust	Subsidiary
Hammars Hill Energy Ltd	Associate
Orkney Integration Joint Board	Joint Venture

To comply with the Code, the Council has identified one company, Orkney Ferries Limited, where the Council holds 100% of the shares and has a "controlling interest" – this is termed a "subsidiary". In accordance with the definition of 'control', the Council has included the results of the Pickaquoy Centre Trust which are reported as a "subsidiary" on the basis that the Council has power over the investee; exposure, or rights, to variable returns from its involvement with the investee; and the ability to use its power over the investee to affect the amount of the investor's returns.

The Council is also required to include the results of organisations termed as "associates", or "joint ventures" if it has a "joint control of", or "significant influence" over financial and operating policies.

The Council has included the results of Hammars Hill Energy Ltd as an "associate" within the Group Accounts, as the Council holds 28% of voting rights which is considered "significant influence". The Council's policy is to account for shareholdings in an associate to a round percentage calculation of the number of shares it holds in the entity. The Council holds 1,103,200 shares in the Company.

The Council has included the Orkney Integration Joint Board (OIJB) as a "joint venture" within the Group Accounts on the basis that the Council and the National Health Service (NHS), as the parties participating in the arrangement, have joint equal rights to the net assets of the OIJB.

The associate organisation and joint ventures were consolidated on the following basis:

Name of Combining Entity	Method of Accounting	2023-2024	2024-2025
		%	%
Hammars Hill Energy Ltd	Equity Method	28	28
Orkney Integration Joint Board	Equity Method	50	50
Orkney Research and Innovation Campus	Equity Method	50	0

Further details for each entity are provided in the notes to the Group Accounts.

Basis of Consolidation and Going Concern

In line with the principles contained within the Code, the Group Financial Statement for the year ended 31 March 2025 has been prepared on the basis of a full consolidation of the financial transactions and balances of the Council and its subsidiaries.

"Subsidiaries" have been accounted for under the accounting convention of the "acquisition basis". The "associate" and the "joint ventures" have been included using the equity method, where the Council's share of the net assets or liabilities of the "associate" is incorporated and adjusted each year by the Council's share of the entity's results (recognised in the Group Income & Expenditure Statement), and its share of other gains and losses.

The effect of inclusion of the above bodies on the Group Balance Sheet is to decrease both Reserves and Net Assets by £3.154M representing the Council's share of the net liabilities in these entities.

The above subsidiary, associate and joint ventures consider it appropriate that their Annual Accounts should follow the "going concern" basis of accounting.

Group Movement in Reserves

For the Year Ended 31 March 2025

This statement shows the movement in the year on the different reserves held by the group, analysed into 'usable reserves' (i.e., those that can be applied to fund expenditure or reduce local taxation), unusable reserves and the group share of subsidiaries and associate reserves. The Surplus or (Deficit) on the Provision of Services line shows the true economic cost of providing the group's services, more details of which are shown in the Group Comprehensive Income and Expenditure Statement.

Group Comprehensive Income and Expenditure Statement for the year ended 31 March 2025

This statement shows the accounting cost in the year of providing services and managing the group in accordance with generally accepted accounting practices, rather than the amount to be funded from taxation. Authorities raise taxation to cover expenditure in accordance with regulations; this may be different from the accounting cost. The taxation position is shown in the Movement in Reserves Statement.

Group Balance Sheet as at 31 March 2025

The Balance Sheet shows the value as at the Balance Sheet date of the assets and liabilities recognised by the group. The net assets of the group (assets less liabilities) are matched by the

reserves held by the group. Group Reserves have three categories of underlying other reserves. The first category is usable reserves, the second category is those that the authority is not able to use to provide services and the final category is the group's share in the reserves of its consolidated subsidiaries and associate. Further details relating to these categories can be found within the Council's notes to the core financial statements.

Director of Enterprise and Resources

Group Cash Flow Statement at 31 March 2025

The Cash Flow Statement shows the changes in cash and cash equivalents of the group during the reporting period. The statement shows how the group generates and uses cash and cash equivalents by classifying cash flows as operating, investing and financing activities. The amount of net cash flows arising from operating activities is a key indicator of the extent to which the operations of the group are funded by way of taxation and grant income or from the recipients of services provided by the group. Investing activities represent the extent to which cash outflows have been made for resources which are intended to contribute to the group's future service delivery. Cash flows arising from financing activities are useful in predicting claims on future cash flows by providers of capital (i.e., borrowing) to the group.

	2023-2024	2024-2025
	£000	£000

Notes to the Financial Statements

For the Year Ended 31 March 2025

The notes required for the accounts of Orkney Islands Council itself are disclosed separately in the preceding pages. The following notes provide material additional amounts and details in relation to the other combining entities. The accounting regulations require specific disclosures about the combining entities and the nature of their business.

1. Disclosure of Differences with Main Statement of Accounting Policies

The financial statements in the Group Accounts of Orkney Islands Council are prepared in accordance with the accounting policies set out in the Council's Financial Statement Notes section with the additions and exceptions shown in the following section.

Group Income and Expenditure Statement

Retirement Benefits

In common with Orkney Islands Council, the subsidiaries participate in the Council's Pension Scheme. This is explained within the Council's Financial Statements Notes 32 and 33. The subsidiaries have accounting policies for pensions accounting that are consistent with those of the Council.

Value Added Tax

VAT paid by the Pickaquoy Centre Trust is accounted for within "net cost of service" to the extent that it is irrecoverable from H.M. Revenue and Customs.

Proceeds from Disposals of Fixed Assets

Profits and losses on the disposal of non-current assets are credited or debited to the Group Income & Expenditure Statement in a separate line. In the case of proceeds for the Council's assets, these are taken to the Usable Capital Receipts Reserve. Amounts in respect of Council assets are appropriated to the Capital Adjustment Account. For the share of proceeds for associates, these are taken instead to the Group.

Group Balance Sheet

Valuation of Fixed Assets

The basis of valuation across the combining entities is in accordance with International Financial Reporting Standards (IFRS). Operational assets are shown at the lower of net replacement cost or net realisable value in existing use. There are no material inconsistencies with the policies adopted by Orkney Islands Council

Stock

Stock is valued at the lower of cost or net realisable value. The difference in valuation methods does not have a material effect on the Group given the levels of stockholdings.

2. Combining Entities

The Subsidiaries have been consolidated on a line-by-line basis. To permit consolidation, the Profit and Loss Accounts of the subsidiary entities have been presented in accordance with the Code of Practice on Local Authority Accounting in the United Kingdom. The following section provides some additional information on the relationship between the Council and each subsidiary. The Council would ensure an orderly winding up of each subsidiary should the businesses cease.

Orkney Ferries Limited

Orkney Ferries Ltd is a company incorporated in 1961 under the terms of the Companies Acts to provide sea transport to the North and South Isles of Orkney. The Council is the principle shareholder in the company holding all 7,500,000 £1 ordinary shares, representing 100% of the issued share capital. Under accounting standards, the Council has a controlling interest in this company, and it is therefore included in the group accounts as a subsidiary. Councillors hold all 5 seats on the board, with each director entitled to one vote.

The net assets of the company at 31 March 2025 were £8.800M compared to net assets of £7.389M at 31 March 2024. There was a loss of £0.723M before taxation for the period to 31 March 2025 compared to a loss of £0.043M to 31 March 2024. In 2024/25, Orkney Islands Council contributed £15.669M or 82.2% of the company's income. Orkney Ferries is deficit funded, whereby, any surpluses or deficits earned by the Company will be repaid to or recovered from the Council. No dividend payments were due to, or received by, the Council in respect of its investment.

The latest set of audited accounts is for the year to 31 March 2025. Copies of these accounts can be obtained from Orkney Islands Council, School Place, Kirkwall, Orkney, KW15 1NY.

Pickaquooy Centre Trust

The Pickaquooy Centre Trust is a charitable trust formed in 1999 and is registered in Scotland. Its principal place of business is The Pickaquooy Centre, Muddisdale Loan, Kirkwall KW15 1LR. The Trust provides leisure facilities within Orkney Islands Council's area to the general public. The objectives of the Trust are to provide facilities for recreation, sport, cultural and other leisure activities for the benefit of the community in Orkney. Any surplus generated by the charity is applied solely to its continuation and development. Councillors hold 5 of the 12 seats on the board, with each trustee entitled to one vote.

In 2024/25, Orkney Islands Council contributed £0.792M or 23.8% of the company's income and its share of the year-end net assets of £0.511M (2023/24 net assets of £1.288M) is included in the Group Balance Sheet.

The latest set of audited accounts is for the year to 31 March 2025. When available, copies of these accounts can be obtained from The Pickaquooy Centre, Muddisdale Loan, Kirkwall KW15 1LR.

Hammars Hill Energy Ltd

Hammars Hill Energy Ltd is a private limited company incorporated in 2006. Its principal activity is that of wind farm developer and electricity generator.

Hammars Hill Energy Ltd is included in the Council's Group Accounts as, although no Council Member sits on the Board of Directors, the Council hold 28% of shares in the company and is therefore classed as "exerting a dominant or significant influence".

The latest set of audited accounts is for the year to 31 December 2024. Copies of these accounts can be obtained from Hammars Hill Energy Ltd, Savigarth, Evie KW17 2PQ.

The following additional disclosures are required under accounting regulations for Hammars Hill Energy Ltd as the Council's share of the net assets of the Company exceeds 25%.

Council's Share of Hammars Hill Energy Ltd	2023-2024 28.00% £000	2024-2025 28.00% £000
Turnover	749	595
Profit/(Loss) before tax	399	155
Taxation	(128)	(43)
Profit/(Loss) after tax	271	112
Fixed Assets	713	648
Current Assets	731	903
Liabilities due within one year	(221)	(221)
Liabilities due after one year or more	(132)	(132)
Net Assets/Liabilities	1,091	1,198
Contingent Liabilities	None	None
Capital Commitments	None	None

Orkney Integration Joint Board

The Orkney Integration Joint Board was established as a body corporate by order of Scottish Ministers with effect from 6 February 2016. The main purpose of the OIJB is to plan, resource and oversee the delivery of high-quality health and social care services for and with the people of Orkney. The Council and the NHS are jointly accountable for the delivery of services by the OIJB; however, there is no role for either Party to independently sanction or veto decisions of the OIJB. The OIJB has therefore been included in the Group Accounts using the equity method.

The OIJB Financial Statements have been prepared to show transactions occurring between 1 April 2024 to 31 March 2025. The expenditure was £81.707M and the income was £82.278M resulting in net surplus of £0.571M. The balance sheet consisted of short-term debtors of £3.286M and short-term creditors of £Nil, with total reserves of £3.286M. This surplus has been classed as earmarked balances and accounted for on a 50% equity basis by OIC. This means a total of £1.643M has been included in the total reserves of the Group Accounts.

The latest set of audited accounts is for the year to 31 March 2025. Copies of these accounts can be obtained from Orkney Islands Council, School Place, Kirkwall, Orkney, KW15 1NY.

Orkney Research and Innovation Campus

Orkney Islands Council entered into a Limited Liability Partnership with Highlands and Islands Enterprise to establish the Orkney Research and Innovation Campus (ORIC). The partnership was established on 26 March 2018 and is included in the Group Accounts as at 31 March 2024 as a "joint venture" under IFRS11. IFRS11 defines a joint venture as "a business arrangement in which two or more parties agree to pool their resources for the purpose of accomplishing a specific task".

The net assets included in the Group Accounts as at 31 March 2024 were £1.745M. The total investment in ORIC up to 31 March 2024 £4.171M.

During 2024/25 the Council agreed to divest its interest in ORIC to enable Highlands and Islands Enterprise to take full control of the venture. At the point of sale the Council had invested £4.371M in the joint venture. The sale resulted in a cash receipt of £0.842M and a loss on disposal of £3.529M. However, it should be noted that £ 3.298M of the investment had previously been provided for in the Council's financial statements.

3. Financial Impact of Consolidation

The effect of inclusion of the above bodies on the Group Balance Sheet is to increase both Reserves and Net Assets by £9.491M representing the Council's share of the net liabilities in these entities.

4. Non-Material Interest in Subsidiaries, Associates and Joint Committees

The following bodies have not been consolidated into the group accounts as they are considered immaterial to the understanding of the accounts or where the Council does not exert a dominant or significant influence on the Company.

Name of considered entity	Reason for exclusion from Group Accounts
Orkney Cheese Company Limited	The Council does not exert a dominant or significant influence on the Company.
Orkney Islands Property Development Limited	The Council does not exert a dominant or significant influence on the Company.
Orkney and Shetland Valuation Joint Board	Not material to Group Accounts
Common Good Fund	Not material to Group Accounts
Weyland Farms Limited	Not material to Group Accounts
HiTrans	Not material to Group Accounts
Charitable Trusts	Not material to Group Accounts
SEEMIS Limited Liability Partnership	Not material to Group Accounts
Community Co-ops	Not material to Group Accounts

5. Surplus/Deficit on Continuing Operations of Subsidiaries

The inclusion of Orkney Ferries Limited and the Pickaquoy Centre Trust had the following effect on the Authority's Services income and expenditure, accounted for under generally accepted accounting practices is presented more fully in the Comprehensive Income and Expenditure Statement.

	2023-2024			2024-2025		
	£000	£000	£000	£000	£000	£000
	Expenditure	Income	Net	Expenditure	Income	Net
Roads and Transportation	2,957	(2,869)	88	4,155	(3,403)	752
Cultural, environmental, regulatory and planning services	2,973	(2,839)	134	3,330	(3,285)	45
Total	5,930	(5,708)	222	7,485	(6,688)	797

6. Share of Operating Results of Associates and Joint Ventures

	2023-2024	2024-2025
	Net (Income) / Expenditure £000	Net (Income) / Expenditure £000
Associate and Joint Venture accounted for on an equity basis	2,715	(960)
Total	2,715	(960)

7. Financing and Investment Income and Expenditure Attributable to Group Entities

The inclusion of Orkney Ferries Limited and the Pickaquoy Centre Trust had the following effect on the service analysis as set out in the single entity Comprehensive Income and Expenditure Statement.

	2023-2024	2024-2025
Subsidiaries	£000	£000
Interest Expense	0	0
Interest Income	(45)	(28)
Pension Interest	(29)	(11)
Total Group Entities	(74)	(39)

8. Reconciliation of the Deficit / (Surplus) on the Authority's single entity Income and Expenditure Statement to the Group Income and Expenditure Statement deficit / (surplus).

	2023-2024	2024-2025
	£000	£000
Deficit/(Surplus) for the year on the Authority Income and Expenditure Statement	(10,350)	(39,812)
Deficit/(Surplus) for the year attributable to group entities	1,345	(4,157)
Deficit/(Surplus) for the year on the Group Income and Expenditure Statement	(9,005)	(43,969)

9. Pension Costs

Orkney Islands Council, Orkney Ferries Limited and the Pickaquoy Centre Trust are members of the Local Government Pension Scheme – a defined benefit scheme that offers retirement benefits to employees under the terms and conditions of employment. Although these benefits will not actually be payable until employees retire, the group has a commitment to make the payments that need to be disclosed at the time employees earn their future entitlement. The net liability of the Council and its subsidiaries is detailed below.

	2023-2024			2024-2025
	Total	Council	Group Entities	Total
	£000	£000	£000	£000
Fair Value of Employer Assets	(526,715)	(482,538)	(37,368)	(519,906)
Present value of funded liabilities	375,473	303,963	23,977	327,940
Asset Ceiling Adjustment		178,575	13,391	191,966
Net (under)/overfunding in Funded Plans	(151,242)	0	0	0
Present value of unfunded liabilities	0	4,317	65	4,382
Net (asset)/liability	(151,242)	4,317	65	4,382

10. Other Pension Costs

A number of employees of Orkney Islands Council and Orkney Ferries Limited are not members of the Council's pension scheme. Most of them participate in one of the Merchant Navy Pension Funds.

Ensign Retirement Plan

Some employees of Orkney Ferries Ltd and of the Council contribute to this defined contribution pension plan. Contribution rates of 10% and 20% of pensionable salary are payable by employees and employers, respectively. Contributions payable in the year amounted to £56,223 (2023-24: £48,567).

Merchant Navy Officers Pension Fund (MNOFF)

The MNOFF is closed to new members and closed to future accrual from 31 March 2016 when contributing members were transferred to the Ensign Retirement Plan (for the MNOFF). The MNOFF is a multi-employer defined-benefit scheme and the Council is unable to identify its share of the underlying assets and liabilities. As at the last full valuation March 2024 the Fund had a deficit of £11M which was a decline from the 2021 surplus position of £58M. The Trustees and the Participating Employers agreed no deficit-repair contributions will be levied, as the shortfall is expected to be recovered from investment returns under the 2025 Recovery Plan.

The Trustee must carry out a full actuarial valuation at least every three years to assess the scheme's funding level. The next MNOFF Actuarial Valuation will refer to the three-year period ending 31 March 2027; in the interim, annual funding updates will continue (next due 31 March 2026).

Merchant Navy Rating Pension Fund (MNRPF)

Certain employees may qualify for membership of the MNRPF, a defined-benefit scheme that closed to future accrual on 31 May 2001. Employers continue to pay 2 % of pensionable salary to fund revaluation of deferred benefits. It is a multiple employer scheme and the group is unable to identify its share of the underlying assets and liabilities. As at the last full valuation in March 2023, the MNRPF had a deficit of £152M, and this has been updated on 10 June 2024 to a deficit of £24M. The Trustees of the fund have requested additional deficit contributions to be made.

The next formal valuation will be as at 31 March 2026. Annual progress reports will continue to be obtained each spring.

Glossary of Terms

AAA Fitch Rating

Highest credit quality - 'AAA' ratings denote the lowest expectation of credit risk. They are assigned only in case of exceptionally strong capacity for timely payment of financial commitments. This capacity is highly unlikely to be adversely affected by foreseeable events.

AA Fitch Rating

Very high credit quality - 'AA' ratings denote a very low expectation of credit risk. They indicate very strong capacity for timely payment of financial commitments. This capacity is not significantly vulnerable to foreseeable events.

A Fitch Rating

High credit quality - 'A' ratings denote a low expectation of credit risk. The capacity for timely payment of financial commitments is considered strong. This capacity may, nevertheless, be more vulnerable to changes in circumstances or in economic conditions than is the case for higher ratings.

Accounting Period

The period of time covered by the accounts, normally a period of twelve months commencing on 1 April. The end of the accounting period is the Balance Sheet date.

Accruals

Sums included in the final accounts to recognise revenue and capital income and expenditure earned or incurred in the financial year, but for which actual payment had not been received or made as at 31 March.

Actuarial Gains and Losses

For a defined benefit pension scheme, the changes in actuarial surpluses or deficits that arise because:

- Events have not coincided with the actuarial assumptions made for the last valuation (experience gains and losses); or
- The actuarial assumptions have changed.

Asset

An item having value to the authority in monetary terms. Assets are categorised as either current or non-current.

- A current asset will be consumed or cease to have material value within the next financial year (e.g., cash and stock).
- A non-current asset provides benefits to the Authority and to the services it provides for a period of more than one year and may be tangible e.g., a community centre, or intangible, e.g., computer software licences.

Audit of Accounts

An independent examination of the Authority's financial affairs.

Balance Sheet

A statement of the recorded assets, liabilities and other balances at the end of the accounting period.

Borrowing

Using cash provided by another party to pay for expenditure, on the basis of an agreement to repay the cash at a future point, usually incurring additional interest charges over and above the original amount.

Budget

The forecast of net revenue and capital expenditure over the accounting period.

Capital Expenditure

Expenditure on the acquisition of a fixed asset, which will be used in providing services beyond the current accounting period, or expenditure which adds to and not merely maintains the value of an existing fixed asset.

Capital Financing

Funds raised to pay for capital expenditure. There are various methods of financing capital expenditure including borrowing, leasing, direct revenue financing, usable capital receipts, capital grants, capital contributions, revenue reserves and earmarked balances.

Capital Programme

The capital schemes the Authority intends to carry out over a specific period of time.

Capital Receipt

The proceeds from the disposal of land or other fixed assets. Proportions of capital receipts can be used to finance new capital expenditure, within rules set down by the government but they cannot be used to finance revenue expenditure.

Claw-Back

Where average council house rents are set higher than the government's prescribed average limit rent, used in the calculation of rent rebates, the percentage difference reduces the amount of rent rebate subsidy due to the authority, i.e., it is "clawed-back" by the government.

CIPFA

The Chartered Institute of Public Finance and Accountancy

Collection Fund

A separate fund that records the income and expenditure relating to Council Tax and non-domestic rates.

Community Assets

Assets that the Authority intends to hold in perpetuity, that have no determinable useful life and that may have restrictions on their disposal. Examples of community assets are parks and historical buildings.

Comprehensive Income and Expenditure Statement

The account of the Authority that reports the net cost for the year of the functions for which it is responsible and demonstrates how that cost has been financed from precepts, grants and other income.

Consistency

The concept that the accounting treatment of like items within an accounting period and from one period to the next are the same.

Contingent Asset

A contingent asset is a possible asset arising from past events whose existence will be confirmed only by the occurrence of one or more uncertain future events not wholly within the Authority's accounts.

Contingent Liability

A contingent liability is either:

- A possible obligation arising from past events whose existence will be confirmed only by the occurrence of one or more uncertain future events not wholly within the Authority's control; or
- A present obligation arising from past events where it is not probable that a transfer of economic benefits will be required, or the amount of the obligation cannot be measured with sufficient reliability.

Corporate and Democratic Core

The corporate and democratic core comprises all activities that local authorities engage in specifically because they are elected, multi-purpose authorities. The cost of these activities is thus over and above those which would be incurred by a series of independent single purpose, nominated bodies managing the same services. There is therefore no logical basis for apportioning these costs to services.

Creditor

Amount owed by the Authority for work done, goods received, or services rendered within the accounting period, but for which payment has not been made by the end of that accounting period.

Current Service Cost (Pensions)

The increase in the present value of a defined benefits pension scheme's liabilities, expected to arise from employee service in the current period.

Debtor

Amount owed to the Authority for works done, goods received, or services rendered within the accounting period, but for which payment has not been received by the end of that accounting period.

Defined Benefit Pension Scheme

Pension schemes in which the benefits received by the participants are independent of the contributions paid and are not directly related to the investments of the scheme.

Depreciation

The measure of the cost of wearing out, consumption or other reduction in the useful economic life of the Authority's fixed assets during the accounting period, whether from use, the passage of time or obsolescence through technical or other changes.

Discretionary Benefits (Pensions)

Retirement benefits, which the employer has no legal, contractual or constructive obligation to award and are awarded under the Authority's discretionary powers such as the Local Government (Discretionary Payments) Regulations 1996.

Equity

The Authority's value of total assets less total liabilities.

Events after the Balance Sheet Date

Events after the Balance Sheet date are those events, favourable or unfavourable, that occur between the Balance Sheet date and the date when the Statement of Accounts is authorised for issue.

Expected Return on Pension Assets

For a funded defined benefit scheme, this is the average rate of return, including both income and changes in fair value but net of scheme expenses, which is expected over the remaining life of the related obligation on the actual assets held by the scheme.

Fair Value

The fair value of an asset is the price at which it could be exchanged in an arm's length transaction.

Finance Lease

A lease that transfers substantially all of the risks and rewards of ownership of a fixed asset to the lessee.

Going Concern

The concept that the Annual Accounts is prepared on the assumption that the Authority will continue in operational existence for the foreseeable future.

Government Grants

Grants made by the government towards either revenue or capital expenditure in return for past or future compliance with certain conditions relating to the activities of the Authority. These grants may be specific to a particular scheme or may support the revenue spend of the Authority in general.

Housing Benefits

A system of financial assistance to individuals towards certain housing costs administered by authorities and subsidised by central government.

Housing Revenue Account (HRA)

A separate account to the General Fund, which includes the income and expenditure arising from the provision of housing accommodation by the Authority.

Impairment

A reduction in the value of a fixed asset to below its recoverable amount, the higher of the asset's fair value less costs to sell and its value in use.

Infrastructure Assets

Fixed assets belonging to the Authority that cannot be transferred or sold, on which expenditure is only recoverable by the continued use of the asset created. Examples are highways, footpaths and bridges.

Intangible Assets

An intangible (non-physical) item may be defined as an asset when access to the future economic benefits it represents is controlled by the reporting entity. This Authority's intangible assets comprise computer software licences.

Interest Cost (Pensions)

For a defined benefit scheme, the expected increase during the period of the present value of the scheme liabilities because the benefits are one period closer to settlement.

Investments (Pension Fund)

The investments of the Pension Fund will be accounted for in the statements of that fund. However, authorities are also required to disclose, as part of the disclosure requirements relating to retirement benefits, the attributable share of the pension scheme assets associated with their underlying obligations.

Liability

A liability is where the Authority owes payment to an individual or another organisation.

- A current liability is an amount which will become payable or could be called in within the next accounting period, e.g., creditors or cash overdrawn.
- A deferred liability is an amount which by arrangement is payable beyond the next year at some point in the future or to be paid off by an annual sum over a period of time.

Liquid Resources

Current asset investments that are readily disposable by the Authority without disrupting its business and are either:

- Readily convertible to known amounts of cash at or close to the carrying amount; or
- Traded in an active market

Long-Term Contract

A contract entered into for the design, manufacture or construction of a single substantial asset or the provision of a service (or a combination of assets or services which together constitute a single project), where the time taken to substantially complete the contract is such that the contract activity falls into more than one accounting period.

Materiality

The concept that the Annual Accounts should include all amounts which, if omitted, or mis-stated, could be expected to lead to a distortion of the financial statements and ultimately mislead a user of the accounts.

Minimum Revenue Provision (MRP)

The minimum amount which must be charged to the revenue account each year in order to provide for the repayment of loans and other amounts borrowed by the Authority.

Net Book Value

The amount at which fixed assets are included in the Balance Sheet, i.e., their historical costs or current value less the cumulative amounts provided for depreciation.

Net Debt

The Authority's borrowings less cash and liquid resources.

Non-Distributed Costs

These are overheads for which no user now benefits and as such are not apportioned to services.

Non-Domestic Rates (NDR)

The Non-Domestic Rate is a levy on businesses, based on a national rate in the pound set by central government and multiplied by the assessed rateable value of the premises they occupy. In England it is collected by the Authority on behalf of itself, central government and major preceptors. In Scotland it is collected by the Authority on behalf of central government and then redistributed back to support the cost of services.

Non-Operational Assets

Fixed assets held by the Authority but not directly occupied, used or consumed in the delivery of services. Examples are investment properties, assets under construction or assets surplus to requirements pending sale or redevelopment.

Operating Lease

A lease where the ownership of the fixed asset remains with the lessor.

Operational Assets

Fixed assets held and occupied, used or consumed by the Authority in the pursuit of its strategy and in the direct delivery of those services for which it has either a statutory or discretionary responsibility.

Past Service Cost (Pensions)

For a defined benefit pension scheme, the increase in the present value of the scheme liabilities related to employee service in prior periods arising in the current period as a result of the introduction of, or improvement to retirement benefits.

Pension Scheme Liabilities

The liabilities of a defined benefit pension scheme for outgoings due after the valuation date. Scheme liabilities measured during the projected unit method reflect the benefits that the employer is committed to provide for service up to the valuation date.

Precept

The levy made by precepting authorities by billing authorities, requiring the latter to collect income from Council Tax on their behalf.

Prior Year Adjustment

Material adjustments applicable to previous years arising from changes in accounting policies or from the correction of fundamental errors. This does not include normal recurring corrections or adjustments of accounting estimates made in prior years.

Provision

An amount put aside in the accounts for future liabilities or losses which are certain or very likely to occur but the amounts or dates of when they will arise are uncertain.

Public Works Loan Board (PWLB)

A Central Government Agency, which provides loans for one year and above to authorities at interest rates only slightly higher than those at which the government can borrow itself.

Rateable Value

The annual assumed rental of a hereditament, which is used for National Non-Domestic Rate purposes.

Related Parties

There is a detailed definition of related parties in FRS 8. For the Council's purposes related parties are deemed to include the Authority's members, the Chief Executive, its Directors and their close family and household members.

Related Party Transactions

The Statement of Recommended Practice requires the disclosure of any material transactions between the Authority and related parties to ensure that stakeholders are aware when these transactions occur and the amount and implications of such.

Remuneration

All sums paid to or receivable by an employee and sums due by way of expenses allowances (as far as those sums are chargeable to UK income tax) and the money value of any other benefits received, other than in cash. Pension contributions payable by the employer are excluded.

Reserves

The accumulation of surpluses, deficits and appropriations over past years. Reserves of a revenue nature are available and can be spent or earmarked at the discretion of the Authority. Some capital reserves such as the fixed asset restatement account cannot be used to meet current expenditure.

Residual Value

The net realisable value of an asset at the end of its useful life.

Retirement Benefits

All forms of consideration given by an employer in exchange for services rendered by employees that are payable after the completion of employment.

Revenue Expenditure

The day-to-day expenses of providing services.

Revenue Expenditure Capitalised Under Statute (REFCUS)

Expenditure which ordinarily would be revenue but is statutorily defined as capital. Examples of REFCUS include grants of a capital nature to voluntary organisations and back pay expenditure capitalised under Secretary of State Direction.

Revenue Support Grant

A grant paid by Central Government to authorities, contributing towards the general cost of their services.

Stocks

Items of raw materials and stores an authority has procured and holds in expectation of future use. Examples are consumable stores, raw materials and products and services in intermediate stages of completion.

Temporary Borrowing

Money borrowed for a period of less than one year.

Trust Funds

Funds administered by the Authority for such purposes as prizes, charities, specific projects and on behalf of minors.

Useful Economic Life (UEL)

The period over which the Authority will derive benefits from the use of a fixed asset.
