### Fees Regulations

The Building (Fees) (Scotland) Amendment Regulations 2025 set the fees that are charged by verifiers for building warrant submissions, including those for “late” completion certificates and building warrant submissions. The discounts applicable when certificates of design or construction are submitted are also covered by these regulations. Details of the fees are set out in the table below, with the fees related to the ‘value of works’. In calculating the value of the works the applicant must use the normal market costs rather than any discounted costs which they might be able to achieve. For example, even if the labour was unpaid because it is a self-build project the value of the building work should still include a fair assessment of the value of labour had commercial contractors undertaken the work. The cost of verifying compliance is the same in both cases, indeed it may even be higher in a self-build project, so it is considered equitable that the warrant fee should be calculated on the same basis.

If the verifier feels the estimate of value provided by the applicant is incorrect, they may check the amount by reference to established indices of building costs, for example the **RICS Building Cost Information Surveys of Tender Prices**. This provides the mean, lowest and highest prices in £/m<sup>2</sup> for works of different character. It also provides a modifier which can be applied to reflect geographical variations throughout Scotland.

Examples of the anticipated estimated value of works in £/m<sup>2</sup> for common construction developments undertaken in the Orkney Islands include:

- Construction of ‘one-off’ housing – generally detached and semi-detached houses, including extensions to houses = £2,108/m<sup>2</sup> (relevant to ground and upper floor levels with a 0.75 modifier applied to the top-most floor area in 1½ storey houses, i.e. room in the roof)
- Construction of ‘estate housing’ – generally: - 2 storey construction = £2,012/m<sup>2</sup>
- Flats – generally - 1 to 2 storey construction = £1,730/m<sup>2</sup>, 3 to 5 storey construction = £1,800/m<sup>2</sup>
- Offices – generally - £1,996/m<sup>2</sup>
- Construction of industrial – factories/offices/garages – mixed facilities = £1,674/m<sup>2</sup>
- Construction of shops / supermarkets – generally = £1,7232/m<sup>2</sup>
- Rehabilitation/Conversions/Alterations to housing = £1331/m<sup>2</sup> (e.g. attic/garage in a domestic building for increased domestic use)
- Construction of domestic garage/outbuildings – generally = £950/m<sup>2</sup> to £1,433/m<sup>2</sup> (garages with WCs/stairs/floored attics, heating, etc)
- General purpose agricultural storage building = £507/m<sup>2</sup>
- Slatted court agricultural buildings = £966/m<sup>2</sup>

Examples of how to calculate the building warrant fee to construct houses of different character, having a 96m<sup>2</sup> gross internal ground floor area are shown below:

Single Storey 96m<sup>2</sup> x £2,108 = £202,368 ECW = **£2,042 building warrant fee**

Two Storey – Ground floor 96m<sup>2</sup> and 1<sup>st</sup> Floor 96m<sup>2</sup> = 192m<sup>2</sup>  
192 x £2,108 = £404,736 ECW = **£3,322 building warrant fee**

1½ Storey - Ground floor 96m<sup>2</sup> x £2,108 = £202,368 ECW  
1<sup>st</sup> floor 64m<sup>2</sup> x £2,108 x 0.75 = £101,184 ECW  
Total ECW = £303,552 = **£2,468 building warrant fee**

If the verifier believes the value of the works should be higher than stated, the verifier can refuse to consider the warrant application unless the value is increased, and the appropriate fee paid. The fee is set at zero for works to alter or extend a dwelling to improve its suitability for use by a disabled occupant.

The current Table of Fees is available overleaf:

### 3.15 Tables of fees

**3.15.1.** The fees and discounts available for building warrants for the construction of a building or for the provision of services, fittings or equipment in connection with a building (whether or not combined with a warrant for conversion or an application for demolition) is as per the following tables. (Note that the fees for late building warrant and completion certificates where no warrant was obtained are subject to higher level of fees).

**3.15.2** Application for building warrant for conversion only, that is without any building work –  
Fee is £210

**3.15.3** Application for demolition only, that is where there are no immediate plans for  
rebuilding -  
Fee is £210

**3.15.4** Application for amendment of Warrant –

a. where the new total estimated value is less than the original or is an increase of no more than £5,000 –

Fee is £150

b. where the new total estimated value increases by more than £5,000 –

Fee is the amount for a building warrant of the same value as the increase. (That is, if the increase is £20,000, the fee will be £650).

**3.15.5** Application for an amendment to warrant for demolition or conversion only –

Fee is £150

**3.15.6** Application to extend the period of validity of a warrant –

Fee is £150

**3.15.7** Where a late application for building warrant is made, or a completion certificate is submitted and there was no warrant obtained when there should have been, the fee is increased to cover the increased difficulty the verifier will have in establishing whether work that is already underway or completed complies with the plans, specifications and other information provided. The resulting fees are detailed below.

**3.15.8** Application for late building warrant, i.e. where work is already started –

a. application for a building warrant for the construction of a building or the provision of services, fittings and equipment in connection with a building (whether or not combined with an application for demolition) -

Fee is 200% of the fee in tables of fees above

b. application for warrant for demolitions only - Fee is £300

**3.15.9** Submission of a completion certificate where no warrant was obtained for –

a. the construction of a building or the provision of services, fittings or equipment (whether or not combined with an application for conversion or for demolition) –

Fee is 300% of the fee in tables of fees above

b. application for warrant for demolitions only or for conversion only –

Fee is £500

**3.15.10.** A warrant fee is discounted where certificate(s) from approved certifiers of design are presented with a warrant application, or before the building warrant is granted, as below:

- 10% (or the fixed levels of discounts for values of work up to £100,000, indicated in the tables above) for each certificate that covers the whole of any section of the functional standards, and/or
- The Building (Fees) (Scotland) Regulations 2004 allows for a 1% discount for each certificate covering a single item in any such section, up to a maximum of 5% for any one section, all subject to a maximum discount of 60% of the warrant fee. However, it should be

noted that there are currently no approved certifier of design schemes that cover single items within a section of the building standards.

When a local agreement is in place between the verifier and the applicant for phased payment

of the warrant fee, the discount should be due on all the payments, provided a certificate was submitted with, or the intended use confirmed on, the warrant application form.

Note that the above discounts apply where a late application for warrant is made, or a late completion certificate submitted. The discount is based on the value of works, as noted in table 1a and 1b. A worked example is provided below for a late building warrant with a value of work £52,000

### **Calculate full fee**

Value of work band 50,001 – 60,000

Building warrant fee payable in normal circumstances - £962

Late building warrant fee applied 200% of £962 = £1,924

Total full fee - £1,924

### **Calculate discount for using certifier**

Discount applied for certifier of design (based on £52,000 value of works) - £120

Total payable – £1,804 (based on single fixed amount discount)

Discounts also apply to an application for amendment to warrant but only where the increase in the estimated value of works exceeds £5,000. This may be for a different design scheme or, in the case of staged warrants, may involve a new certificate. The discount is on the amendment fee (which will take into account any increased value or work) and not the original fee.

**3.15.11.** A warrant fee is also discounted where it is stated at warrant application stage that one or more certificates from an approved certifier of construction will be presented with a completion certificate, as below:

- 3% (or the fixed levels of discount for values of work up to £100,000) for each certificate covering an approved scheme or
- 20% for a single certificate covering the construction of the entire building all subject to a maximum discount of 20%.

Except when accompanying a late completion certificate, a discount is only applicable where a verifier has been informed of the intention to use the approved certifier of construction at warrant application stage, including late warrant applications.

**3.15.12.** The discounts in relation to both certificates of design and certificates of construction are based on the original warrant fee (before any discounting).
