### **Digital Connectivity**

## **Priority: 1. Promote successful, thriving Communities**

**Target: 2.1. Digital Communications equality** 

We will ensure our public services, businesses and communities have access to resilient, effective, high speed digital communications (including mobile 4G). This will include seeking the best possible investment by the Scottish and UK Governments and digital suppliers

What: 1. We will make every effort to ensure Government commitments and the Broadband Delivery UK (BDUK) project deliver on their promises for high speed broadband which is resilient and pervasive for all our communities

- 2. We will support communities and hard to reach areas to achieve resilient broadband access and help them to access funding where it is available
  - 3. We will work with partners to lobby the UK and Scottish Governments to support improved mobile phone connection in Orkney, including access to 4G services

    How:

## Local Community Participation – Internal Council Processes Priority: 2. Promote successful, thriving Communities Target: 2.5. Local Community Participation

We will be supporting our communities to help themselves - developing Community Councils and supporting the Third Sector

What: 1. We will continue to work with and support our Voluntary Sector

- 2. We will help VAO and associated voluntary organisations to find the right premises to help them deliver voluntary services
- 3. We will devolve some Council Services to local communities to help them thrive. This will be done primarily through Community Councils
- 4. Decentralisation (moving work away from a central location): where there is no significant cost impact, we will look at the options for some Council services and operational activities to delivered within local communities

## Culture – Economic Development - Education Priority: 2. Promote successful, thriving Communities Target: 2.6. Orkney's Cultural Heritage

We will safeguard Orkney's cultural heritage including: considering the Council's role in Heritage Centres; supporting war time heritage; supporting archaeological heritage and genealogy

What: 1. We will produce a strategy for further protecting Orkney's cultural heritage including, for example, consideration of Scapa Flow Visitor Centre and Museum and our museums

- 2. We will make every effort to ensure Orkney has a high profile in the National Commemoration of World War I
  - 3. We will develop new economic development and heritage tourism opportunities linked to Orkney's wide ranging heritage assets for example possible archaeological centre and link to World Heritage Site Gateway Centre

## **Energy**

# Priority: 4. A Low Carbon Orkney – Renewables, Energy and Opportunity Target: 4.1. A Low Carbon Orkney – a green approach

A Low Carbon Orkney - we will be making the best use of energy resources and opportunities, and looking at ways to help eradicate fuel poverty

What: 1. We will develop and implement a Sustainable Energy Strategy for Orkney

2. We will develop the Council's response to the Green Deal Initiative

3. Working in partnership we will develop practical project ideas for energy storage / alternative energy, for example looking at district heating schemes, identifying alternative fuel supplies and addressing fuel poverty issues

Further investment opportunities will be investigated and progressed where possible in terms of staff and financial resource constraints. |

# Priority: 4. A Low Carbon Orkney – Renewables, Energy and Opportunity Target: 4.3. Making use of resources to capture energy

We will explore renewable energy capture through fixed links and the Churchill Barriers

What: 1. Fixed links (a built physical link between islands): we will review historic studies on fixed links and undertake an appraisal of opportunities to do this

2. We will develop a policy and capital programme for fixed links, if appropriate How:

## Transport Infrastructure Priority: 6. Orkney's Transport Networks Target: 6.2. Orkney's internal ferry and air services

We will ensure a robust, affordable and reliable ferry service based in the Isles (wherever possible) with a strategy for ferry replacement, and fairer provision of ferry costs with the Scottish Government, whilst preserving the internal air service

What: 1. We will refresh and implement the Scottish Transport Appraisal Guidance (STAG) priorities 2. We will work with the Scottish Government Ferries Plan process

- 3. We will undertake a detailed appraisal of air services in Orkney to enable us to evaluate whether enhanced services could be a value for money benefit to integrated transport
- 4. We will undertake a study to find out what the opportunities and constraints are for providing island-based ferry services. This will include looking at the economic impact of doing this How:
